Stirs Gallery but Quick Action by V. Pres. Marshall Prevents Demonstration

Appeals for League That Will be Justice to Oppressed People

(Special to The Sun.)

WASHINGTON, Oct. 10.—Senator Walsh, late yesterday afternoon made a strong and eloquent speech on the treaty and League of Nations. President Wilson for the noble sentiments he had expressed but claiming the treaty as written does not sustain them. Senator Walsh stated with great emphasis he was irrevocably opposed to the Shantung amendment also to certain phases of article 10 as tending to the repression of subject peoples in their efforts for free government. He stated with great positiveness that he should vote according to the sentiments he had expressed but did not

## BIG DROP IN INFANT MORTALITY RATE

For the week ending Oct. 4, Lowell stood 37th in the list of cities in the per cent. of infant mortality, with a figure of 11.1. This figure is not only 21 points lower than a week ago, when the city stood second in the list, but is the second lowest figure the city has experienced since the census bureau commenced to publish the weekly charts showing the infant mortality rate in a score of more cities throughout the country.

For the week ending May 31 of this year, Lowell's rate was 7.7, the lowest it has been since Oct. 6, 1917, and this week's rate stands as the second lowest. Jersey City heads the list this week with a per cent. of 25.3, while San Francisco is lowest at 6.5. For comparison the following cities and figures are given: Fall River, 27.3; Syracuse, 26.3; Boston, 19.4; Chicago, 21.8; New York, 17.5; Philadelphia, 12.3. The local figures fluctuate weekly, but not for many months has such a variance been noted as is contained in the comparison between this week's average of 11.1 and last week's of 32.1.

The Lincoln Highway is 3234 miles long.

Major and Three Soldiers Wounded in Riot in the Sarre District

Outbreak Follows Demonstration Against High Cost of Living

PARIS, Oct. 10.—A French major and three soldiers were wounded in a riot at Sarrebruck, in occupied Germany, on Tuesday, according to a despatch today to the Petit Parisien. The riot is described as having grown out of labor demonstrations against the high cost of living in which Spartacists joined.

The central telegraph office was fired on and stores were looted. Order was finally restored by the French forces.

Sarrebruck, or, to give it the common German form, Saarbrücken, is one of the principal towns of the Sarre district turned over to France for 15 years by the peace treaty in order to help make good for the destruction of coal mines at Lens and elsewhere and the corresponding loss of French coal production.

New York Police Find Plan to Smuggle Liquor Into Dixie

NEW YORK, Oct. 10.—The arrest of two men with satchels containing 14 quarts of whiskey in the Pennsylvania station today led Superintendent Spencer to announce that he had a room there filled with intoxicating liquor confiscated from men bound for the south.

"Smuggling liquor into Dixie seems to be considered a profitable business," he said.

# Opposition To Collective Bargaining and Closed Shop Outlined by Capital

## Declares Sympathetic Strikes, Blacklists and Boycotts "Indefensible and Immoral" — Agrees Right to Strike in Private Industry Should Not Be Denied — Urges Plan of Adjustment to Prevent Strikes of Federal and Public Service Employees

WASHINGTON, Oct. 10.—Opposition to collective bargaining and the closed shop were among 12 fundamental principles outlined by the group representing capital and presented today to the national industrial conference here.

Sympathetic strikes, blacklists and boycotts were declared to be "indefensible, anti-social and immoral."

While deploring strikes and lockouts, the principles set forth that the right of strike or lockout "should not

be denied as an ultimate resort after all possible means of adjustment have been exhausted." This right, however, should apply only to private industry.

In public utility service it was proposed that the state impose such regulations as would assure continuous operation at the same time providing adequate means for the prompt hearing and adjustment of complaints and disputes. Opposition to strikes of

government employees also was expressed, the principles stating that the right of such employees to be heard and to secure just redress should be amply safeguarded.

For the settlement of disputes in private industry, it was proposed that each establishment be regarded as an industrial unit with adequate machinery for adjustment of misunderstandings between employees and the management.

## COLUMBUS DAY PROGRAM

Lowell High School Holds Columbus Day Exercises at Keith's Theatre

High school pupils completely filled B. F. Keith's theatre this morning for their Columbus day exercises. Following a custom inaugurated by Horbert D. Bixby, the pupils were marched by rooms to the theatre at 11.20 o'clock and ten minutes later the exercises commenced. The speakers were Superintendent of Schools Hugh J. Molloy who confessed to a feeling of doubt as to his ability to feel perfectly at home while playing the dual role of educator and soldier, and Richard Brook Walsh, chairman of the school committee, who departed from the main object and thought of the gathering and spoke on "Thrill."

The exercises commenced with two excellent selections by the school band and mandolin club under the direction of William P. Hovey. The two numbers were "Blarney Jazz" and "American Medley Overture" and they

## RUSSIAN KILLS U. S. SOLDIER

Report From Omsk Says American Killed by Russian Officer at Vladivostok

Allied Commanders Demand Withdrawal of Russian Troops—Later Recalled

OMSK, Tuesday, Sept. 30.—An American soldier in Vladivostok was shot and killed recently by a Russian officer, it has been learned here. This and other incidents led to a demand from the allied commanders at Vladivostok for the removal of the Russian troops from that city.

A vigorous protest by the Omsk government, however, led to the withdrawal of the demand.

The version of the killing of the American contained in the reports coming here had it that the American while engaged in anti-government propaganda, was ordered by the Russian officer to desist. The American struck the officer, who drew a pistol and shot his assailant, the account added.

## "PICKETS" IN POLICE COURT

Shoe Shop Employees Testify to Alleged Threats by Strikers

John Hooghasian Tells Court Pickets Threatened to Pull Off His Mustache

"They said they'd pull off my mustache and beat me up." So said John Hooghasian, for the past month an employee of the Spaulding Shoe Co., where a strike has been on for several weeks, when he took the stand in police court today in the cases against George W. Rachine, business agent of the Allied Shoe Workers' union, John Zimmerman and Jos. Hebert, charged with threatening Hooghasian last Saturday morning.

Hooghasian then went into details and said that he had been standing at his work near one of the windows Saturday morning, and that the three defendants, who were doing "picket duty" around the plant, had shouted to him to come down and they would beat him up and also remove the adornment from his upper lip.

He told them that he was too busy to come down, he said, and they replied that they would get him at noon time, anyway.

This had made him afraid, he continued, and he had slept in the plant after that and had not ventured outside the building any more than was absolutely necessary.

Alma Campbell, another employee at the plant who said she had been working there for the past month and was not a member of the union, declared that she had been standing near Hooghasian at the time of the alleged threats and that the three pickets had also told her that she, too, was due for a "beating up" in the near future.

She had heard them threaten to beat up Hooghasian and pull off his mustache, she said.

"They wouldn't have much to take off, would they?" asked D. J. Donahue, attorney for the defense.

"I'm no judge as to that," replied Miss Campbell. "You see, I'm not a barber."

She had spoken with Business Agent Rachine several times during her stay at the plant, she said, and he had urged her to leave her work, which she had refused to do.

Several other young women employed at the plant also offered testimony in connection with the alleged threatening of Hooghasian, and at the close of the session a continuance was taken until tomorrow, at which time the defense will put in its case.

## CUT INSURANCE RATE

Insurance Dept. Recommends  
Reduction in Workmen's  
Compensation Rates

(Special to The Sun.)  
STATE HOUSE, Boston, October 10.  
A reduction of 10 per cent. in the  
rates charged for workmen's compen-  
sation insurance in this state is recom-  
mended in the annual report of the  
insurance department, published yester-  
day. It is signed by former Commis-  
sioner Frank H. Harrison, and was  
his last official act before retiring  
from office this month.

Mr. Harrison declares that during  
the last fiscal year the stock compa-  
nies transacting workmen's compen-  
sation insurance in this state averaged  
more than 12 per cent. profits. "A rate  
higher than can be approved," he says.  
It is expected that "a countrywide re-  
vision of rates will be made within the  
next six months, but in fairness to  
Massachusetts employers a revision  
should be made here at once."

From reports made to him by the  
companies, the commissioner states, it  
appears that the companies paid to  
injured workmen and for their medi-  
cal attendance only 50 per cent. of the  
premiums which they collected from  
employers; the amounts required by  
the companies to meet the cost of han-  
dling the business were only 37 per  
cent. of the receipts, this indicating

that 87 per cent. of the receipts was  
sufficient to pay the losses and ex-  
penses of doing business.

"These indicate," the report says,  
"that during a part at least of the  
year 1917, and for the entire year  
1918, the profit to the companies was  
larger than can fairly be approved."  
"It should be said, however, that  
when the rates were revised in 1917 it  
was intended that they should be ad-  
equate, but owing to various unfor-  
seen causes favoring the insurance  
companies these rates have resulted in  
profits larger than any rate-making  
board would knowingly provide for.  
The increase is caused by higher wages  
due to the war and large payments for  
overtime work, while, on the other  
hand, there has been no proportionate  
increase in benefits to injured work-  
men, or in expenses, or in frequency  
or severity of accidents."

"This excess of premiums over losses  
and expenses points to the conclu-  
sion that rates should be reduced by  
the insurance companies in the imme-  
diate future, notwithstanding the fact  
that the legislature has increased  
weekly benefits to injured workmen in  
cases of total and partial disability,  
and that the expense of doing business  
will probably show an increase during  
the coming year. These factors will  
probably reduce the companies' gains  
from underwriting, but will not be of  
sufficient weight to overbalance the  
necessity of a reduction in rates. In  
this commonwealth, the extent of the  
reduction cannot be decided until there  
has been a more complete study of the  
facts from the point of view of the  
public and of the companies, but an  
average reduction of 10 per cent. would

appear to be not far out of the way."  
"To avoid discrimination between  
employers, it has been the custom in  
Massachusetts for some years to make  
changes in rates apply to existing pol-  
icies for the remainder of their terms  
as well as to new business. Conse-  
quently, assuming that this procedure  
will be continued, revised rates will  
apply to existing policies for the re-  
mainder of their terms."  
Inferentially, the commissioner re-  
news his demand that the insurance de-  
partment be given authority to compel  
a reduction in rates when they are  
found to be too high. "The legislature,"  
he says, "has conferred upon the in-  
surance commissioner the duty of ap-  
proving their rates for their adequacy,  
but does not give him the power to  
compel the companies to reduce high  
rates. In cases where the department  
has found specific rates to be too high,  
the companies in general have been  
willing to reduce them when the facts  
were called to their attention. The de-  
partment has asked the legislature for  
several years for authority to pass  
upon the reasonableness of rates, but  
this recommendation has not been fa-  
vorably acted upon." HOYT.

tions as well as the works of the mas-  
ters.

The attention of American musicians  
was centered on Rachmaninoff, the  
greatest musician among the Russians  
of this generation when he declined to  
accept the post of conductor of the  
Boston Symphony orchestra. This po-  
sition as leader of the finest organi-  
zation of his kind in the world was de-  
clined by Rachmaninoff only because  
of the pressure of other desires. He  
was not disposed to bind himself to  
the arduous task of preparing and di-  
recting over one hundred orchestral  
concerts, but preferred to appear as a  
piano virtuoso which allows him to  
devote some of his time to compose  
and occasionally conduct some of the  
concerts of the more important or-  
chestras.

Rachmaninoff will tour this country  
under the direction of C. A. Ellis of  
Boston, in concerts of piano music.  
This season he will appear in the  
larger cities only and will play more  
than 10 concerts. With a reputation  
already established as the foremost  
living Russian composer, and of the  
greatest pianists, Rachmaninoff at 40  
is a commanding figure in the world of  
music.

## USE FAKE PASSPORTS

Many Soldiers From So. German Garrisons Going to Baltic Provinces

BERLIN, Wednesday, Oct. 8.—(By The Associated Press)—Dr. Herman Mueller, minister of foreign affairs admitted in the national assembly today that many soldiers from South German garrisons were going to the Baltic provinces on fake passports, adding that they were chiefly "adventurers who expect a free and easy life there and expect eventually to settle down."

Discussing the prevailing lack of discipline, he declared it made it easy for German troops to go over into the

Russian service, and he asserted that people were "daily approaching" the foreign office in a secret manner with information to the effect that the entrance would be pleased to see German troops fighting in Russian units.

"If the entrance is desirous of having us withdraw the last German trooper from Russian formations," he said, "we might be permitted to express the desire that the entrance request Russia to discontinue attempts to attract Germans into their service."

Gustav Noske, minister of defense, accused the independent socialists of "complicating Germany's position abroad by malicious and unjust criticism of the military administration and licking the boots of the British and French commissions in Berlin."

The remains were removed to an undertaker's establishment in Ayer by order of the medical

## Explosion of Oil Kills 2, Injures 17

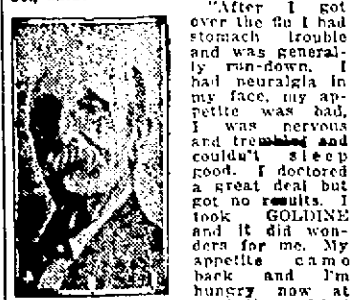

PHILADELPHIA, Oct. 10.—An explosion of oil occurred today on the tanker Chestnut Hill on the Delaware river here. Two workmen were killed and 17 burned. The explosion, it is said, was caused by a spark from a torch setting fire to gas fumes, which had escaped from a tank and fumes from crude oil which had gathered in the oil tanks. The vessel was only slightly damaged.

BRIDGEPORT

HARTFORD

BOSTON

intimate whether or not he would vote against ratifying the treaty if the objectionable features were not eliminated. He said he warmly favored the League of Nations but did not favor the covenant as now written. It was very evident he fully intended to leave his future action entirely free except as to the several clauses of the treaty to which he made known objection. When asked how such silence was to be interpreted in connection with the possible ratification of the articles to which he is only opposed the senator replied: "That is a bridge which need not be crossed until I come to it." It became known today, however, that Senator Walsh has prepared a set of reservations covering the ground and which he will present in his own name if he finds the articles to which he is opposed are not satisfactorily met through the resolutions already proposed. He did not desire to make known in detail just what his own reservations would cover but they are pretty certain to include Shantung and equalization of votes and the rights of subject nations.

At the close of his speech Senator Walsh was very warmly congratulated. This was the maiden speech of the Massachusetts senator and at its close senators from both sides of the chamber crowded around him and gave him a tremendous ovation.

Senator Walsh said in part: "Mr. President, to defeat the Germans and to destroy their great military machine was not the chief motive which induced the United States to enter the battlefields of Europe at a time when the fortunes of the allies seemed darkest and almost hopeless."

"Are we keeping the faith with the American people? What did we promise the 4,000,000 American boys whom this government called into the military service of the country? To these men of the army and navy, and their fathers and mothers, yes, to all the people of this country, we have made two solemn promises, which in their importance, overshadow all other promises, objects, or points we set out to attain."

"Enslaved Peoples of Europe"

"We promised, first that we would not consider this war won until we had liberated from bondage and oppression the enslaved peoples of Europe. It is true, Mr. President, that the American people can justly claim that they have had a part in winning independence and freedom for some of such races in Europe."

"But we have not fully kept our promise. Indeed, our failure now casts a gloom over the hearts of certain liberty-loving peoples who still remain in oppression."

"I am irrevocably committed to the principle of a League of Nations. Had the conference at Versailles really carried out the principles our president had clearly and courageously proclaimed to the world during the war, no senator, I believe, would have dared to vote against a new and healthy method of settling international disputes and preventing future wars. It is the complete absence of the high-minded sentiments we proclaimed during the war that has provoked the great opposition to this covenant and crushed the hopes of progressive, forward-looking men throughout the world."

"If this league is founded upon the theory that war can best be averted by each nation guaranteeing to the other members of the league their territorial integrity, it will fail to serve the world's purposes. To surrender the principle of justice in the hope to obtain peace is to be forgetful of the fact that to barter justice is to sell the soul of the nations of the world."

"The Shantung provision of this treaty is indefensible. To consent to and advise the ratification of this provision in its present form would be, as I view it, an act of national dishonor."

"Mr. President, I will lend my influ-

Makes Breathing Easy

A Worcester, Mass., doctor has suggested the following simple, harmless and inexpensive home treatment for bronchial asthma, chronic bronchitis and coughs and colds which threaten to affect the lungs.

At Lowell Pharmacy or any reliable drugstore get a bottle of Oxidaze Tablets, only tablets and slowly dissolve one tablet in mouth at regular intervals. Though harmless and pleasant they are so powerful in their action that even in stubborn cases relief often comes in just a few minutes.

Many users who for years have been obliged to sit up in bed gasping for breath and unable to sleep report that they now take an Oxidaze tablet when going to bed and can then lie down and breathe easily and naturally and get a good night's restful sleep.

Druggists everywhere are selling Oxidaze tablets on a positive guarantee to refund the full purchase price of the first package if it fails to give prompt relief in any case of Bronchial Cough or Asthma.—Adv.

once and cast my vote for every effort made to prevent the United States sealing such a compact burdened with so much national dishonor and national peril. I can not subscribe to the casuistry, however plausible, that peace can be maintained by a provision which sanctions and legalizes the crime of Shantung, which has a proper place only in secret treaties and under the table diplomacy. It smacks of spoils, land-grabbing, and sows the seed of tyranny and future wars.

"Article 10 Reverses Tradition"

"The keynote of the doctrine incorporated in Article 10 of the covenant is an open and complete reversal of the traditions of this republic. It means, in my opinion, a departure from the major principle upon which America was founded and which the American people have long and tenaciously cherished. It means that our republic would in all probability be today a

colony of Great Britain had this League of Nations, with Article 10 inserted, existed previous to our Revolution.

"Who dares to place any limitations—political, military, or financial—upon the words 'advise upon means'? These phrases clearly compel America to either consult the council or to be in constant fear of advice or action by the council upon her right to extend hospitality, comfort and aid to that class of people the world over who have

looked to us for sympathy and support."

"In concluding for the present my analysis of Article 10, may I not fairly argue that it is capable of so many interpretations, vague and visionary, that as it stands it is pregnant with the germs of disputes, misunderstandings, and possible wars for the United States?"

"The only solution, therefore, is to remove any possible doubt as to its application to the United States by a reservation specifically stating the position of our government."

Riches of Subject Peoples

"In approaching the question of the effect of this covenant upon the rights of submerged peoples seeking independence, such as the people of Ireland, I wish to emphasize that I am not actuated by any feeling of animosity or racial antipathy. I breathe no hate. I seek no vengeance. I voice no retribution. I am an American. I was

born on soil made sacred by the blood of the heroes of the Revolution."

"Mr. President, before attempting to discuss this subject to which so many of my able associates in this chamber have repeatedly referred, I want to tell you, and I am confident I speak the universal conviction of the people of Irish blood in this country—of the more than 500,000 soldiers of Irish extraction who enlisted in this great war—that much as they yearn to see their kindred free, much as their hearts are torn by events in Ireland, and repression of the people of that sad little island, as citizens of this republic, their first concern is for the safety, honor and preservation of this country, the land of their birth or adoption."

"Some wonder at the intensity of feeling on the part of the people in America of Irish blood to secure the application of the principle of self-determination to the land of their forebears. What think you must be the

feeling of disappointment and of sadness experienced by the hundreds of thousands of American soldier boys of Celtic blood justly proud of their work in liberating the enslaved peoples of Europe, when they hear a still voice in the depths of their heart say: 'I have helped to bring independence and freedom to many enslaved peoples; I have helped to remove the shackles of political oppression from many races, but the race from which I have sprung is still left, the only English-speaking race in the world today in political subjection.'

"Just what is the attitude of Americans of Celtic blood and their sympathizers in regard to this covenant? As I understand it, and as I have been fully informed, they are not opposed to a just League of Nations. Neither do they seek in any way to involve the United States of America in any controversy with Great Britain."

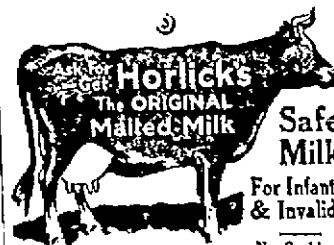

"In a word, they ask—and they have a right to ask—the United States sen-

ate not to ratify that part of this covenant which many sincerely believe puts an end once and for all time to America's ancient and historic attitude toward oppressed peoples."

# I TOLD YOU SO!

My advertisement of September 5th last, five weeks back, read like this:

TO MY CUSTOMERS—Buy your winter clothing as soon as possible—future conditions intolerable; prices unbelievable—cloth is selling per square foot at much higher prices than the land your house is built on—labor and linings each leading a separate dance.

TODAY, five weeks later, the above statement has come true, even worse than I predicted. The evidence is all around you; every clothing store window and every tailor's window shows I was right. Ready made clothes selling for \$35, \$40, \$50 and up to \$70. Tailored to order garments at anywhere from \$35 (if you can find 'em) to \$90, and yet I am continuing my famous offer of five weeks ago.

## Winter Suit or Overcoat

### Made to Your Measure

# \$27.50

## ANY STYLE--REAL \$40 VALUE

I am stocked up with thousands of yards of woollens which I bought months ago when the woolen market dropped temporarily, easily worth 40 per cent. more than I paid for them. I could sell the entire lot to any woolen house at a fine profit. But I have been tailoring clothes in Massachusetts for 20 years—I am a tailor—not a speculator. I am going to give my customers the benefit of this enormous cash purchase.

P. S.—Come in and get samples; you may find a few of these patterns around town marked \$40, maybe more. This price will last only as long as a reasonable selection of the woollens holds out.

## MANIAC AT LARGE IN VERMONT WOODS

**BELVIDERE, Vt., Oct. 10.**—A man hunt is in progress in the woods about here for John Cota, an insane lumberman, armed with rifle, revolver, hunting knife, ammunition and provided with food. He defies anybody to take him alive.

Cota is wanted on a charge of forging \$1000 worth of checks on the National Bank of Hyde Park. Monday afternoon policemen went to his shack to arrest him, but Cota refused to surrender and fired several shots at them after declaring he would kill anybody who tried to arrest him. After a parley he said he would give himself up in the morning.

The policemen agreed and set a guard about the place, but when morning came the man had escaped. Cota has lived here six months. He is said to have spent several years in an insane asylum at Spokane, Wash., and it is now thought he has been seized with insanity again.

## BUILDING GRANOLITHIC WALKS

The street department has commenced the building of granolithic sidewalks in response to several petitions. The city is doing the excavating work, while the walk itself is being laid by Contractor M. F. Conners. Work was begun today on the sidewalk in Lee street, adjacent to the Cherry & Webb Co., and within a few days the petitions of St. John's hospital for new walks in Stackpole, Bartlett and Fayette streets will be met. A new granolithic walk also will be laid in front of the Rogers Hall school in Rogers street.

## CARD OF THANKS

We, the undersigned, take this method of expressing publicly our sincere thanks to those who by their acts of kindness, expressions of sympathy and offerings of floral tributes and spiritual bouquets served to lighten the burden of our sorrow caused by the death of a beloved son and brother. Such evidence of true friendship we will ever cherish in loving remembrance.  
MR. ROBERT STEWART and Family.  
LEO GARVEY.

## IN MEMORIAM

In loving memory of Robert Gourley, who died Oct. 11, 1918. Though your death was sad, dear, And you bore your pain so brave, I have been so sad and lonely, And you are still in my grave. Friends may think I have forgotten you.

When at times they see me smile, But they little know the sorrow That smiles hide all the while. His loving wife, Mother and Family.  
BY HER DAUGHTER, MRS. KATH BUTTERFIELD.

## IN MEMORIAM

In loving memory of Corporal Frank H. Kelly, who died October 7, 1918. In Kelly's chamber softly sleeping, Where the flowers gently wave Lies the one we love so dearly, In his sad and lonely grave.  
MR. AND MRS. JOSEPH KELLY and Family.

## SUPERIOR COURT; CIVIL SESSION

A scaled verdict in the sum of \$1 was rendered this morning by the jury at the civil session of the superior court in the case of Dr. Edward G. Dewolfe vs. Frank A. McAllister et als, all of Malden. The case went to trial yesterday and the ad damnum was for \$1,000. The plaintiff alleged that as a result of what he termed a "straw" lease issued by the owner of the house he occupied in Malden, Carrie E. Roberts to Frank A. McAllister, a Malden constable, he was ejected and evicted from his premises and alleged inconvenience and loss of business.

The next case to go to trial was that of the Middlesex Coal and Grain Co. of Bedford vs. George F. Dickie of Billerica, an action of contract by which the company is seeking to recover the sum of \$23.04 for merchandise alleged to have been sold to the defendant. Frank Goldman of this city appears for the company and John C. Cronin of Boston for the defendant.

## American Freighter Disabled at Sea

**BOSTON, Oct. 10.**—Another steamer victim of the storm which raged over the North Atlantic for several days was disclosed today with the receipt of a fragmentary message saying that the American freighter Ammonosie was drifting with her engines disabled. The position of the steamer was not given but it was thought by naval officials who record that she was well out in the Atlantic.

## Rebel Peasants Seize Riesi

**ROME, Oct. 10.**—Reports from Sicily today state that the town of Riesi, in the sulphur mining district has been seized by rebellious peasants. Four thousand peasants, engaged in an attempt to take possession of land, clashed with troops sent against them, seven persons being killed and many wounded. The troops and the town authorities were compelled to retire.

## Japan Soon to Ratify Treaty

**WASHINGTON, Oct. 10.**—Japan is sending the largest delegation of any one of the nations which will be represented in the international labor conference to be held here Oct. 29. The party comprises more than 60. It was to sail today from Japan and is expected to arrive here two days before the conference meets. Its despatch is regarded as a certain indication of the purpose of the Japanese government to ratify the peace treaty almost immediately as that document contains the sole authority for appointment of the delegates and unless it is ratified they cannot be recognized as representing their country.

### KNIGHTS OF COLUMBUS INSTALL OFFICERS

The recently elected officers of Lowell council, No. 72, Knights of Columbus, were inducted into office at a regular meeting of the organization, which was held last evening in its quarters in Associate building. District Deputy John I. Donovan and suite of Lawrence presided over the installation and there was a large attendance to witness the impressive ceremony. At the close of the installation District Deputy Donovan spoke at length on the great work accomplished by the council during the war and complimented the retiring grand knight, Robert R. Thomas, for his successful administration of the council's affairs during the past three years. Mr. Thomas also addressed the council, thanking its members for the

valuable co-operation they gave him during his term of office and he urged all to give the same consideration to the new grand knight. Rev. D. J. Heffernan of St. Peter's church, chaplain of the council, also spoke in flattering terms and he dwelt at length on the observance of Columbus day. "It is the news, the truth and the print," This is the standard The Sun follows in printing city, state and national news.

The officers inducted into office were as follows: Grand knight, George F. Briggan; deputy grand knight, John E. Hart; chancellor, Hugh J. Molloy; financial secretary, Philip Breen; recording secretary, Patrick Nevin; warden, Thomas B. Delaney; treasurer, Thomas J. Fitts.

bus day next Monday and urged all the members of the council to attend the mass at St. Peter's church at 9:30 o'clock.

The Australian government is planning to construct 600,000 houses for returned soldiers. A decrease in the mineral output of the United States is shown by the geological survey for 1918.

## MORAN'S HOME TOWN PLANS BIG RECEPTION

FITCHBURG, Oct. 10.—Fitchburg fans are jubilant over the victory of Pat Moran and his Cincinnati club. No sooner had the final returns of yesterday's game been received than plans were started for a reception to Manager Moran, when he returns to his Fitchburg home for the winter. He is expected home early in November.

Never before has a world's series been followed with such keen interest by Fitchburg fans. Thousands lined the streets in front of the newspaper bulletin boards and cheered every play.

When it was apparent that Moran's men had captured the world's title they set up a cheer that could be heard many blocks away. In the eighth inning, when the Sox made a rally, stillness fell over the crowd that was only broken when the last man had gone out in that inning. Then the crowd gave way to louder cheers than ever before.

The rally of the Sox recalled memories of the ten-inning game when Chicago came from behind and won and the fans stayed in front of the newspaper offices until the last put-out ended any chance of a comeback by Chicago.

From the first the fans have had confidence that Pat Moran would come through a winner and they have profited by their belief in a large way financially.

Thousands of dollars were wagered on the series by the loyal Fitchburg supporters of Moran and they are big winners for many of them obtained odds. Moran began his baseball career on the sand lots of Fitchburg and many of his former playmates were among those who rooted for a victory.

A large delegation of Fitchburg fans attended the series. There was no happier man in Fitchburg last night than Thomas P. Moran, father of the Cincinnati manager. The defeat of Wednesday broke him up and he received the returns yesterday eagerly.

"I know he'd do it" was his only comment, when the game ended, and now he is waiting to greet his boy when he comes home. Col. George H. Wallace, who is chairman of the committee arranging for the homecoming reception, will call early morning to complete the details.

Moran will be met at the train and escorted to city hall where the fans will have a chance to greet him and later he will be a guest of honor at a banquet. A fund will be raised for a suitable gift from his home town folks.

Lower right, Dr. Geo. E. De Schweinitz of the University of Pennsylvania, a specialist in ophthalmology, who has been the president's oculist for many years.

### AMUSEMENT NOTES.

Below is what the press agents of the different theatres say of the current attractions and of others to come:

#### R. F. KEITH'S THEATRE

"Shoes," headlined by Bayonne Whipple and Walter Huston, at the R. F. Keith theatre, this week, is proving one of the nearest comedy sketches of the entire season, thus far. It is original and specially well acted. Charles F. Semon, who is one of the standard-bearers of vaudeville, is another performer who is giving a large measure of satisfaction, and Brennan and Kule, singers of their own songs, have turned out to be one of the surprises of the week. Then there are the Four Meyahos, who contort, sing and dance; Countess Verona, the exclamation player; Johnson, Baker, & Johnson, hat throwers, and the Dunn Sisters, fun-makers.

#### THE STRAND

We simply can't say too much in praise of the big triple bill at the Strand for the last three days of the week. Think of it, a "Bur Revue" the like of which has never been given in Lowell before. Theda Bara in her latest picture, "The Sign of the Cross," is one of her most delightful picture stories, and no advance in prices.

Next week—anniversary week—will have for its biggest feature Douglas Fairbanks' latest million dollar picture success, "His Majesty, the American." There will be other big features, but this will be the biggest. And do you know that the management paid \$1000 for the use of this single feature. Despite this fact the prices will remain absolutely the same. The Strand is famous for introducing novelties. We have so many lined up that time nor space does not permit an enumeration of them at this time. Just keep a sharp lookout at the advertisements.

#### OPERA HOUSE

### THIRTY-ONE YEARS IN POLICE DEPARTMENT

Rounding out 31 years of continuous service in the Lowell police department, Capt. James Brosnan, Patrolman Horace W. Clement and Patrolman Lindsey E. Ingalls met at the home of Patrolman Ingalls, 109 Third street, last evening to talk over their experiences and celebrate the event. All three were appointed by the late Mayor Charles D. Palmer and can point to unimpeachable records since becoming members of the city's "Anest." Capt. Brosnan became a sergeant in 1895, and the following year was promoted to the rank of lieutenant. He became captain in 1914.

Bank notes were issued by the Cincinnati government in 1899 B. C.

## Sen. Walsh Scores League

Continued

League merely for the purpose of humiliating or embarrassing England would be a grave injustice to the great rank and file of Americans of Celtic blood. It is, indeed, amazing to find intelligent men who, in discussing the Irish problem, allege that this element in America's population seeks to involve America in a war against Britain in order to bring about the freedom of Ireland. The man who makes such an accusation is grossly ignorant of the facts, or makes such contention in an effort on his part to justify opposition to their legitimate demands. It is adding insult to injury.

"Let us not deceive ourselves. Let no senator vote for this covenant and justify his vote upon the pretense that he is helping subject peoples by setting up a world tribunal where hearings can be had for the application of the principle of self-determination. No senator can point to any language that justifies the assertion that there can be a hearing given these people if the nation charged with oppression objects.

"I cannot subscribe to any provision in this covenant which will permit any government to have more votes or more influence in this league than the United States of America. The least that any American can accept is equal representation for our country with that of any other.

"I do not desire to deprive the self-governing dominions of Great Britain of representation in this assembly provided for in this covenant, but I do most strongly object to Great Britain, which includes England and its dominions, having six votes to our one vote.

"If, as has been claimed, the assembly is merely a 'debating society,' I would not, without a protest, be willing to permit any government having six debaters to present its case to the one debater which the United States would have.

Throughout this whole covenant, like a weaver's thread, is the scarcely veiled purpose of Great Britain to dominate the world through this league. Notice even the clause providing that the British named secretary general shall recommend his successor, in perpetuity.

It has even been suggested that the British secretary general already named in the covenant may by will or codicil name his successor.

"I love the democratic party. I have served it for 25 years. It has honored me beyond my humble deserts. But I am an American first, and I am not unmindful of the fact that I have taken a solemn oath to preserve the constitution of my country. If choice must be made between a League of Nations and the constitution of the United States, I am first and last with the constitution.

"In so far as I believe the text of the treaty and covenant before us conflicts with these principles, I have raised and shall continue to raise, my voice of protest. I may be mislabeled, my motives questioned, as has been the lot of many members of the senate who have taken sides on this question; but whatever may be the judgment of my fellow men, I at least shall have the satisfaction of knowing that by protesting against the injustice of the Shantung provision and the dangers lurking in article 10 for America and the world I have not consciously done anything to make it difficult for any American or any citizen of the world to say as Kossuth, when he turned to the American flag in Faneuil hall, 'A flag without a stain; a country without a crime.'

## Marshall Quells Applause

WASHINGTON, Oct. 10.—A quick barking command from Vice President Marshall at the conclusion late yesterday of a dramatic appeal by Senator Walsh, democrat, of Massachusetts for a League of Nations that would do justice to oppressed nations of the world, and for reservations to the pending league covenant, broke up in its very beginning a demonstration that threatened for a moment to sweep through the senate galleries.

For more than an hour senators and visitors had listened intently to the address, and as Senator Walsh laid down the last page of his manuscript and with arms raised high pleaded against approval of the Shantung settlement and the dangers lurking in article 10 of the league covenant,

HIT BACK

"Pape's Diapresin" instantly  
Ends Indigestion, Sourness,  
Stomach Acidity

Are jumps of undigested food causing you pain? Is your stomach full, fast, sour, or have you flatulence, heartburn? Then take Pape's Diapresin.

Just as soon as you eat a tablet or two of Pape's Diapresin all that dyspepsia, indigestion and stomach distress caused by acidity ends. These pleasant, harmless tablets of Pape's Diapresin never fail to make weak, upset stomachs feel fine at once, and they cost very little at drug stores.—Ad.

Faint ripple of applause was instantly followed by a more pronounced outburst.

But it was as quickly subdued. The strident voice of the vice president was heard above the rising din.

"Remove from the galleries those who have violated the rules of the senate," the vice president shouted, at which gallery guards, apparently bewildered, endeavored to suppress the growing desire of many persons to make known their approval of the speech.

"It is the news, the truth, and the pride," this is the standard line being in printing city, state and national news.

## Force Roll-call on Adjournment

In the confusion, which spread to the floor, the crowds began to move away and a few offenders whose conduct was noted by the guards were hustled out. The regulation motion to adjourn was held up after Republican Leader Lodge had made it, the vice president explaining that he wanted to find out first what the senate was going to do about the violation of its standing rule against applause.

Then quite unexpectedly when Senator Lodge a moment later renewed

his motion, Senator Hitchcock of Nebraska, leading the democratic fight for treaty ratification, jumped to his feet with a demand for the eyes and nares.

There had been no intimation that the democrats were preparing to put the majority party on record in the matter of fixing a time for daily adjournment, and the demand added to the general excitement. The bells called senators to the chamber and on the count the motion prevailed 35 to 25. It followed party lines, except that Senator Reed, democrat, of Missouri

back from a speaking trip against the

treaty in the west, voted with the republicans.

## TO FIND JOBS FOR HUB POLICE STRIKERS

BOSTON, Oct. 10.—The directors of the Boston chamber of commerce last night announced the organization of a committee of members, with Bernard J. Rothwell, a former president of the chamber, as chairman, for the purpose of assisting former members of the Boston police department in securing positions in civil life.

The directors say that the chamber believes as strongly as ever that the policemen should not be taken back on the force, but they are of the opinion that many of the policemen were misled, because of this and because they feel that the men possess qualities which can be of service to the community they will assist the men in securing such positions as they are qualified to fill.

### Statement by Directors

The statement of the directors follows:

"With the approval of the governor, the mayor and the police commissioner, the directors of the Boston chamber of commerce have appointed a special committee to assist the former members of the Boston police in obtaining positions in civil life.

"In order that the motives leading to the appointment of this committee may not be misunderstood, the directors of the chamber feel that they should make a definite statement in connection with this action. The directors stand squarely upon the principles enunciated by the different public authorities and believe that the policemen should not be reinstated. It is evident, however, that many of the police were misled and did not have a clear idea of their duty to the public, and that their action in leaving their posts came, at least in part, for these reasons. In other respects they are men whose qualities can be of service to the community.

The irony of the situation is being emphasized every day when police officials are being asked to furnish recommendations to former policemen who joined the union and went out with the strikers. They are seeking employment from corporations, individuals and firms.

Announcement was made by police headquarters officials yesterday that "reinstated" does not correctly describe the status of the 25 former members of the Boston Policemen's union who have been reassigned to duty. It was also admitted that 12 additional former members of the union have been assigned to duty at various other stations and that five other former members of the union are still under suspension from duty pending the hearing of charges against them. As soon as the charges are heard these men also will likely be assigned to duty.

Not all of the 43 men have been under suspension. Some were absent on vacation or on sick leave and none of them went out on strike with the main body of patrolmen on the night of Sept. 9. It is maintained at police headquarters that the men who went out on strike and those who were legally discharged cannot be reinstated and that their cases have been finally disposed of.

It is claimed that the men who have been assigned to duty and those who will be within the next few days have all along been considered as members of the department by their superiors. Although they were under a cloud, which resulted in charges being preferred against them. All these are admitting their guilt and are being punished by the infliction of punishment duty and put to work.

### Many New Men Sworn In

A large number of new men were sworn in yesterday by Capt. Thomas Ryan, chief clerk. These are in addition to 53 new men who went on the streets in civilian clothes with police badges Wednesday night. Officials at police headquarters are pleased at the showing now being made and declare they will be able to reorganize the force completely within a short time.

The subject of uniforms is not being discussed. It was believed that considerable difficulty would be experienced in having them made owing to the declaration of union tailors that they would have nothing to do with them. Officials claim they are being made, but will not say where.

The grand total of claims against the city for larcenies and damages to private property in the disorders of the first nights of the police strike is now \$2,000, the claims pouring in the last two days aggregating \$25,000.

John W. Connolly, a Boston lawyer, makes a claim for personal injury, but specifies no amount. He claims that he was wounded by a bullet fired by a guard's rifle while in Scollay square the evening of Sept. 10.

Six hundred Boston students lost a chance to play "the fireman to the rescue" when Boston firemen failed to strike along with the police. The students had volunteered to fill their places and learned the operation of the fire apparatus.

### Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will ruin your hair and ruin it if you don't.

It doesn't do much good to try to wash it out. The only sure way to get rid of dandruff is to dissolve it, then to destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

## BATTERY F ASSOCIATES HOLD MEETING

An unusually interesting meeting of Battery F Associates was held last evening at the Community Service Club. It was the first number and entertainment since the unit's return from France and present guests were Mayor Perry D. Thompson, Otto Hackmeyer and Benj. S. Pouzzner.

It was previously expected that Col. John F. Herbert of Worcester, under whom the battery fought with the 1654 Field Artillery, would be present, but at the last moment he was unable to make the trip. Members of the battery were present from Lawrence and Andover.

The speakers introduced by Fred J. Gleason, president of the association, included Mayor Thompson, Mr. Hackmeyer, Mr. Pouzzner and Capt. W. C. MacBrayne. Tommy Doyle and Young Taylor provided plenty of entertainment with a four-round boxing exhibition and there were songs by Warren Kane, Daniel Gray and Dick Hadley. Refreshments were served.

The committee in charge were Fred Gleason, chairman; Daniel Gray, Geo. Kane, George Collins of Andover and Capt. MacBrayne.

## BABSON SAYS STRIKES ARE LIKE BOILS

BY ROGER W. BABSON,  
Famous Business Expert and Statistician.

Strikes are like boils on our necks. They may be necessary, but we should do everything possible to avoid them. When I had boils my mother used to say it was the badness coming out of me. Modern surgery, however, says that it is due to a little germ fastening itself onto the back of our neck. This little germ digs a cellar in our skin, starts in housekeeping and raises a family of a million children.

Whatever the cause, we know that boils don't come when we are in good healthy condition. We get them only when the conditions are bad. Although our mother's idea of the badness coming out of us may not be correct, yet it is true that if there were no badness in us, the little germs could not fasten themselves onto our body and exist. Germs live only on the poisonous secretions of the body. They exist on dirt, disease and trouble. The healthy person—strong and vigorous, with good clean skin—has nothing to fear from germs or boils.

Strikes are both as necessary and as unnecessary as germs. When conditions are bad, strikes always come and always will come. Strikes

### Why Do Men Quit?

Professor Ira Brown Cross, economist of the University of California and leader in the new labor-capital co-operative movement in Western America, writes a series of interesting articles for The Sun. He discusses the question of men quitting their jobs and says the "quitting mania" is a United States social disease that must be cured and the way to cure it, he says, is to make jobs worth staying with.

### Jail Hotel for "Misfits"

Free meals and beds in San Francisco prison halts many crimes. Police Lieutenant Thomas Tobin, who originated the idea, says he is a human-nature specialist, not a "reformer." He doesn't believe in waiting for the lonesome, hungry man or woman to go "wrong." Instead, he offers them a sanctuary in the city prison and a helping hand toward an honest job.

### "Better Babies" Movement

Dr. Lenna L. Meanes, prominent in the activities of the international conference of women physicians now being held in New York, declares maternity clinics constitute the first step toward having hundred per cent American babies. But she does allow that before the "100 per cent babies" can be a national achievement, the "100 per cent mother" must be produced.

### "Common Honesty" Cure

Roger Babson, American economist who has devoted a lifetime to the study of business, labor and finance, says common honesty is what the United States needs to solve the nation's economic problems. The fact that the cost of living is much higher today than it was 10 years ago means that something is lacking today which we had ten years ago. That something must be revived and must again be demanded by all. That something is "common honesty."

### Bad Laughing For Kalsner

Edward M. Thierry, representative of the N.E.A. with the Smithsonian African expedition, says the town of Vincent, a foul smelling, can-bottle holding, bar-bar, rocky mountainous island, furnishes the answer for the international problem of punishing where water is very scarce, and natives live on dried fish, could be converted into a prison, that would make St. Helena or American-Paradise in comparison.

can never be prevented by passing laws. Strikes can be prevented only by bringing about such good conditions as will afford no object in striking.

We must not fool ourselves by thinking that we have won anything from striking, any more than we improve our health by having boils. All strikes result in higher prices. Strikes may give us more in our pay envelopes at the end of the week, but when we come to spend this money in the stores we do not get any more food, clothing or shelter. Yes, strikes are like boils. They may be necessary, but they do no one any good, excepting the doctors and lawyers.

I believe it is up to the employer to do something to make the wage-worker more interested in his job. The present system of manufacturing, of distribution, and of dividing the profits is enough to kill the ambition of any man, but the fact nevertheless remains that in the end we get ahead only by producing more. Every strike increases the cost of living for everybody.

During the past few years while wages have been climbing for the average worker, the salaried man has not got ahead. The wages of the school teacher, clerk and office employee have not been increased so much as have the wages of common labor. These classes have not yet struck. Once in a while I hear them complain and say they ought to strike like the rest of the people.

Just let me drive a nail here for you to hang your hat on:

In the next business depression the

wages of these salaried people will not tumble down like the wages of the common laborer.

These salaried people who are now complaining will then be on easy street, while the smart Aleck who has forced his employer up to the last cent will be out of a job.

The mills of God grind slowly, but exceedingly fine. Two and two always did make four and always will.

## THE HIGH COST OF MARRYING

BY RICHARD SPILLANE

America's Foremost Writer on Finance, Business and Economics, and Special Contributor to the Newspaper Enterprise Association.

Anyone contemplating matrimony had better get busy before the prices for knot-tying are advanced.

The clergymen of Delaware have been discussing informally the seriousness of the situation. The Rev. George White Dawson, pastor of Ashbury E. Church of Wilmington, seems to be the spokesman. What he says is beyond contradiction. He points out that labor, skilled and unskilled, has received large increases in pay to meet the ascending costs of life.

Physicians have raised their rates. Everybody has been cared for, but the salaried persons and the preachers. Now there are three great events for men in life. One is getting married, another is becoming for the first time the father of a boy and the third is the first trip in an airplane. What of these is most important depends on the viewpoint.

Most clergymen have pay little larger than that of messenger boys, yet they are expected to be the spiritual shepherd of flocks of people. They usually have to place a good deal of dependence on their fees received from funeral and marriage service. There never has been a union scale established. Possibly Mr. Gompers never thought of organizing the pulpiters.

Now, however, clergymen say they

must have more income or they cannot make both ends meet. They show that they receive even less than teachers, and it was supposed teachers were the lowest paid of the workers today.

It is wrong, the Delaware clergymen say, to leave the amount of the marriage fee to the disposition of the bridegroom. Not infrequently the newly married man gives only a "Thank you" to the minister and sometimes not that. There should, it is urged, be a minimum rate and an effort will be made to establish it. At the same time it is confessed by the clergymen that their fees have been increased on an average in the last

## How to Remove Tobacco Stain from the Teeth

A stiff scrubbing brush and some gritty powder will scour anything—but also ruin the best hardwood floor. It is so with some tooth pastes. They will clean, but in the process will wear off the enamel of the tooth.

Mr. William Kuebler of 1309 Arch Street, Philadelphia, considers himself a heavy smoker. His dentist told him Albidon Dental Cream was the best preparation he knew of. Mr. Kuebler now says it is the only one that will keep his teeth free from tobacco stain and tartar, and do it without injury.

Let other heavy smokers try it. Many important dentists use Albidon exclusively at the chair to clean their patients' teeth. It is appropriate and safe for women and children. A tube of this fine cream lasting five weeks retails at 25c.—Adv.

## ON THE ROAD TO RUIN

Another British Loan to Replace Nation's Floating Debt Forecast

LONDON, Oct. 10.—Forecasting another British loan to replace the nation's floating debt, the financial editor of the Mail declares it is the opinion of business men that Great Britain is "still travelling" the road to ruin and drifting on without evidence of real reform in "the government's wasteful extravagance."

Notwithstanding warnings from Austen Chamberlain, chancellor of the exchequer, and others relative to the danger of the situation, national expenditures, the writer points out, during July, August and September actually exceeded those of the previous quarter, and the government was continually forced to borrow money. He cites an instance in which the government was obliged to raise 30,000,000 pounds by an overdraft on the Bank of England last week to meet interest on the war debt and pay off exchequer bonds.

The writer asks whether the government intends to follow the same method in repaying 200,000,000 pounds more of exchequer bonds falling due in the next eight months, and urges greater economy to enable the revenue to cover expenditures.

## BETTERS TO GET \$4300 SEIZED IN RAID

MALDEN, Oct. 10.—The \$4300 seized in the raid on an alleged betting pool by Watch and Ward society agents and the Medford police at the Harpers race meeting at Combination park, yesterday, will be turned back to the betters, according to a plan arranged in the district court today. Counsel for the prosecution and for the six alleged bookmakers who were arrested conferred with the court after the prisoners had entered pleas of not guilty on the gambling charges and it was agreed that there should be no prosecution of the betters although this would be possible under the law.

Chief of Police Welch of Medford will receive all applications from betters for the return of their wagers, and when these have been fully checked up, the bets will be paid, or if the total of bets exceeds the cash in hand, a pro rata division will be made.

The court announced after the conference that on Oct. 24, the day set for the proceedings, he would find the defendants guilty.

## PRES. WILSON CONTINUES TO IMPROVE

WASHINGTON, Oct. 10.—President Wilson had another restful night and his physicians are satisfied with the nourishment he is taking.

The following bulletin was issued today:

"White House, Oct. 10, 11:30 a. m. The president had another restful night. His appetite has continued to improve and he is now taking as much food and of great variety as we desire."

"GRAYSON, RUPPIN, STITT."

Despite the progress the president is making toward complete recovery, the physicians will insist on a long period of absolute rest and quiet. Dr. Grayson said it would not be safe to do other than follow this course of treatment.

Dr. Francis X. Dercum, Philadelphia neurologist, is expected to see the president tomorrow and Dr. Grayson said he intended to have Dr. Dercum come from Philadelphia about once a week until the president had recovered entirely.

A talking machine has been placed in the president's room and he is entertained at intervals with music. Mrs. Wilson also continues to read light prose and poetry to him.

## LONG MURDER TRIAL

Witnesses Tell of the Finding of Body of Victim at Barre, Vt.

MONTPELIER, Vt., Oct. 10.—Witnesses told in Washington county court today of the finding of the body of Mrs. Lucinda C. Broadwell in the Wheelock garden in Barre on the morning of May 1, 1919. The evidence during the first presented in the case against George A. Long, who is charged with murdering the woman by strangulation.

Harold Jackson, aged 15, was the first witness. He testified that he was

taking a Sunday morning stroll and passed along a path bordering the garden when he discovered the nude body of the woman. He called Officer A. C. Curtis of the Barre police force, who corroborated much of Jackson's testimony as to the position of the body face downward with the clothing nearby and the corsets under the body.

Cross-examination of these witnesses tended to indicate that the sharp divergence between the state and the defense will be as to the direction from which the body was brought to the garden. The undertaker, the photographer and the physicians who held an autopsy on the body are expected to be the next witnesses called by the state.

Long, the accused, sat apparently undisturbed throughout the introduction of the testimony, showing no more interest than did the spectators, the majority of whom were women.

## PATRICK J. McMANMON SEES EARLY SOLUTION OF FIUME PROBLEM

Patrick J. McManmon, one of the oldest and most respected residents of Lowell, died this morning at his home, 57 Second avenue. His age was 75 years.

Mr. McManmon was born in County Mayo, Ireland, and came to America in 1882. Before coming to Lowell he had taken a leading part in the organization of the Irish Land League under the leadership of Charles Stewart Parnell. One of the first meetings of Irish farmers that Parnell addressed in the west of Ireland took place on Mr. McManmon's farm. On that occasion he entertained Mr. Parnell, Mr. Dillon and Mr. Davitt at his home and it was because of his activity in behalf of the Land League movement and his efforts to improve the conditions of the poorer tenants of his neighborhood that he was compelled to give up his farm and come to America—one of the first victims of the Land League movement.

He came directly to this city, bringing with him his wife and ten children—seven sons and three daughters. Shortly after arriving in Lowell he purchased the present home in Pawtucketville, where he and his family have since resided.

Mr. McManmon was a real type of the old Irish gentleman, a man of high ideals and sterling principles and for many years a familiar figure at St. Patrick's church, where he was a faithful attendant. He was highly esteemed throughout the city by all who knew him, an interesting talker and well-informed, especially on Irish affairs. Since the death of his wife more than 20 years ago, his daughter Catherine has kept house for him. The sons, all well known here, in the order of age are: James, the florist and for years town treasurer of Braintree; Patrick, electrical engineer and inspector of wires for the city of New York; John, ex-senator and member of the Lowell fire department; Rev. Thomas, assistant pastor of St. Margaret's parish, Dorchester; Frank, of New York; Peter, sergeant in the Lowell police department; Michael, also of New York. The daughters are Sister Cornelia Maria of Notre Dame, Peabody; Catherine, and Mrs. Joseph T. O'Donoghue of Boston. Deceased had worked some years ago for the park department, but for the past few years had been rather feeble although his mental faculties were quite clear.

## RESTORES VITALITY

Gives Strength to the Nervously Weak and Run-Down.

Peptiron is both medicine and food for the blood and nerves. It is in full accord with advanced science as to the proper treatment of anemic and neurasthenic conditions, in which the need of more and better nourishment is so apparent. It combines iron and manganese with nux, celery, pepsin and other tonics and digestives. It supplies the deficiency of red blood corpuscles in anemia, repairs the waste of nerve tissue in nervousness, gives color and stamina, and restores vitality.

"I was run down and nervous. Peptiron has done me great good." Serena Rifenburg, Tivoli, N. Y.

## TRY TO END STRIKE OF LONGSHOREMEN

NEW YORK, Oct. 10.—Again in control, at least partially, of the more than 30,000 men who struck without sanction of their national organization, officials of the International Longshoremen's union today tried to settle the strike which has virtually paralyzed New York harbor.

A meeting of strikers voted to place their case in the hands of the officials. The leaders, however, were unable to induce the strikers to return to work pending negotiations, and the inactivity at the pier which has resulted in a great congestion of transatlantic freight and the placing of an embargo on all such freight consigned to New York prevailed again today.

agement. Other of the principles dealt with conditions and hours of work, wages and the right to associate and it was declared that every association, whether of employees or employers "must be equally subject to public authority and legally answerable for its own conduct or that of its agents."

Proposals of all three groups in the conference—capital, labor and the public—have now been presented and the committee of 15 to which all matters are first referred under the conference rules will now be able to begin work.

The 12 principles as enunciated by the capital group follow:  
Production—there should be no intentional restriction of productive effort or output by either the employer or the employee to create an artificial scarcity of the product or of labor in order to increase prices or wages.

The establishment as a productive unit—the establishment rather than the industry as a whole or any branch of it, should, as far as practicable, be considered as the unit of production and of mutual interest on the part of the employer and employee. Each establishment should develop contact and full opportunity for interchange of views between management and men, through individual or collective dealings or a combination of both.

Conditions of work—It is the duty of management to make certain that the conditions under which work is carried on are as safe and as satisfactory to the workers as the nature of the business reasonably permits. Every effort should be made to maintain steady employment of the workers both on their account and to increase efficiency.

Wages—The worker should receive a wage sufficient to maintain him and his family at a standard of living that should be satisfactory to a right-minded man in view of the prevailing cost of living. Women doing work equal with that of men under the same conditions should receive the same rates of pay and be accorded the same opportunities for training and advancement.

Hours of work—The standard of the work schedule should be the week varying as the peculiar requirements of individual industries may demand. Overtime should, as far as possible be avoided, and one day of rest in seven should be provided.

Settlement of disputes—Each establishment should provide adequate means for the discussion of all questions and the just and prompt settlement of all disputes, but there should be no improper limitation or impairment of the exercise by management of its essential function of judgment and direction.

Right to associate—The association of men, whether of employers, employees or others, for collective action or dealing confers no authority and involves no right of compulsion over those who do not desire to act or deal with them as an association. Arbitrary use of such collective power to coerce or control others without their consent is an infringement of personal liberty and a menace to the institutions of a free people.

Responsibility of associations—Every association, whether of employers or employees, must be equally subject to public authority and legally answerable for its own conduct or that of its agents.

Freedom of contract—With the right to associate recognized the fundamental principle of individual freedom demands that every person must be free to engage in any lawful occupation or enter into any lawful contract as an employer or an employee, and be secure in the continuity and reward of his effort.

The open shop—The principles of individual liberty and freedom of contract upon which our institutions are fundamentally based require that there should be no interference with the open shop. While fair argument and persuasion are permissible coercive methods aimed at turning the open shop into a closed union shop or closed non-union shop should not be tolerated. No employer should be re-

quired to deal with men or groups of men who are not his employees or chosen by and from among them.

The right to strike or lockout—In the statement of the principle that should govern as to the right to strike or lockout, a sharp distinction should be drawn between the employment relations in the field (a) of the private industry (b) of the public utility service and (c) of government employment, federal, state or municipal. In private industry the strike or the lockout is to be deplored; but the right to strike or lockout should not be denied as an ultimate resort after all possible means of adjustment have been exhausted. Both employers and employees should recognize the seriousness of such action and should be held to a high responsibility for the same. The sympathetic strike is indefensible, anti-social and immoral. The same may be said of the blacklist, the boycott and also of the sympathetic lockout. In public utility service the public interest and welfare must be the paramount and controlling consideration. The state should, therefore, impose such regulations as will assure continuous operation, at the same time providing adequate means for the prompt hearing and adjustment of complaints and disputes. A strike of government employees is an attempt to prevent the operation of government until the demands of such employees are granted and cannot be tolerated. The right of government employees to be heard and to secure just redress should be amply safeguarded.

Training—Practical plans should be inaugurated in industry and outside of it for the training and upgrading of industrial workers, their proper placement in industry, the adoption and adaptation of apprenticeship systems, the extension of vocational education and such other adjustments of our educational system to the needs of industry as will prepare the worker for more effective and profitable service to society and to himself.

## South End Celebration

Continued

and the celebration will get a splendid running start this evening. The program which commences at 8 o'clock follows:

Opening remarks, Charles Dillon; remarks, Mayor Perry D. Thompson; "Welcome Home," Col. J. A. Herbert of Worcester; Remarks, Hon. Richard H. Long; "One of the boys," John J. Gilbride; remarks, Charles H. Burns. Band concert and songs by the Honey Boy quartet.

Presiding officer, William H. Sullivan.

While the opening festivities promise to be one of the big features of the four-day celebration, nevertheless, this evening program will be only the start, and tomorrow, Sunday and Columbus day will find the event growing in magnitude and brilliancy until it culminates with the parade Monday morning. The committee which has worked faithfully for several weeks in preparation of the celebration had had a mass of detail to discuss and classify, but at the close of last night's meeting felt sure that nothing has been overlooked.

Tomorrow will be a day of sport and recreation, with games and running events for the children at the Chambers street playground in the morning and more athletic contests for men on the South common in the afternoon. The Coast Artillery band and the Italian Roma band will play on the common in the afternoon. There will be general dancing in Hosiord square tomorrow evening to band music and a dance also will be held in Associate hall.

On Sunday members of the various clubs and organizations within the district will attend their respective churches and in the evening another band concert will be given in Davis square.

Of course, the parade far overshadows every other feature planned for Monday, Columbus day. Service men of all branches of the army and navy will be in line and civic and fraternal organizations will march in separate divisions. Mayor Perry D. Thompson and other members of the city government will participate as well as Congressman John Jacob Rogers, General Gardner W. Pearson, state representatives and the city clergy.

On Monday afternoon more sports will be on tap. A road race from Lawrence to Lowell run under the auspices of the Red Wing club will have its finish on the South common and there also will be other running races from a mile to five miles. All athletic events on Saturday will be run off under the direction of the sport committee, John H. Condon, chairman.

Monday noon, or immediately after the end of the parade, all the clubs in the district will hold open house and serve luncheon to service men and invited guests.

## KING ALBERT IMPRESSED

Pays High Tribute to America's Educational System—U. S. Armies Wonderful

ON BOARD KING ALBERT'S TRAIN, Oct. 10.—King Albert has been deeply impressed with America's educational system and attributes the ability of American soldiers to absorb military knowledge in a remarkably short time to the compulsory schooling they receive.

"Your armies were wonderful," he said. "Even your own people did not think, did they, that you could send over two million men in a year? And such fine soldiers they were! They seemed to be born fighting men. I do not know how to say it in English, but there seems to be something in your soil which grows such men. They went 3000 miles to fight for an idea and wherever I saw one of them, he knew what he was fighting for. It was a tribute to your educational system that they were all so intelligent and that they could be trained in so short a time."

Pointing to a schoolhouse in a village his train was passing, he said: "See the schools are large buildings and it is so all over your country. Everyone here is educated. Not only have you lower schools and high schools and colleges, but institutions of research where young men can get splendid training. They are the peak of the summit."

Pointing to the broad fields over which the train was speeding, he went on: "Here are large farmers and small farmers. It is well that it is so, for the ownership of land makes for increased production. The United States is fortunate in that it has more than its needs of everything and out of its abundance it can supply sustenance for Europe. This year and the next will be the worst. After that we should be able to supply ourselves with food. It is well, you use machinery to harvest your crops. In Belgium it is not so. Before the war all the work in our fields was done by hand."

There was a wistful note in his voice as though he were thinking of the men who would go to harvest no more. "All your people are prosperous," he continued. "They have money. When I was in New York I was in the stock exchange. That is the center of the world's finances."

Turning briefly to American investments in Belgium, he said proudly: "Our people are thrifty and they will pay their debts."

He nodded approval at the suggestion that the purchase of Liberty bonds had taught lessons of thrift and commented on the fact that what he called "state lands" were not widely held until patriotism opened an unexplored field.

"But everyone had money to buy them with," he added with a smile.

## WILL RESUME SERIES TOMORROW

If fair weather reigns tomorrow afternoon the Knights of Columbus and Believes will renew their baseball struggle at Spaulding Park. It will be the second game of this important series and a record crowd is expected to be on hand. Although the Knights won the first game in rather hollow fashion, due mainly to the fine pitching of Devin, the Believes are confident of their ability to reverse the situation tomorrow and make a third game necessary to decide the city champion-

ship and the possession of the purse. The game will start at 3:15 o'clock, Hob Keeler, umpire.

A congressional investigation found that somebody had "destroyed" 17,000 pounds of pigs' ears rather than lower the price.

When a French peasant butchers a rabbit for the table he wastes nothing. Even the blood is caught in a cup and used for soup. Experiments on a dog enabled Harvey, in 1920, to discover the circulation of blood.

## POLICE AND THE UNIONS

The eyes of the nation have been opened in reference to the value of police officers by the police strike in Boston.

Very few people could be made to believe that in the absence of police officers on the public streets any large number of men would bound forth as the most dangerous highwaymen, ready to rob, shoot and even commit murder in cold blood. Yet that is what followed the police strike in Boston, not a day or two after, but from the very hour the strike was declared. Would similar lawlessness follow a police strike in Lowell or any other city of importance?

Most assuredly yes, if the strike is well advertised so that the crooks will have time to reach the scene as soon as the police leave their beats. We do not believe that in our own city, we have any great proportion of criminals, but if professional crooks came here from the big cities and led the mob, the men of mildly criminal tendencies would follow and join the mob in plunder and rapine.

We mention this simply to show that our policemen are of far more importance to the community than most people suppose. They do not go about with rifles over their shoulders nor do they charge a menacing crowd with fixed bayonets. Oh! no, they go around quietly and prevent trouble, dispersing crowds and preserving the peace without the application of force. When they see a man violating the law, they bring him to the station, but he is alive when he gets there. They do not adopt the methods of the new "cops" in Boston, because a properly organized force finds such methods not only needless but unjust and likely to defeat their own purpose. The police officer thinks he has the right to join a labor union if he so desires. We believe he has no such right, for the reason that he is the servant of the city which is but a part of the state. If he belonged to a labor union as unions are now conducted, he might be ordered on strike at any time by his superior officers in the union and if he heeded such an order, he could not perform his duty to the city which he is sworn to serve. It is true that no man can serve two masters and policemen especially must give their entire allegiance to the city by which they are employed.

In serious labor conflicts all affiliated unions are called upon to contribute, and this regardless of whether the strikers show any respect for the law. Thus at present the police forces of 37 American cities that have joined the A. F. of L. are liable to be called upon to assist in supporting the steel workers on strike under the leadership of W. Z. Foster, a declared syndicalist.

In a great labor strike entailing riotous conduct by the strikers, the police officers belonging to the same labor union would find it very embarrassing to have to arrest their brother members. We know that officers do such things daily, but in case of their affiliation with labor organizations, it seems that even when they had discharged their duty with the utmost fidelity to the city, they would still be suspected if not openly charged with partiality to the union strikers.

To avoid that implication and to leave no question as to their absolute loyalty to the state, it is best that policemen shall not belong to any labor organization. It is now a settled policy that police departments in this state at least must not affiliate with outside labor organizations.

But if they are denied this privilege, they are entitled to fair treatment from their superior officers and the cities they faithfully serve. They are further entitled to fair compensation for their services in the light of the increased cost of living and also of the increased responsibility placed upon officers under the new conditions of our industrial and social life.

The local police officers have been complaining that they have been underpaid. They claim that the pay of patrolmen should be \$5 per day and we notice that many cities much smaller than Lowell have decided to pay their policemen this amount. This is a question which our municipal council will have to consider in the near future in order that the police may not find it necessary to call in the aid of

labor unions to assist them in securing fair treatment and the wages they deserve.

## REDUCING THE H. C. L.

Judging from the barren results of government efforts to reduce the high cost of living, it appears that there can be little hope from this source at least for the present. All the government can do is to stop profiteering, to prevent the hoarding of food for the purpose of creating an artificial famine that would drive up prices.

This, the government should do and doubtless will do, but still the high price level will remain with possibly a gradual downward tendency that will hardly be noticeable for the next year or two. Meantime, it is quite probable that wages in many industries will continue to advance, a claim being made that the increase during the past three or four years did not keep pace with the prices of commodities.

The statisticians tell us that the highest point has been reached and that henceforth the cost of living will undergo a gradual reduction due to economic laws, wholly apart from any action the government may take.

The actual cause, we might say the main cause, of the high prices is the inflation of the currency which is greater than ever before in the history of this republic because the financial transactions of the war were the greatest ever entered into by our government. The more gold in the country and the more business done on credit, the greater will be the increase in the price of commodities.

Somebody explaining the meaning of inflation of the currency drew an illustration from 24 percent beer, stating that you would have to drink three times as much of it to get under the influence as of the old time standard. So, he argued, you have to pay nearly three times as much money for what you buy at the present time as you did ten or twelve years ago. This illustration may not be entirely scientific but it conveys the idea of dilution of the brew which bears a close analogy to inflation of the currency.

The rise of prices in this country has been due mainly to the increase in the supply of gold brought here by purchase of munitions and foodstuffs by foreign nations. That is one cause, but another, perhaps even a greater, has been the vast scale upon which not only the business people but the government itself did business on credit through the banks and other credit agencies.

The effort to drive production beyond normal capacity pushed up wages to an extent which added to the effect of inflation in raising the cost of living. When will the prices get back to normal? That is a difficult question to answer.

One thing, however, is plain, namely, that prices cannot undergo any great reduction until production satisfies the demand for manufactured goods and until much of the debts contracted during the war shall have been paid up. Therefore, the greater the production in all the necessities of life the better will it be for all as likely in the long run to increase the purchasing power of the dollar and thus get back to something like normal conditions.

Those who have been preaching thrift during the past week have told how the people may reduce the cost of living by the practice of economy, by avoiding luxuries and purchasing only what is absolutely necessary. It is undoubtedly true that as a result of the high wages earned during the past few years, a great many people have acquired habits of extravagant living, which, in times like these, must be simply ruinous so far as expense is concerned.

There are many ways in which people of all ages can economize not only in food but in clothes and shoes. Young men who formerly were satisfied with shoes at \$2.75 or \$3 at the most, would not consider a pair of shoes now at \$5.00 or \$6.00. If they wished to practice economy, many of them could get along with one pair of shoes where they use two, simply by having their slightly worn shoes repaired instead of throwing them aside as useless. These are but a few of many ways in which thrift can be practiced by everybody and the high cost of living thus greatly

reduced, despite the fact that prices have not come down and are not likely to be materially reduced perhaps for several years.

## GREATEST SEARCHLIGHT

The most powerful artificial light in the history of man is said to have been constructed by Elmer Sperry of Brooklyn, N. Y. It is a searchlight with the brilliance of 1,000,000,000 lighted candles. Sperry stands out above all the billions of men who peopled the earth before him, as a destroyer of mankind's greatest enemy—darkness. Trace the development of artificial illumination and you have the history of the human race. The cave man's greatest discovery, his greatest legacy to the future, was the introduction of fire as the dispeller of dark night.

It was a momentous date in human annals when Alfred the Great put a horn shield around a candle, thereby creating the lantern (lanthorn). Alfred's simple innovation meant more for genuine progress than a dozen wars. Inventing a process by which a light could be made to glow in a vacuum required a thousand more years. Moses Farmer of Newport was the first man to have an electric lighting system in his house in this country. That was in 1850. He had 42 incandescent lamps. Folks traveled miles to see it. Today it wouldn't make even a good tobacco advertising sign.

Manufacturing plants equipped with scientific systems of illumination have 10 per cent greater production, 25 per cent better workmanship, 25 per cent less spoilage and 25 per cent fewer accidents. The American public yearly purchases 165,000,000 large-size incandescent electric light bulbs and their efficiency is such that three times as much light is given, per dollar, as 10 years ago. It is a far cry from the old days in France when there was a tax on windows.

Scientists say that eventually we will have canned sunlight. Imagine opening a one-pound can of sunlight and placing it on the table to evaporate and dispel darkness. A pound of light is possible, for light has weight. The light waves from the sun constantly exert on the earth a pressure of 70,000 tons. Sperry's billion-candle-power searchlight, whether of canned sunlight or something else, appeals to the imagination because man's greatest enemy is darkness. Nor is darkness limited to sensations conveyed to the brain through the optical nerves. All ignorance, all injustice, is a form of darkness. In that sense the printing press is the greatest light in history. It shines forth on the roads of eternity as the people march forward through the ages out of the darkness into the light—N. E. A.

## SENATOR WALSH'S SPEECH

Much interest has been felt in what position Senator Walsh would take in reference to the peace treaty and the League of Nations. Yesterday he made a speech of very considerable length and importance, dealing with the League covenant from the strictly American standpoint and showing why he cannot vote for that instrument in its present form, principally on account of Article 10 which he claims would maintain the territorial integrity of all the nations associated with the league and thereby tend to hold in subjection peoples now and hereafter struggling for freedom.

He denies that self-determination has been granted to any subject nationalities except to those of the powers against which we fought during the war. He believes that self-determination should be extended to the nations held in subjection by the great powers now taking a leading part as members and advocates of the League of Nations.

With much eloquence he argued that by adopting the covenant in its present form and joining the League of Nations with the other powers, the United States would compromise her honor and her unbending devotion to the cause of world freedom. The Massachusetts senator strongly protests against any assumption that he could be influenced by any interest other than those purely American. It is thus, he asserts, that he cannot vote for the treaty because it would condone the crime of Shantung and thus place a stain upon our flag and brand our country with perpetration of a crime.

It does not appear from the speech that Senator Walsh appeals for anything beyond reservations that will protect the rights and interests of this republic and prevent our entering into any alliance in which any other country would have

## THE CELEBRATION

All up for the South End celebration, make it a rouser. The South End is awake to the significance of the occasion. It has given a great many boys to the service, many of whom made the supreme sacrifice. For the survivors there will be the most enthusiastic greeting with all due honors and they deserve all the honors that can be bestowed upon them. They proved their valor and their patriotism in the great struggle to make the world safe for democracy.

Fast driving of automobiles in the thickly settled portions of the city is a common practice that must be curbed in the interest of public safety. Even when passing intersecting streets the rate of speed in a majority of cases is more than twice what the law allows.

## SEEN AND HEARD

Not a fly has escaped us this summer, but despite our best efforts we have not been able to kill 'em all off.

Too bad all these welcome home affairs couldn't have been all bunched into one grand, never-to-be-forgotten celebration.

Funny how some girls can board an electric car without making much of a hosiery display while others—well, never mind, it's none of our business anyway.

It was Samuel Butler who said: "How loosely our thoughts must hang together when a face seen in the fire, or in the stem of a garbled tree will lead them into such vagaries at a moment's notice."

If you have occasion to use Dutton street between Merrimack and Fletcher streets you should keep sharp watch for automobiles, for the average automobilist seems to consider that stretch of street a speeding ground.

"Why, how is that?"

"Well, de cook he says de road's so rough dat every time he tries to fry aigs dey scrambles."—The Housekeeper.

## Good Old Fashion

Modern parents who have departed from the advice of Solomon should note the wisdom of the Stamford, Conn., judge who sentenced eight boys, guilty of trespass, to be spanked in court by their fathers. It was good exercise for the fathers and a valuable experience for the boys. Usually the old-fashioned parent, skillful in the use of the rod, had control over his household. The attitude of the children toward such a parent was one of wholesome fear and respect. Too often the modern parent enjoys neither. Parents have an authority over children which may not be abdicated.—Leslie's.

## Sailors' Superstitions

Time was when sailors would not think of sailing without a charm or pocket piece of some kind to ward off bad luck. Wind heads were a favorite and in nearly every port were maidens to sell them. Tattoos were considered essential for bon voyage especially the butterfly on the shoulder predominated for good luck. A pig tattooed on the foot was assurance the man never would drown, and sailors say not a man is known to have

## Golden Autumn

The bright, fair scenes of summer are fading from our view. And the golden leaves of autumn bespeak a season new. The flowers that painted all the fields and beautified the lawn, have faded death before the breath of autumn's early dawn.

But dear old autumn bath her charms though flowers on lawn and field give up the ghost at her command. And to her fancy yield. She nips the bloom of fragrant flowers. Alas! we say, too soon. But there's grandeur in her golden leaves. Likewise her harvest moon. —By John Carney.

## Comedy of Errors

The fire marshal of the state of Wisconsin has issued a bulletin which he terms a "Comedy of Errors." It says: He looked for a gas leak with a match, and found it.

He lighted a match to see if his gasoline tank was empty. It was not. He smoked while filling his automobile tank, but will do so no more. He smoked in bed; so did the bed clothes.

He threw the matches into the waste paper basket. He is wiser now.

## MAN ABOUT TOWN

Candy makers, who hitherto have not seemed to feel the exigencies of the sugar shortage now are beginning to feel a tightening up on their supply and as a consequence less candy is for sale today than formerly. You will not notice it in the amounts being displayed in show cases and trays, but it would be noticeable if those on the outside might see the amount in reserve. It is a fact that confectionery dealers are not able to get anywhere near as much boxed candy as was possible a few weeks ago simply because the manufacturers cannot get sugar in such generous amounts. There are most disquieting rumors about as to the probability of a real sugar famine the first of the new year, much more serious than the present day shortage. Persons look upon the retirement of the government food control board with apprehension and fears are expressed that refiners will hoard their products, push the retail price of sugar to 12 cents or more and keep up the purchase price by withholding deliveries. A situation may develop which will demand a re-creation of a food control board for the necessities of life.

Landlords of tenement property and

owners of flats and apartment houses have generally instituted a new method of rental payments in the city which brings them much additional revenue. This scheme is to let by the week rather than the month and when one stops to consider this method the reason is easily seen. Apparently figuring that they lost at least a month's rental by the monthly-payment plan, the landlords by the weekly plan get paid for every single day. Consider, for instance, renting a flat for \$40 a month. That means \$480 a year. The landlord says, "I have decided to change your system of rental, Mr. B, and from now on instead of paying \$40 a month, the charge will be \$10 a week." For the moment the tenant sees no difference, but when he multiplies 52 weeks by \$10 he gets \$520, against \$480 when paying by the month. This is a radical change from policies of long standing.

## ATTACK BY GERMANS

Letish Forces Protest "Violation of Peace Treaty"—World Threatened

PARIS, Oct. 10.—(Havas).—German troops attacked Letish forces on October 8, according to a protest received by the peace conference from the Letish government. The allies are asked to take decisive action against this "violation of the peace treaty" and to compel Germany to comply with the terms of the Versailles pact. It is claimed German troops in Letia are "threatening the world and uniting with pro-German Russians."

## BAY STATE LEGION LEADS COUNTRY

BOSTON, Oct. 10.—State Sec. Leo A. Spillane of the American Legion yesterday received word from National Chairman Henry D. Lindsay that reports to Sept. 30 show that the legion has 5001 posts throughout the United States, and a membership of approximately 150,000. These figures, the report states, do not include complete returns from the nation-wide membership drive for 1,000,000. It is expected that there will be 6000 posts by Armistice day, Nov. 11, when the first national convention will open at Minneapolis and the permanent organization effected.

The report states that New York leads in the number of posts, with Massachusetts second in posts and first in paid-up membership.

## SALEM POLICEMAN ASKS FOR RAISE

SALEM, Oct. 10.—At the meeting of the city council yesterday afternoon, a petition signed by all members of the police department, except the executive officers, was submitted, asking for an increase in salary to \$1325 each per annum.

The police also requested one day off in every eight, with pay. The petition was referred to the mayor.

It was announced that at a mass meeting of the patrolmen in Niagara hall, 175 Essex street, last evening, it was voted to render financial assistance to the striking police of Boston.

WHERE MRS. WILLIAMS COOKS HOME FOOD. SOME OLD FASHIONED HOME RECIPES AS SERVED IN NEW YORK'S LARGEST HOTEL

(N.Y.E.A. Special to The Sun)

NEW YORK, Oct.—Home cooking in the largest hotel in the world!

Goodby "Terrapin à la Maitre d'Hotel," Farewell "Fillet à la Chateaubriand" and "Leche Crema," and all your little sister "Mousses" and "Souffles" and "à la mode!"

"I'll have some beef stew with vegetables, corn pone, a celery salad with cheese dressing, and—let-me-see—yes, here it is! Washington cream pie with jam! And coffee with my dinner! And, waiter! This is to come from the 'home kitchen!'"

The tired man stretches his legs under the table and waits contentedly for a dinner such as mother used to serve at home. He knows just what is coming. No strange French names disguise the dishes on the menu. He runs no chance of indigestion resulting from over rich sauces or seasoning.

The new "home cooking kitchen" in the great Hotel Pennsylvania in New York was a success from the first day it began operating. A woman, Mrs. C. H. Williams, is in charge. She is a most motherly looking person; just the sort to stand in a kitchen door with a gingham apron tied round her waist and call:

"O-o-o-o boys! Dinner's ready!"

The recipes she uses in the world's biggest hotel today are the same her mother and her grandmother used years ago in their country homes.

Here are some of her special favorites:

## WHERE MRS. WILLIAMS COOKS HOME FOOD.

## BEEF STEW WITH VEGETABLES

Take six or seven pounds of upper round of beef. Prepare the vegetables as carefully as though they were to be served separately. Make deep incisions in the beef with a thin sharp knife and insert narrow strips of salt huffs and insert narrow strips of salt pork. Put trimmings from pork in bottom of iron pot. When pot is hot put in meat and brown on all sides for about half an hour. Don't heat. Success of this dish depends upon slow cooking.

## WASHINGTON CREAM PIE

1 cup sugar.  
3/4 cup butter.  
1/2 cup milk.  
2 cups flour.  
2 eggs.  
2 teaspoonsful baking powder.

## CREAM

1 1/2 cups milk.  
2 cup sugar.  
2 tablespoonsful flour.  
1 egg.  
1 teaspoonful vanilla.  
Bake in a shallow pan, split and spread with cream when cool. Can be served with whipped cream or jam. This recipe belonged to Mrs. Williams' grandmother.

## CORN PONE

1 large cup of Graham flour.  
1 large cup of wheat flour.  
1 1/2 tablespoonsful sugar.  
1/2 teaspoonful salt.  
2 teaspoonfuls baking powder.  
Stir altogether and add 1 1/2 cups of sweet milk and one well-beaten egg and two tablespoonsful of shortening. Bake 20 minutes.

## DEVILED MUTTON

Cut even slices of cold mutton.

## These four Ladies have regained their health and strength by taking RED PILLS for Pale and Weak Women

## Saying a good word for RED PILLS

It is now six years since I took RED PILLS for Pale and Weak Women, and I consider it my duty to praise them highly, for they have helped me so much that I am now strong and well. I eat well, sleep well and in fact cannot complain of anything. Two boxes of RED PILLS relieved me, and fifteen boxes put me in fine health. I now take pleasure in recommending RED PILLS for Pale and Weak Women to my numerous friends.—Mrs. PHILLIS GAMACHE,  
2 Coolidge, Lowell, Mass.

## Left suffering by "La Grippe"

After recovering from a severe attack of "grippe" last fall, my constitution was run-down and in a weakened condition. I was constantly troubled with headaches, backaches, poor digestion, and was getting so weak that I had lost all interest in life. I started to take RED PILLS for Pale and Weak Women, and it was not long before I started to feel stronger and better in many ways. In about four or five months my health was completely changed and I was feeling fine.—Mrs. MARY DALY,  
363 Pond Street, Woonsocket, R.I.

## Good for the nerves

RED PILLS for Pale and Weak Women have strengthened me, they have calmed my nerves and helped my stomach. I took twenty-four boxes and was made well. I am now able to digest my food easily, I am strong and courageous and life seems brighter to me than ever before. I therefore do not hesitate one minute in recommending RED PILLS for Pale and Weak Women, so that others may have a chance of being benefited by their use, just as I have been.—

Mrs. PIERRE CARDIN,  
145 Buttle Street, Woonsocket, R.I.

## Benefited fifteen years ago; still well

Fifteen years ago I took RED PILLS for Pale and Weak Women. I was so worn-out through overwork that I was completely exhausted and unable to do anything right. Some of my lady-friends who came to see me, were always speaking of RED PILLS and I grew to believe in them so much that I tried them. Only six boxes were necessary to help me, and I will take them again whenever I feel that I need a good tonic to build up my strength.—Mrs. O. FORGET,  
138 Aiken Street, Lowell, Mass.

## RED PILLS are for Women only

(They are always sold in boxes of fifty pills, 50 cents box, 6 boxes for \$2.50. See that the name of the "FRANCO-AMERICAN CHEMICAL COMPANY LIMITED" is on every box.)

not too fat. Stir together and melt in a clean frying pan two tablespoonsful of butter and one of currant or grape jelly. When it hisses lay in the mutton and heat slowly—turning several times—for five minutes, or until the slices are soft and very hot, but not until they begin to crisp. Take out the meat, lay on a warmed dish, cover and set over boiling water. To the butter and jelly left in the pan add three tablespoonsful of vinegar. A small teaspoonful of made mustard. A quarter teaspoonful of salt. Half as much pepper as you have salt. Stir together over the fire until they boil, and pour on the meat. Cover three minutes over boiling water and serve. This recipe was originated by Mrs. Williams' mother.

WHITE CUP CAKE  
1 cup of butter.  
2 cups of powdered sugar.  
3 cups prepared flour.  
1 cup of sweet milk.  
Whites of 5 eggs.  
1 teaspoonful of essence of bitter almond.  
Cream, butter and sugar; add milk and beat hard before putting in the whites of the eggs. Stir in flavoring and, lightly and quickly, the prepared flour. Bake in small tins.

#### DAD IS A FUNNY MAN IN THE FALL

What's the reason for the worried look on mother's usually happy face? Why does she sit around aimlessly with a dust cloth in her hand, a bunch of wrinkles on her brow and eyes full of ready-to-cry tears? Why, too, does the maid look like a spring thunder cloud ready to strike on a moment's notice? What inarnation is the matter with the family anyhow?

It's Dad!!!  
Dad? Yep. Father is off again on his annual fall rampage. He's cleaning out the furnace preparatory for firing it up during the chilly season and round about him and hither and yon and everywhere hangs a mantle of dust induced by his operations. There's dust on the American beauties sent to sister by her best particular beau and, in consequence, sister, too, is ready to turn on the weeps at a moment's notice. There's dust, likewise, on the family cat though the poor critter has licked her tongue callous trying to keep herself clean. There's dust on Rover, too, which makes him feel as though the good old summer time is back again with autos delightfully spraying grime upon him as he yelps excitedly in the dust of the street.

There's dust here, there and then some, particularly on Dad. But never a worry or care gives Dad to this fact. He's having the time of his life "cleaning" and thereby deranging the internal workings of the furnace, as per his usual good-intentioned custom, as a result of which some pleased steam-fitter will keep himself and three assistants busy for two weeks repairing the damage.

It's enough to make women weep. Isn't it, to think of all the expense Dad is running up by his "cleaning" activities? But it isn't this aspect of the thing which is proving so perturbing to mother and sister and the maid. It's the thought that now they'll have to do so much hard work over again. You see, as usual, Dad is cleaning the furnace after the women have finished the fall housecleaning!!!

## DENIAL MADE BY JAPANESE

Declares Japanese Did Not  
Threaten to Join in Attack  
on Americans

Also Says No Apology Was  
Demanded by Americans  
in Siberia

TOKIO, Friday, Oct. 3. (By the Associated Press.)—Reports that an apology was demanded by American authorities in Siberia from Japanese officials or that the Japanese threatened to support Cossacks in the recent encounter at Iman, north of Vladivostok, are denied in a statement issued by the general staff here today. The statement says:

"According to facts which have been ascertained by the Japanese army, two Americans were arrested by Cossacks on the charge of having prevented by force, the discharge of his duty by a Cossack officer at Iman, Siberia, on Sept. 4. The Americans were transferred to Khabarovsk on Sept. 6. On the same day three companies of American troops with machine guns arrived at Iman. One company deployed against Cossacks in the neighborhood and the Japanese garrison. The two others were deployed in the town itself.

"The Cossacks, military policemen, were arrested by the Americans who subsequently left. The headquarters of the Japanese garrison volunteered its good offices and through its intermediation the Cossacks willingly returned the arrested Americans to the headquarters of the 14th Japanese division. Simultaneously the Americans returned the Cossacks they had arrested. It is absolutely untrue that any apology was demanded or that the Japanese threatened to back the Cossacks if the Americans did not return the captured military policemen.

Original reports stated that Captain L. P. Johns of the 27th regiment and Corporal Benjamin Sperling of the 31st, were arrested at Iman by Cossacks on charges of not having on their persons identification papers and that Sperling was flogged. It was said that Captain Johns escaped and

Lydia E. Pinkham's Veget-

Columbia, Pa.—"I was very weak and run down and had dragging-down pains and pains in my back. I could not get around to do my work and had to sit down and rest off during the day. I saw Lydia E. Pinkham's Vegetable Compound advertised in the papers and read the testimonials, so I thought I would try it. Now I am healthier than I ever was in my life, and can recommend it to any woman who suffers as I did." —Mrs. ELIZABETH MAY, R.F.D. No. 1, Columbia, Pa.

The reason Lydia E. Pinkham's Vegetable Compound is so successful in overcoming women's ills is because it contains the tonic, strengthening properties of good old fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence, and the letters which we are constantly publishing from women in every section of this country prove beyond question the merit of this famous root and herb medicine.

went to Spassko, where he reported the incident to his commanding officer. Later an American detachment was said to have gone to Iman, where the release of Sperling was demanded. It was stated that a Japanese major interceded for the Cossacks, stating that if hostilities developed between the Americans and Cossacks the Japanese would side with the latter. It was subsequently learned that Sperling had been taken to Khabarovsk, General Kutnikoff's headquarters to which a telegraphic demand for his release was sent. He was immediately turned over by the Cossack authorities, it was said, and later an apology was made by General Rozanoff, commander of the Cossacks involved, to General Graves, the American commander.

COAT SUIT TRIMMED IN SKUNK  
(By BETTY BROWN)

NEW YORK, Oct. 10.—In spite of the fact that evening and afternoon dresses are being built with fuller lines as to skirts, creations for street wear are still showing the slender silhouette.

The coat suit sketched today is made of tobacco brown "peach bloom," perhaps the loveliest of all the new fabrics. It has a vest of self material. The opening of the coat is edged with skunk. The collar is also of the fur.

The sleeves are light-fitting with cloth covered buttons running to the elbow. The coat is boxed, dropping in a straight line under the arms, and is caught loosely at the waist line with a narrow string tie of the goods.

The hat worn with this costume is a big soft am-like affair made of the same material as the suit. Its

Straight-shooting, clean living, and counting no risk too great in the performance of their duty—that is how Daniel A. MacKay, a former member of the Canadian Northwest Mounted

Police, who was the principal speaker at a coffee party at the Grace church last evening, described this fearless body of men, famous the world over for their exploits and ability in running to earth the lawless element of the great northwest.

Mr. MacKay devoted considerable of his talk to the long period of training which applicants for the force must undergo before they can become active members of the organization. He also told of many interesting experiences while trailing the "bad men" of the wilds. He didn't say so in so many words, but one listening to his narrative couldn't help but get the impression that in his opinion there was no body of men on earth who could quite compare to this great organization, who have carved their names deep in the annals of Canadian traditions.

## HOLIDAY IN CINCINNATI

Acting Mayor Issues Proclamation—City Honors New World Champions

CINCINNATI, Oct. 10.—(Herald) Cincinnati rose this morning to celebrate as a public holiday the triumphal return of the Reds from Chicago, where they won the baseball championship of the world yesterday from the White Sox.

A proclamation calling on all citizens to observe the day as a public holiday from 8 o'clock until noon, was issued by Acting Mayor Carl Jacobs and was widely observed, many business houses remaining closed. The proclamation urged all Cincinnati residents to be present at Fountain square at 10 o'clock to pay homage to the world champions.

Joy ran at flood tide last night. Impromptu processions formed and marched through all sections of the city, representative men of affairs met at the Business Men's club and appointed committees for the celebration today. Word was sent to all fire stations to ring the bells today when the conquering heroes arrived.

Members of the business men's reception committee escorted the Reds to

waiting automobiles and the entire party, including the wives of the players, went to the Business Men's club for breakfast.

## HOW SERIES MONEY WILL BE DIVIDED

CHICAGO, Oct. 10.—The players on Cincinnati team will receive \$117,157.65, which, divided into 24 half shares, will net each share \$5297.01.

The White Sox will get \$138,104.70 and each of the 24 players will receive \$5754.36.

The national commission obtained \$12,241.40 or one-tenth of the total receipts of \$722,114 taken in, exclusive of war tax on all eight games.

The totals for eight games follows: Attendance, 286,928; receipts, exclusive of war tax, \$722,114.

Players' share, \$722,114.

Club's share, \$289,522.50.

Total for Cincinnati Nationals, \$117,157.65.

Each player, 22 half shares, \$5297.01.

Total for Chicago Americans, \$75,104.70.

Each player, 24 shares, \$3254.36.

Second teams of leagues: New York Nationals and Cleveland Americans, each \$19,525.21.

Third teams of leagues: Chicago Na-

tional and New York Americans, each \$13,017.45.

While there are 24 players on the Red's team, three were allotted only a half share by a vote of the entire team, thereby cutting the total shares to 22½.

## TEXTILE WINS

## Local Eleven Downs Dean By Score of 12-6

The Lowell Textile school football team won a hard fought contest from Dean academy yesterday afternoon at Franklin by the score of 12 to 6. The battle engendered a little too much rivalry in spots and a difference of opinion between the umpire and referee late in the game caused some of the more excitable players to stage a Willard-Dempsey. It was all over in a few seconds.

Textile played the better brand of ball and deserved to win. Dean was not fussy how plays were stopped as long as the object was accomplished and therefore pulled a lot of rough stuff the local boys resented. Dean scored in the first period when a long forward pass was completed and Shaffer, right end, hopped over the line for a touchdown. The try at goal failed. Textile scored in the third period and again just before the game ended. A discussion arose as to the second touchdown, but finally it was allowed. The lineup and summary:

TEXTILE DEAN  
 Prescott, lb. McCann  
 Stevens, lb. Eaton  
 Goss, lb. Keesee  
 Scott, c. Barrows

## HIGH SCHOOL TEAM TO MEET WOBURN

The Lowell high school football team goes to Woburn on Columbus day to play the high school eleven of that town. An automobile truck will leave the school annex at 3.30 o'clock in order to allow for plenty of time. The game is scheduled for 10.30. Not only will the first team and substitutes be taken on the trip but also every man who has not missed a practice session this season to date. The team has been working out daily at Spaulding park and it will be a far sprier eleven on Monday than the one which lost to Nashua high a week ago today.

The new school ruling whereby a student who engages in athletics may be exempt from military drill is meeting with general favor by the boys. In time it will show its effect upon the athletic teams and may have a tendency to unearth good material which otherwise would never be sought out.

Official estimates put the number of British, French and German-born wives brought home by soldiers of the A.E.F. at 18,000.

## WENT THROUGH ROPES

## Dixon Fell in First Round and Bout With Reed Declared "No Contest"

Paul Reed and Paul Dixon, principals in the main bout of the initial show under the new management at the Crescent club last night, had a very brief session, with activities terminating in the first round when Dixon fell through the ropes, striking his head on the boards extending outside the ring and dropping to the floor. The club physician examined Dixon and declared that while he was not knocked out by a blow, he was incapacitated, and hence referee Matty Carney declared it "no contest."

The accident marred an otherwise classy program. All the other bouts were full of action and had the members in a very enthusiastic mood throughout.

Reed, in the brief time he was in the ring, showed wonderful form and had a pronounced lead over his opponent when the end came. Reed who when here before showed much class as a fighter and aggressive worker, displayed remarkable cleverness last night. He stepped around like lightning and worked a left jab and right cross to advantage. Dixon did not appear to be able to get going, for Reed put forth a bewildering attack. He's a southpaw and a difficult man to solve. He was traveling at a fast clip when Dixon went against the ropes. Reed maintained that Dixon went out as a result of a left to the chin, but the referee's contention, which was upheld by two physicians, must be accepted.

The semi-final justified all the favorable advance notices, for it proved to be a hummer from bell to bell. Kid Thomas of Lawrence and Young Leonard of Chelsea were the performers and a better matched pair would be hard to find. Leonard got the jump, but toward the final stages Thomas came to the front and in the final round, the eighth, he uncocked a great burst of speed that brought him the award.

Young Demas and Young Diamond, two local boys, in the second preliminary, which was marked by abundant action while it lasted. It went two rounds. The first was fairly even, but in the second Diamond had the advantage, and one of Demas' seconds threw in the towel, in token of defeat. Demas protested but it was of no avail.

In the first prelim a new "champ" made his debut. He is Young Danco and he displayed much class. He met Dinky Welsh and after four whirlwind rounds Danco slipped over a sleep producer in the fifth and the curtain came down.

There was a good attendance and the announcement that checks would be good for the next Thursday, when Barney Adair and Jimmy Duffy will meet, met with applause.

Young Norton desires a return match with Kid Murphy. He is training hard for a series of matches and says that he will be ready at any time to step into the ring. He declares that he would like nothing better than to meet Murphy on a winner-take-all basis.

Young Demas, who lost to Young Diamond last night, when one of his "seconds" threw a towel into the ring called up The Sun this morning and announced that he had "fired" his manager and was looking for a new handler.

Word comes from Lawrence that a record crowd is expected at the Kid Cuddy bout at the new Cuddy arena on Monday afternoon. Both boys are reported to be in great condition and ready for a fast mill. A strong preliminary card will precede the main event.

Pure glycerin will help to dissolve fruit stains from linen.

## PREVENT COLDS AND INFLUENZA USE ANTISEPTICS

While a serious recurrence of the influenza epidemic is not anticipated, it is always well to be prepared by having some reliable cold remedy in the home, and an excellent preventive measure is to make it a daily habit to spray the nose and throat with an effective antiseptic.

We Recommend Klenzo Antiseptic. Pleasant in taste and yet more efficient than some of the drastic, unpleasant antiseptics. 4 ounce bottle

## ANOTHER LABOR CRISIS

Agitation for Nationalization  
of Mines Now Confronts  
British Cabinet

LONDON, Oct. 10.—The agitation for nationalization of mines, which now confronts the cabinet is admitted in labor circles to be a step toward nationalization of all industry.

"The nationalization of mines," says the Herald, the labor organ, "is the question immediately at issue, but is of course, a precursor to a complete policy of nationalization of industry. Here is the battle joined."

On neither side is there any doubt that the fight will be stern. The Herald recognizing this, says:

"The posturing class, the class which lives on labor of others, has everything at stake and will shrink from nothing in an attempt to frustrate the movement."

Representing the anti-nationalization view, the Telegraph does not expect the miners to be converted from their present opinion, although it sees some little hope in the appeal to other trade unionists. It adds:

"The prospect is the reverse of attractive. It means renewed trouble and unrest, and that at a time when the nation can least afford it."

The Special Trades union congress which will consider Premier Lloyd George's reply to the deputation yesterday will convene on Oct. 22.

The premier informed a deputation yesterday that the government was unable to adopt the proposals made by the coal commission headed by Sir John Hawkey and the miners are greatly dissatisfied. Frank Hodges, secretary of the miners' federation, said after the conference:

"The government's attitude has created a very grave situation."

The addresses made by members of the deputation to Lloyd George are not marked by bluster or violent lan-

EVERETT TRUE

BY CONDO

guage. Their statements were intended to show by reasoned arguments that nationalization of the mines was entirely in the interests of the community and also that the miners were supported in their demand by trade unionists throughout the country.

From quoted statements of prominent labor leaders, it is apparent they not only believe nationalization desirable, but are convinced there will be a constant unrest in the labor world until it is granted. It appears to be their impression that if extreme action is necessary to enforce the demand, it will not only be the miners who will strike, but trade unionists generally.

It is becoming increasingly evident that, apart from arguments claiming that nationalization would be a benefit to the community, there is a strong feeling among workers that the present system of private ownership carries with it indefensible injustice to the miners.

Premier Lloyd George in the course of his speech yesterday to the deputation of miners, says the Central News, left the inference that if a large and powerful section of the community continued to press for the policy of nationalization which would have far-reaching effects upon industry it would be necessary that the entire nation be given the opportunity of declaring its attitude.

Here's the story of the origin of "gringo." American soldiers of the Mexican war sang in camp "Green Grow the Rushes, O." From this the Mexicans called them "Gringo."

HELD HUSKIN' BEE  
AT WILLOW DALE

A real old fashioned huskin' bee—with "Red Ears" and all the time-honored "fixins"—was held at the R and G camp at Willowdale last evening, and 30 young local couples who attended the event found plenty of enjoyment in the varied entertainment program arranged by the committee in charge.

Following the "husking," a musical program was given by some of the young folks, which included piano selections by Miss Kitty McLaughlin; songs by Miss "Mickey" Finnerty; original dancing exhibition by Miss Helen Corkery and John Joyce; and novelty songs by John Roane, Jr. A buffet luncheon was served by Caterer Harvey.

The first prizes in the huskin' bee went to Miss May Flannery and Dick Mann, and the "Red Ear" prizes were won by Miss Agnes Burroughs and Thomas Morgan.

The committee in charge of the event were, Mr. and Mrs. John Gleason, John Roane, Jr. and Louis Awilly.

**NAVAL RECRUITING**  
Only one naval recruiting mission now remains in the city, the party from the armored cruiser U.S.S. Huntington. It is probable that after this month no further parties from Uncle Sam's big ships will visit the city, as after the latter part of the month individual enlistments—that is, signing up for any particular ship—will be discontinued.

**SCHOOL BOILERS ARE IN GOOD CONDITION**

With the receipt of the \$10,000 appropriated the public property department at yesterday's meeting of the municipal council, Commissioner Marchand has cleared up all existing expenses incident to the installation of three new boilers, one at the Colburn school, one at the Dover street school and one at the Lawrence street engine house. The contractor's bill for their installation amounted to nearly \$3000.

At the present time every school is in excellent condition with the exception of the heating plant at the Morey school. This boiler needs re-tubing, but in view of the fact that the addition to the school will call for two new boilers, an attempt will be made to get along with the present one for the time being.

## MATRIMONIAL

Mr. Joseph Halligan and Miss Elizabeth J. Murphy were united in marriage Oct. 6, at St. Patrick's rectory by Rev. Joseph A. Gartin. The bride was attired in a traveling suit of taupe heavier cloth with hat to match and

carried white roses. The bridesmaid was Miss Rena Deane of North Adams, a cousin of the bride and the best man was Mr. Charles Halligan, a brother of the groom. The bridesmaid was attired in a blue velour traveling suit with hat to match and carried pink roses. After the ceremony a reception and wedding dinner were held at the home of the bride's sister, Mrs. John P. Redding, 53 Adams street. Mr. and Mrs. Halligan, who received numerous gifts, left on a wedding trip to the White Mountains and upon their return will reside at 53 Adams street, where they will be at home to friends after Nov. 1.

TO STUDY CHEMICAL SITUATION IN EUROPE

The National Foreign Trade council is informed of a new activity on the part of the American chamber of commerce of London, which should prove of the greatest value to American foreign trade.

Two investigators, representing the dye and chemical trade group of the chamber, have left London for Germany and Austria and possibly certain districts of Russia, to make a practical study of German methods of production and the possibilities of Germany's import and export trade in dyes and chemicals.

The question of future business will be studied, especially from the financial side, to see how Germany intends to carry on her exports of chemicals. Information will also be obtained for use in preventing the dumping of German dyestuffs direct or through neutral countries.

The reports of these investigators should be available in the course of a few months, and may be obtained from the American chamber of commerce in London, with whose activities all American exporters to Europe should be in the closest touch. American business men traveling in foreign countries are urged to register at the American chamber of commerce when in London, and to state their needs. In this way the salesmen can be put in touch immediately with those British firms who have addressed inquiries to the chamber in regards to goods such as he represents.

Buttermilk Creates Beauty Overnight

Delightful New Vanishing Cream Containing True Buttermilk Makes You Look Years Younger or Money Back.

The first application of Howard's Buttermilk Cream will astonish you. It creates beauty almost like magic, but the most wonderful thing about it is the fact that whilst it turns the dull and most lifeless complexion to radiant beauty and makes red or rough arms snowy white, yet there is not the slightest sign of its use after application. It actually vanishes from sight and the most heated atmosphere will not produce the least shininess or greasiness of the skin. There is no secret about it nor is there any doubt about the result—it is just common ordinary Buttermilk in the form of a wonderful cream gently massaged with the finger tips around the corners of the eyes and mouth. To prove this to your complete satisfaction obtain a small quantity of Howard's Buttermilk Cream from your druggist or any toilet goods counter on the money back if dissatisfied plan. The directions are simple and it costs so little that any girl or woman can afford it.—Adv.

Our Credit Plan

Is a convenience to the wage earner; an opportunity to dress just as well as your neighbor. Some stores extend credit to rich people only—that is called a charge account. This store makes no distinction between the rich and poor. We extend credit to everybody, and particularly eager to working people, the large majority of whom are good, honest, trustworthy men and women.

There is no loss of dignity, no embarrassing conditions, no references required, no personal questions asked and no extra charge for the credit privilege. Your promise to pay a little each week is sufficient for you to obtain credit here.

We are confident if you investigate our styles, values and generous Credit Plan you will quickly open an account with us, as we carry a full line of Men's and Boys' Clothing, Ladies' Garments and Shoes; also Millinery, Watches and Silverware.

electing delegates to the state convention in Worcester, October 15 and 16.

Nominations were made from the floor and balloting continued from 9 o'clock until midnight. There were 43 nominees and of this number the following 12 were elected: George F. Toye, James P. McCready, Walter Scannell, Daniel Brennan, John O'Dea, John Walsh, Eli B. Hart, John J. O'Rourke, Robert T. O'Hanlon, Arthur P. Moran, Miss Ella Quinn and Miss Marguerite O'Dwyer.

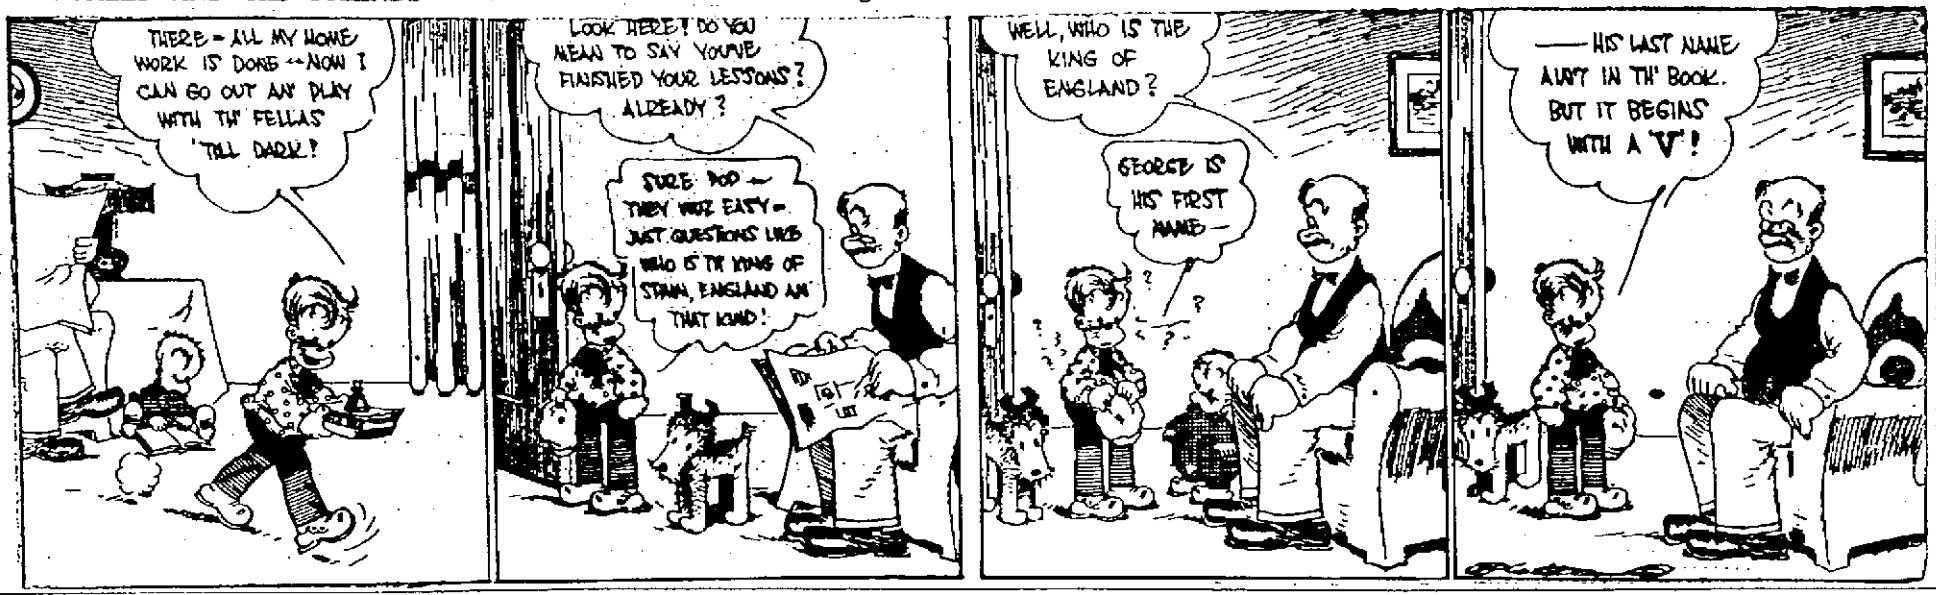

Commander Walter Scannell presided over the business session with Secretary Jas. P. McCready in his usual position. Reports were heard from the membership and entertainment committees. Commander Scannell announced the receipt of two post bags, one a beautiful American flag of silk and the other an American Legion banner, bearing the inscription, "Lowell Post, No. 57." The body stood at attention as they were unfurled.

A man in St. Louis, arrested for stealing 80 pounds of metal, a hand-ful at a time, said he did it because he was "suffering a bad wooden leg" and wanted money to buy a new one.

## THE GREAT DISCOVERER

Public and Parochial Schools  
Honor Memory of Colum-  
bus With Special Exercises

Columbus day, which this year falls on Sunday, was observed today in the elementary public and private schools of the city. In practically every instance the exercises were conducted by the entire school meeting together, but in a few cases such gatherings were not possible and exercises in the individual class rooms were held instead.

The life and work of Christopher Columbus was brought to the mind of the children in song and story as was the America of today, the land he discovered more than four centuries ago.

Programs of exercises follow:

**ABRAHAM LINCOLN SCHOOL.**

## GET ACQUAINTED WITH EPISCOPAL CHURCH TO YOUR TAX BILL HONOR CARD. MERCIER

Many people who go to the office of the city treasurer during a day for the purpose of making payment of real estate taxes cannot understand the large increase in the amount of the bill this year over 1918.

They have figured out at home, taking into consideration the increased tax rate, what they should be called upon to pay, but even their estimate falls short of the amount on the bill. These people, however, have neglected to consider that valuations also have increased, which accounts for the difference between the amount called for and their own figures.

## LARCENY CASES IN THE POLICE COURT

Charged with stealing an automobile valued at \$1000, Silva Brouil of Manchester, N. H., was called on continuance in police court today and a further continuance granted until next Tuesday. He has pleaded not guilty.

The case of Humphrey Kearney, alias John Dunn, the South Boston youth who escaped from a cell in the police station early last week, returned a few days afterwards to give himself up, and who was continued until today for sentence on the charge of stealing a Bonke register from a street car in Billerica, was again continued, this time until next Tuesday. He pleaded guilty to the charge at the time of his first arraignment, and the young man who was with him has since been placed on probation.

HEAD OF JESUIT ORDER  
ROME, Thursday, Oct. 9.—R. P. Ledochowski, head of the Jesuit order, who left Rome at the beginning of the war and remained in Switzerland until the end of the conflict, has returned to Rome and was received by Pope Benedict today.

Geologists estimate glacial deposits in South Australia to be more than 500,000 years old.  
Department of labor reports for the last three years show that 11,000 strikes have occurred, mostly during the month of May.  
The term "boyce" comes from the name of an Irish estate agent, Captain Boyce, whose manner was so offensive that the tenantry refused to work for him.

## FREE TO THE SICK

In order to prove to the public just what Dr. Powell's Treatment is, and what results it will produce, all persons suffering from Catarrh, Deafness or any other so-called incurable disease, will receive Consultation, Examination and Office Treatment absolutely free for one week, if they call on or before October 18. Could any offer be fairer? Could any proposition present on its face the stamp of more honesty and sincerity?

Are you afflicted with CATARRH, the symptoms and consequences of which are too well known to be repeated?  
Are you afflicted with DEAFNESS, partial or complete?  
Are you worried by ringing noises in the head or the extension of the catarrhal process to the ears?  
Do you suffer from DYSPEPSIA, loss of appetite, bloating in the stomach or any of the forms of catarrh or inflammation of the digestive organs?  
Have you a severe BRONCHIAL TROUBLE, hacking cough, pain in the chest, loss of flesh?  
Have you been warned of approaching consumption?  
Are you a sufferer from ASTHMA?  
Have you been led to believe that your disease is incurable?  
Do you suffer from RHEUMATISM, for which remedies and prescriptions have proved unavailing?

IS YOUR HEART AFFLICTED?  
Do you suffer from an OPPRESSED FEELING, a CHOKING or SMOOTHERING SENSATION, IRREGULAR PULSE, SHORTNESS OF BREATH or FLUTTERING or PALPITATION?  
Do you suffer from KIDNEY trouble?  
Have you pain in your back, and have you been told that your MALADY will result in a SERIOUS, if not a FATAL DISEASE?  
Do you suffer from LIVER complaint?  
Are you continually MELANCHOLY, unkindly and miserable, without any good reason why?  
Do you suffer from NERVOUS trouble, which affects so many at this time, when nerves are taken too heavily?  
Do you suffer from any MALADY which physicians have pronounced INCURABLE, and which they have been unable to help?

If you now in your chance to receive two weeks' treatment free, and test the superiority of Dr. Powell's Treatment.

## INCREASE IN UNFILLED ORDERS OF STEEL

NEW YORK, Oct. 10.—Unfilled orders of the United States Steel corporation on September 30 were 6,281,633 tons, according to the corporation's monthly statement issued today. This is an increase of 175,235 tons compared with the orders on August 30.

This is the fourth consecutive month to show an increase since the low level of 4,282,310 tons was reported for May. The upward trend began in June and has been steadily progressive.

## CENTRALVILLE, LOWELL, MASS.

THE TWO WELL KEPT AND WELL SITUATED COTTAGE HOUSES AT NO. 155 WEST SIXTH STREET, CORNER OF WEST STREET, AND NO. 151 WEST SIXTH STREET, PLEDGED IN TWO SEPARATE PARCELS TO THE HIGHEST BONA FIDE BIDDERS, AT UNRESTRICTED AND ABSOLUTE PUBLIC SALE, ON SATURDAY, THE ELEVENTH DAY OF OCTOBER, 1919, COMMENCING PROMPTLY AT 2:30 O'CLOCK, P. M., WITH THE HOUSE NUMBERED 155 WEST SIXTH STREET, AND FOLLOWING IMMEDIATELY WITH THE DWELLING NEXT ADJOINING AT NO. 151.

**COTTAGE NO. 155 WEST SIXTH STREET, CORNER WEST**  
This house has seven splendid rooms, four on the first floor, and three chambers on the second. Also pantry, toilet, gas, city water and sewer connections. The house is supplied with two side entrances, has cemented cellar and is in perfect repair, only recently being entirely gone over. The lot is of good size and dimensions, having a splendid frontage on the two streets, is fenced on all sides. This cottage, with its corner location and being of full size makes it a most attractive home.

Terms: \$200 must be paid to the auctioneer as soon as struck off, other terms at sale.

**COTTAGE NO. 151 WEST SIXTH STREET**  
Has six good rooms, besides large pantry, gas, city water, toilet and sewer connections; the house has three rooms on the first floor and three chambers on the floor above, has side entrance and is in A-1 condition; the building only recently being thoroughly renovated inside and out. The lot is of good size, with a corresponding frontage on West Sixth street, and is fenced on all sides. The premises have been occupied by the one tenant for the 15 years past, which fact in itself speaks of the premises as most attractive. Terms: \$200 must be paid to the auctioneer just as soon as struck off; other terms at sale.

In the offering of the above described cottages at public sale, the opportunity to secure a home in this, an essentially home locality, within easy and comfortable walking distance to Merrimack square, to the various mills and factories, and have a home all by yourself is here given. With the great scarcity of tenements, and with the large number of people of moderate means looking to buy a home, and with the very few parcels suitable for sale, this chance to obtain a home in this splendid location should be acted upon by the many, many numbers of home-seekers.

In all probability a most liberal mortgage can remain at 6 per cent. Make all inquiries at the office of the auctioneer.

Per Order of JOHN C. LEGGAT, Attorney.

## Introducing the Two Leading Clerks of Our New Furniture Department

MR. SPIRIDION LIPPE, Manager.

MR. WILLIAM H. WILLIAMS.

We take great pleasure in announcing that our New Furniture Department is under the able management of Mr. Spiridon Lippe, whose picture is above reproduced. Mr. Lippe, who is the buyer of this important department, has been connected with the furniture business in Lowell, for more than 20 years. His connection with the Bellefontaine furniture store, on Middlesex St., for the past 15 years has been more than successful.

Under his careful management, we have every reason to believe that the trade will receive the most courteous treatment and satisfaction in every detail. Mr. Lippe extends to all his most heartfelt welcome.

Another important feature that we are proud to announce, is the fact that Mr. William H. Williams, formerly proprietor of the Williams Furniture Co., at 110 Middlesex St., has assumed the assistant management of our New Furniture Department. Mr. Williams has been in the furniture business, in Lowell, for the past 20 years and as vice-president of the Home Furniture Association of Massachusetts, his dealings have brought him in connection with the leading furniture manufacturers and dealers of this country. With the elaborate stock of up-to-date merchandise, as can always be found in our store, Mr. Williams is assured of giving satisfaction to all and specially to his former customers, in whom a continuance of patronage is earnestly requested.

Appeals for League That Will Do Justice to Oppressed People

(Special to The Sun.)

WASHINGTON, Oct. 10.—Senator Walsh late yesterday afternoon made a strong and eloquent speech on the treaty and League of Nations praising President Wilson for the noble sentiments he had expressed but claiming the treaty as written does not sustain them. Senator Walsh stated with great emphasis he was irrevocably opposed to the Shantung amendment also to certain phases of article 10 as tending to the repression of subject peoples in their efforts for free government. He stated with great positiveness that he should vote according to the sentiments he had expressed but did not

BIG DROP IN INFANT  
MORTALITY RATE

For the week ending Oct. 4, Lowell stood 37th in the list of cities in the per cent. of infant mortality, with a figure of 11.1. This figure is not only 21 points lower than a week ago, when the city stood second in the list, but is the second lowest figure the city has experienced since the census bureau commenced to publish the weekly charts showing the infant mortality rate in a score or more cities throughout the country.

For the week ending May 31 of this year, Lowell's rate was 2.7, the lowest it has been since Oct. 9, 1917, and this week's rate stands as the second lowest. Jersey City heads the list this week with a per cent. of 25.3, while San Francisco is lowest at 8.5. For comparison the following cities and figures are given: Fall River, 27.8; Syracuse, 26.3; Boston, 19.4; Chicago, 21.3; New York, 17.3; Philadelphia, 12.5. The local figures fluctuate weekly, but not for many months has such a variance been noted as is contained in the comparison between this week's average of 11.1 and last week's of 22.1.

## COLUMBUS DAY PROGRAM

Lowell High School Holds Columbus Day Exercises at Keith's Theatre

High school pupils completely filled B. F. Keith's theatre this morning for their Columbus day exercises. Following a custom inaugurated by Herbert D. Bisby, the pupils were marched by rooms to the theatre at 11:20 o'clock and ten minutes later the exercises commenced. The speakers were Superintendent of Schools Hugh J. Molloy who confessed to a feeling of doubt as to his ability to feel perfectly at home while playing the dual role of educator and soldier, and Richard Braddock Walsh, chairman of the school committee, who departed from the main object and thought of the gathering and spoke on "Thrill."

The exercises commenced with two excellent selections by the school band and mandolin club under the direction of William P. Hovey. The two numbers were "Blarney Jazz" and "American Medley Overture" and they

"PICKETS" IN  
POLICE COURT

Shoe Shop Employees Testify to Alleged Threats by Strikers

John Hooghasian Tells Court Pickets Threatened to Pull Off His Mustache

"They said they'd pull off my mustache and beat me up."

So said John Hooghasian, for the past month an employee of the Spaulding Shoe Co., where a strike has been on for several weeks, when he took the stand in police court today in the cases against George W. Racine, business agent of the Allied Shoe Workers' union, John Zimmerman and Jos Hebert, charged with threatening Hooghasian last Saturday morning.

Hooghasian then went into details and said that he had been standing at his work near one of the windows Saturday morning, and that the three defendants, who were doing "picket duty" around the plant, had shouted to him to come down and they would beat him up and also remove the adornment from his upper lip.

He told them that he was too busy to come down, he said, and they replied that they would get him at noon time anyway.

This had made him afraid, he continued, and he had slept in the plant after that and had not ventured outside the building any more than was absolutely necessary.

Alma Campbell, another employee at the plant who said she had been working there for the past month and was not a member of the union, declared that she had been standing near Hooghasian at the time of the alleged threats and that the three pickets had also told her that she, too, was due for a "beating up" in the near future.

She had heard them threaten to beat up Hooghasian and pull off his mustache, she said.

"They wouldn't have much to take off, would they?" asked D. J. Donahue attorney for the defense.

"I'm no judge as to that," replied Miss Campbell. "You see, I'm not a barber."

She had spoken with Business Agent Racine several times during her stay at the plant, she said, and he had urged her to leave her work, which she had refused to do.

Several other young women employed at the plant also offered testimony in connection with the alleged threatening of Hooghasian, and at the close of the session a continuance was taken until tomorrow, at which time the defense will put in its case.

## TEACHERS ASK AID

Appeal to Federal Government for Help in Getting Increase in Pay

MONTPELIER, Vt., Oct. 10.—The Teachers' association in resolutions adopted at the annual convention today asked federal assistance in increasing teachers' pay, stating that local and state taxation does not make adequate provision. The convention, which was attended by 1600 teachers, elected Edward I. Green, of Richmond as president of the association.

CAPT. KEW WAS THERE  
WITH THE GOODS

Attacked by eight men, who attempted to make him release a man whom he arrested at Hollis and Washington streets, Boston, shortly before midnight last night, Capt. Loring R. Kew of Co. C of Lowell, now doing guard duty in the Hub, made hospital cases of three of his assailants by effective use of his club, and then held the remainder of the gang and an angry mob of fully 200 people who had been attracted to the scene, at bay with his revolver, bringing his man to police headquarters safely and himself escaping practically without a scratch, according to Lieut. Wildman of Co. C, who gave the story to The Sun today.

The Lincoln Highway is 3234 miles long.

MANCHESTER, N. H., Oct. 10.—"A cowardly outrage" is the characterization given the Manchester police by Major W. T. Hoadley, marine corps, for tearing down marine recruiting posters, in a letter of protest to Sheriff John O'Dowd, made public today.

Major Hoadley, in charge of marine recruiting in this district, wrote the sheriff following the removal of several recruiting posters from fences and trolley poles by the police. A protest to Chief Michael Haley is alleged to have had no effect so Mayor Verette and the board of aldermen were appealed to and have granted the marines the privilege of posting their literature on fences owned by the city.

The police claim they acted under a city ordinance forbidding posters of fences. City officials claim no such ordinance exists.

BACK PAY RECEIVED  
BY LOCAL CARMEN

As the result of a vote taken by the local street car employees at which they agreed to accept the recent award of the war labor board, giving the Lowell employees of the Eastern Massachusetts street railway company an increase in wages approximating 12 1/2 per cent, retroactive to June 20, 1918 the local carmen today received the amount of back pay due them under the terms of this agreement, which the company accepted at the time it was made.

The amounts received by the men ranged from \$1 to \$50, according to the length of service of the employee.

Opposition To Collective Bargaining  
and Closed Shop Outlined  
by Capital

Declares Sympathetic Strikes, Blacklists and Boycotts "Indefensible and Immoral" — Agrees Right to Strike in Private Industry Should Not Be Denied — Urges Plan of Adjustment to Prevent Strikes of Federal and Public Service Employees

WASHINGTON, Oct. 10.—Opposition to collective bargaining and the closed shop were among 12 fundamental principles outlined by the group representing capital and presented today to the national industrial conference here. Sympathetic strikes, blacklists and boycotts were declared to be "indefensible, anti-social and immoral."

While declaring strikes and lockouts, the principles set forth that the right of strike or lockout "should not be denied as an ultimate resort after all possible means of adjustment have been exhausted." This right, however, should apply only to private industry.

In public utility service it was proposed that the state impose such regulations as would assure continuous operation at the same time providing adequate means for the prompt hearing and adjustment of complaints and disputes. Opposition to strikes of

government employees also was expressed, the principles stating that the right of such employees to be heard and to secure just redress should be amply safeguarded.

For the settlement of disputes in private industry, it was proposed that each establishment be regarded as an industrial unit with adequate machinery for adjustment of misunderstandings between employees and the management.

## CUT INSURANCE RATE

Insurance Dept. Recommends  
Reduction in Workmen's  
Compensation Rates

(Special to The Sun.)  
STATE HOUSE, Boston, October 10.—A reduction of 10 per cent. in the rates charged for workmen's compensation insurance in this state is recommended in the annual report of the insurance department, published yesterday. It is signed by former Commissioner Frank H. Hurdson, and was his last official act before retiring from office this month.

Mr. Hurdson declares that during the last fiscal year the stock companies transacting workmen's compensation insurance in this state averaged more than 13 per cent. profits. "A rate higher than can be approved," he says, "it is expected that a countrywide revision of rates will be made within the next six months, but in fairness to Massachusetts employers a revision should be made here at once."

From reports made to him by the companies, the commissioner states, it appears that the companies paid to injured workmen and for their medical attendance only 50 per cent. of the premiums which they collected from employers; the amounts required by the companies to meet the cost of handling the business were only 37 per cent. of the receipts, this indicating

that 87 per cent. of the receipts was sufficient to pay the losses and expenses of doing business.

"These indicate," the report says, "that during a part at least of the year 1917, and for the entire year 1918, the profit to the companies was larger than can fairly be approved. It should be said, however, that when the rates were revised in 1917 it was intended that they should be adequate, but owing to various unforeseen causes favoring the insurance companies these rates have resulted in profits larger than any rate-making board would knowingly provide for. The increase is caused by higher wages due to the war and large payments for overtime work, while, on the other hand, there has been no proportionate increase in benefits to injured workmen, or in expenses, or in frequency or severity of accidents."

"This excess of premiums over losses and expenses points to the conclusion that rates should be reduced by the insurance companies in the immediate future, notwithstanding the fact that the legislature has increased weekly benefits to injured workmen in cases of total and partial disability, and that the expense of doing business will probably show an increase during the coming year. These factors will probably reduce the companies' gains from underwriting, but will not be of sufficient weight to overbalance the necessity of a reduction in rates in this commonwealth. The extent of the reduction cannot be decided until there has been a more complete study of the facts from the point of view of the public and of the companies, but an average reduction of 10 per cent. would

appear to be not far out of the way. To avoid discrimination between employers, it has been the custom in Massachusetts for some years to make changes in rates apply to existing policies for the remainder of their terms as well as to new business. Consequently, assuming that this procedure will be continued, revised rates will apply to existing policies for the remainder of their terms."

RUSSIAN PIANIST  
AT OPERA HOUSE

It will be a great privilege indeed to be able to hear the great Russian pianist, Rachmaninoff, at the Lowell Opera House, next Sunday evening, Oct. 12, at 8.15. He is to play a very popular program which is sure to please all. He will include his own compositions as well as the works of the masters.

The attention of American musicians was centered on Rachmaninoff, the greatest musician among the Russians of this generation when he declined to accept the post of conductor of the Boston Symphony orchestra. This position as leader of the finest organization of its kind in the world was declined by Rachmaninoff only because of the pressure of other desires. He was not disposed to bind himself to the arduous task of preparing and directing over one hundred orchestral concerts, but preferred to appear as a piano virtuoso which allows him to devote some of his time to compose and occasionally conduct some of the concertos of the more important orchestras.

Rachmaninoff will tour this country under the direction of C. A. Ellis of Boston, in concerts of piano music. This season he will appear in the larger cities only and will play more than 40 concerts. With a reputation already established as the foremost living Russian composer, one of the greatest pianists, Rachmaninoff at 40 is a commanding figure in the world of music.

LABOR UNION MEETINGS  
Everything is in readiness for the annual convention of the state branch of the International Union of Steam and Operating Engineers, which will be held in this city next Sunday under the auspices of the Lowell local. The convention will be held in Labor hall in Central street and will open at 10.30 o'clock. At 1 o'clock luncheon will be served and the remainder of

the business will be transacted at the afternoon session. Among those who will attend the convention will be General President Milton Snellings of the international body and Dave Evans, editor of the International Journal. The local committee in charge of the convention is as follows: Albra W. Hersome, chairman; William F. McCann, George H. Gibbons, Paul Mertrude, William Kenefick and Daniel J. Duffy.

Painters' Union  
Four new members were initiated and routine business was transacted at the regular meeting of the Painters' union, which was held last evening in Carpenters' hall. A delegation of firemen was present in the interest of the double platoon system and the men urged the members of the union to vote in favor of the proposition when it comes up on the ballot. Other meetings were held last evening by the Woolen Spinners' union and the Stationary-Firemen's union.

## USE FAKE PASSPORTS

Many Soldiers From So. German Garrisons Going to Baltic Provinces

BERLIN, Wednesday, Oct. 8.—(By The Associated Press)—Dr. Herman Mueller, minister of foreign affairs admitted in the national assembly today that many soldiers from South German garrisons were going to the Baltic provinces on fake passports, adding that they were chiefly "adventurers who expect a free and easy life there and expect eventually to settle down."

Discussing the prevailing lack of discipline, he declared it made it easy for German troops to go over into the

Russian service, and he asserted that people were "daily approaching the foreign office in a secret manner with information to the effect that the entente would be pleased to see German troops fighting in Russian units."

"If the entente is desirous of having us withdraw the last German troops from Russian formations," he said, "we might be permitted to express the desire that the entente request Russia to discontinue attempts to attract Germans into their service."

Gustav Noske, minister of defense, accused the independent socialists of "complicating Germany's position abroad by malicious and unjust criticism of the military administration and licking the boots of the British and French commissions in Berlin."

## FIND BODY OF SOLDIER NEAR R. R. TRACKS

While working on the railroad tracks near Caunters' bridge in Graniteville yesterday, railroad employees found the dead body of a soldier on the embankment a short distance from the railroad. It is believed that the young man was struck by a train while walking over the tracks and that his body was thrown up on the embankment. The remains were removed to an undertaker's establishment in Ayer by order of the medical

examiner. There was nothing in the man's clothing to help in the identification of the body with the exception of a few keys, which were left at the office of Undertaker Healey in Graniteville and which this morning were turned over to a couple of soldiers from Camp Devens.

## CAMPERS REUNION AT ASSOCIATE HALL

All arrangements for the reunion of the Lakeview and Willow Dale campers at Associate hall this evening have been completed and all points to a very successful event. The early part of the evening will be devoted to an entertainment, while later general dancing will be started and continued till a reasonable hour, music to be furnished by the Miner-Doyle orchestra. The proceeds of the evening will go towards swelling the fund for the erection of a new chapel at Lakeview and the organizers of the affair hope the many friends of the campers will respond in great numbers. John J. Flannery will be general manager and he will be assisted in his efforts to provide an excellent program by a score or more of young men and women who are deeply interested in the project. It is expected that Rev. Michael Gilbride, pastor of St. Mary's

church, Collinsville, who is also in charge of the chapel at Lakeview, will be present.

EAGLES HOLD MEETING  
A feature of last night's meeting of the Lowell aerie, P. O. E., which was held in Eagles' hall, Harrington building, Central street, was the initiation of 25 new members. In addition 15 applications for membership were received and considerable business was transacted. Worthy President David J. Hackett occupied the chair and present were visitors from Worcester, Fitchburg and Salem. It was voted to participate in the South End parade next Monday and all members are urged to get in line on that day. Interesting reports were submitted by various committees and it was announced that the dedication of the monument in St. Joseph's cemetery will take place Sunday, October 23.

## MR. CADY OF TYNGSBORO INJURED WHEN AUTO HITS WAGON ON BOULEVARD

A wagon owned and driven by Harry Cady of Tyngsboro was struck by an automobile on the Princeton boulevard last evening and as a result Mr. Cady was taken to the Lowell Corporation hospital for treatment, he having sustained severe cuts about the face. The automobile is owned and operated by Edgar Dixon of 101 Livingston avenue, who reported the accident to the police.

## HIT BY AUTOMOBILE

Maude Bentley of Westford street was slightly injured last evening when she was struck by an automobile at the corner of Central and Jackson streets. The accident occurred so it is claimed, when the woman stepped from the sidewalk into the path of the machine of John T. Lough, of 310 Pine street. The injured woman was treated at St. John's hospital.

He said he warmly favored a League of Nations but did not favor the covenant as now written. It was very evident he fully intended to leave his future action entirely free except as to the several clauses of the treaty to which he made known objection. When asked how such silence was to be interpreted in connection with the possible ratification of the articles to which he is openly opposed the senator replied: "That is a bridge which need not be crossed until I come to it." It became known today, however, that Senator Walsh has prepared a set of reservations covering the ground and which he will present in his own name if he finds the articles to which he is opposed are not satisfactorily met through the resolutions already proposed. He did not desire to make known in detail just what his own reservations would cover but they are pretty certain to include Shantung and equalization of votes and the rights of subject nations.

At the close of his speech Senator Walsh was very warmly congratulated. This was the maiden speech of the Massachusetts senator and at its close senators from both sides of the chamber crowded around him and gave him a tremendous ovation.

Senator Walsh said in part: "Mr. President, to defeat the Germans and to destroy their great military machine was not the chief motive which induced the United States to enter the battlefields of Europe at a time when the fortunes of the allies seemed darkest and almost hopeless."

"Are we keeping the faith with the American people? What did we promise the 4,000,000 American boys whom this government called into the military service of the country? To these men of the army and navy, and their fathers and mothers, yes, to all the people of this country, we have made two solemn promises, which in their importance, overshadow all other promises, objects, or points we set out to attain.

"Enslaved Peoples of Europe"

"We promised, first that we would not consider this war won until we had liberated from bondage and oppression the enslaved peoples of Europe. It is true, Mr. President, that the American people can justly claim that they have had a part in winning independence and freedom for some of such races in Europe.

"But we have not fully kept our promise. Indeed, our failure now casts a gloom over the hearts of certain liberty-loving peoples who still remain in oppression.

"I am irrevocably committed to the principle of a League of Nations. Had the conference at Versailles really carried out the principles our president had clearly and courageously proclaimed to the world during the war, no senator, I believe, would have dared to vote against a new and healthy method of settling international disputes and preventing future wars. It is the complete absence of the high-minded sentiments we proclaimed during the war that has provoked the great opposition to this covenant and crushed the hopes of progressive, forward-looking men throughout the world.

"If this league is founded upon the theory that war can best be averted by each nation guaranteeing to the other members of the league their territorial integrity, it will fail to serve the world's purposes. To surrender the principle of justice in the hope to obtain peace is to be forgetful of the fact that to barter justice is to sell the soul of the nations of the world.

"The Shantung provision of this treaty is indefensible. To consent to and advise the ratification of this provision in its present form would be, as I view it, an act of national dishonor.

"Mr. President, I will lend my influ-

A Home Treatment for Asthma  
Makes Breathing Easy

A Worcester, Mass., doctor has suggested the following simple, harmless and inexpensive home treatment for bronchial asthma, chronic bronchitis and coughs and colds which threaten to affect the lungs.  
At Lowell Pharmacy or any reliable druggist's get a bottle of Oxidaze (essential oil) tablets and slowly dissolve one tablet in mouth at regular intervals. Though harmless and pleasant they are so powerful in their action that even in stubborn cases relief often comes in just a few minutes.  
Many users who for years have been obliged to sit up at night, gasping for breath and unable to sleep report that they now take an Oxidaze tablet when going to bed and can then lie down and breathe easily and naturally and get a good night's restful sleep.  
Druggists everywhere are selling Oxidaze tablets on a positive guarantee to refund the full purchase price of the first package if it fails to give prompt relief in any case of bronchial coughs or asthma.—A.V.

one and cast my vote for every effort made to prevent the United States sinking such a compact burdened with so much national dishonor and national infamy. I can not subscribe to the casuistry, however plausible, that peace can be maintained by a provision which sanctions and legalizes the crime of Shantung, which has a place only in secret treaties and in the terrible diplomacy. It is an act of blood, land-grabbing, and a source of tyranny and future wars.

"Article 10 Reverses Tradition"

"The keynote of the doctrine incorporated in Article 10 of the covenant is an open and complete reversal of the traditions of this republic. It means, in my opinion, a departure from the major principle upon which America was founded and which the American people have long and tenaciously cherished. It means that our republic would in all probability be today a

copy of Great Britain had this League of Nations, with Article 10 inserted, existed previous to our Revolution.

"Who dares to place any limitations—political, military, or financial—upon the words 'advise upon means'? These words clearly compel America to either consult the council or to be in constant fear of advice or action by the council upon her right to extend hospitality, comfort and aid to that class of people the world over who have

looked to us for sympathy and support.

"In concluding for the present my analysis of Article 10, may I not fairly argue that it is capable of so many interpretations, vague and visionary, that as it stands it is pregnant with the germs of disputes, misunderstandings, and possible wars for the United States?

"The only solution, therefore, is to remove any possible doubt as to its application to the United States by a reservation specifically stating the position of our Government.

Rights of Subject Peoples

"In approaching the question of the effect of this covenant upon the rights of submerged peoples working independence, such as the people of Ireland, I wish to emphasize that I am not actuated by any feeling of animosity or racial antipathy. I breathe no hate. I seek no vengeance. I voice no retribution. I am an American. I was

born on soil made sacred by the blood of the heroes of the Revolution.

"Mr. President, before attempting to discuss this subject to which so many of my able associates in this chamber have repeatedly referred, I want to tell you, and I am confident I speak the uppermost conviction of the people of Irish blood in this country—that the more than 500,000 soldiers of Irish extraction who enlisted in this great war—that much as they yearn to see their kindred free, much as their hearts are torn by events in Ireland, by the harassing, dragging, and repression of the people of that sad little island, as citizens of this republic their first concern is for the safety, honor and preservation of this country, the land of their birth or adoption.

"Some wonder at the intensity of feeling on the part of the people in America of Irish blood to secure the application of the principle of self-determination to the land of their forefathers. What think you must be the feeling of disappointment and of sadness experienced by the hundreds of thousands of American soldier boys of Celtic blood justly proud of their work in liberating the enslaved peoples of Europe, when they hear a still voice in the depths of their heart saying, 'I have helped to bring independence and freedom to many enslaved peoples; I have helped to remove the shackles of political oppression from many races, but the race from which I have sprung is still left, the only English-speaking race in the world today in political subjection.

"Just what is the attitude of Americans of Celtic blood and their sympathizers in regard to this covenant? As I understand it, and as I have been fully informed, they are not opposed to a just League of Nations. Neither do they seek in any way to involve the United States of America in any controversy with Great Britain.

"In a word, they ask—and they have a right to ask—the United States sen-

ate not to ratify that part of this covenant which many sincerely believe puts an end once and for all time to America's ancient and historic attitude toward oppressed peoples.

"To accuse them of opposing this

# I TOLD YOU SO!

My advertisement of September 5th last, five weeks back, read like this:

TO MY CUSTOMERS—Buy your winter clothing as soon as possible—future conditions intolerable; prices unbelievable—cloth is selling per square foot at much higher prices than the land your house is built on—labor and linings each leading a separate dance.

TODAY, five weeks later, the above statement has come true, even worse than I predicted. The evidence is all around you; every clothing store window and every tailor's window shows I was right. Ready made clothes selling for \$35, \$40, \$50 and up to \$70. Tailored to order garments at anywhere from \$35 (if you can find 'em) to \$90, and yet I am continuing my famous offer of five weeks ago.

## Winter Suit or Overcoat

Made to Your Measure

# \$27.50

## ANY STYLE--REAL \$40 VALUE

I am stocked up with thousands of yards of woollens which I bought months ago when the woolen market dropped temporarily, easily worth 40 per cent. more than I paid for them. I could sell the entire lot to any woolen house at a fine profit. But I have been tailoring clothes in Massachusetts for 20 years—I am a tailor—not a speculator. I am going to give my customers the benefit of this enormous cash purchase.

P. S.—Come in and get samples; you may find a few of these patterns around town marked \$40, maybe more. This price will last only as long as a reasonable selection of the woollens holds out.

Signed,

MITCHELL

## MANIAC AT LARGE

## IN VERMONT WOODS

**BELVUDERE, VT., Oct. 10.**—A man hunt is in progress in the woods about here for John Cota, an insane lumberman, armed with rifle, revolver, hunting knife, ammunition and provided with food. He defies anybody to take him alive.

Cota is wanted on a charge of forging \$1000 worth of checks on the National Bank of Hyde Park. Monday afternoon policemen went to his shack to arrest him, but Cota refused to surrender and fired several shots at them who tried to arrest him. After a parley he said he would give himself up in the morning.

The policemen agreed and set a guard about the place, but when morning came the man had escaped. Cota has lived here six months. He is said to have spent several years in an insane asylum at Spokane, Wash., and it is now thought he has been seized with insanity again.

**BUILDING GRANULITHIC WALKS**  
The street department has commenced the building of granulithic sidewalks in response to several petitions. The city is doing the excavating work, while the walk itself is being laid by Contractor M. F. Connors. Work was begun today on the sidewalk in Lee street, adjacent to the Cherry & Webb Co., and within a few days the petitions of St. John's hospital for new walks in Stackpole, Bartlett and Fayette streets will be met. A new granulithic walk also will be laid in front of the Rogers Hall school in Rogers street.

**CARD OF THANKS**  
We, the undersigned, take this method of expressing publicly our sincere thanks to those who by their acts of kindness, expressions of sympathy and offerings of floral tributes and spiritual benedictions served to lighten the burden of our sorrow caused by the death of a beloved son and brother. Such evidence of true friendship we will ever cherish in loving remembrance. MR. ROBERT STEWART and Family. LEO GARVER.

## SUPERIOR COURT;

## CIVIL SESSION

A sealed verdict in the sum of \$41 was rendered this morning by the jury at the civil session of the superior court in the case of Dr. Edward G. Dewolf vs. Frank A. McAllister et al., all of Camden. The case went to trial yesterday and the ad damnum was for \$4,000. The plaintiff alleged that as a result of what he termed a "straw" lease issued by the owner of the house he occupied in Malden, Carrie E. Roberts to Frank A. McAllister, a Malden constable, he was ejected and evicted from his premises and alleged inconvenience and loss of business.

The next case to go to trial was that of the Middlesex Coal and Grain Co. of Bedford vs. George F. Dickie of Billerica, an action of contract by which the company is seeking to recover the sum of \$523.04 for merchandise alleged to have been sold to the defendant. Frank Goldman of this city appears for the company and John C. Cronin of Boston for the defendant.

**RACES MONDAY AT GOLDEN COVE PARK**  
If the weather clerk will graciously condescend to attend to the weather end of it and see that the day is bright and clear so that the track may be in good condition there will be some pretty nifty races at Golden Cove park Monday afternoon under the auspices of the Lowell Driving club. The program of events is not quite complete, but members and their friends are assured a good afternoon of racing. Several out-of-town horses have been entered and matched races are listed in which there will be great interest. The racing card hits fair to be one of the very best in the history of the club, and that's going some.

**American Freighter Disabled at Sea**  
BOSTON, Oct. 10.—Another steamer victim of the storm which raged over the North Atlantic for several days was disclosed today with the receipt of a fragmentary message saying that the American freighter Ammonoosuc was drifting with her engines disabled. The position of the steamer was not given but it was thought by naval officials who record that she was well out in the Atlantic.

**Rebel Peasants Seize Riesi**  
ROME, Oct. 10.—Reports from Sicily today state that the town of Riesi, in the sulphur mining district has been seized by rebellious peasants. Four thousand peasants, engaged in an attempt to take possession of land, clashed with troops sent against them, seven persons being killed and many wounded. The troops and the town authorities were compelled to retire.

**Japan Soon to Ratify Treaty**  
WASHINGTON, Oct. 10.—Japan is sending the largest delegation of any one of the nations which will be represented in the international labor conference to be held here Oct. 29. The party comprises more than 60. It was to sail today from Japan and is expected to arrive here two days before the conference meets. Its despatch is regarded as a certain indication of the purpose of the Japanese government to ratify the peace treaty almost immediately as that document contains the sole authority for appointment of the delegates and unless it is ratified they cannot be recognized as representing their country.

### Strike to Enforce Seniority Rule

ALTOONA, Pa., Oct. 10.—Virtually all the mechanics employed by the Pennsylvania railroad in its engine houses at Altoona, East Altoona and Hollidaysburg, were on strike today to enforce the seniority rule in promotions. While there has been no serious interruption to trains officials said it would be difficult to keep sufficient engines in service very long.

### KNIGHTS OF COLUMBUS INSTALL OFFICERS

The recently elected officers of Lowell council, No. 72 Knights of Columbus, were inducted into office at a regular meeting of the organization, which was held last evening in its quarters in Associate building. District Deputy John I. Donovan and suite of Lawrence presided over the installation and there was a large attendance to witness the impressive ceremony. At the close of the installation District Deputy Donovan spoke at length on the great work accomplished by the council during the war and complimented the retiring grand knight, Robert H. Thomas, for his successful administration of the council's affairs during the past three years. Mr. Thomas also addressed the council, thanking its members for the

devoted co-operation they gave him during his term of office and he urged all to give the same consideration to the new grand knight. Rev. D. J. Heffernan of St. Peter's church, chaplain of the council, also spoke in flattering terms and he dwelt at length on the observance of Columbus day next Monday and urged all the members of the council to attend the mass at St. Peter's church at 8 o'clock. The officers inducted into office were as follows: Grand knight, George F. Briggan; deputy grand knight, John E. Hart; chancellor, Hugh J. Molloy; financial secretary, Philip Breen; recording secretary, Patrick Nevin; warden, Thomas B. Delaney; treasurer, Thomas J. Fitz-

gerald; lecturer, Timothy F. Rohan; advocate, J. Henry Gilbride; trustees for three years, John F. Golden; inside guard, Thomas Tobin; outside guard, John Hayes.

## MORAN'S HOME TOWN PLANS BIG RECEPTION

FITCHBURG, Oct. 10.—Fitchburg fans are jubilant over the victory of Pat Moran and his Cincinnati club. No sooner had the final returns of yesterday's game been received than plans were started for a reception to Manager Moran, when he returns to his Fitchburg home for the winter. He is expected home early in November.

Never before has a world's series been followed with such keen interest by Fitchburg fans. Thousands lined the streets in front of the newspaper offices until the last put-out ended any change of a comeback by Chicago.

When it was apparent that Moran's men had captured the world's title they set up a cheer that could be heard many blocks away. In the eighth inning, when the Sox made a rally, stillness fell over the crowd that was only broken when the last man had gone out in that inning. Then the crowd gave way to louder cheers than ever before.

The rally of the Sox recalled memories of the ten-inning game when Chicago came from behind and won and the fans stayed in front of the newspaper offices until the last put-out ended any change of a comeback by Chicago.

From the first the fans have had confidence that Pat Moran would come through a winner and they have profited by their belief in a large way financially. Thousands of dollars were wagered on the series by the loyal Fitchburg supporters of Moran and they are big winners for many of them obtained odds. Moran began his baseball career on the sand lots of Fitchburg and many of his former playmates were among those who rooted for a victory.

A large delegation of Fitchburg fans attended the series. There was no happier man in Fitchburg last night than Thomas P. Moran, father of the Cincinnati manager. The defeat of Wednesday broke him up and he received the return yesterday eagerly.

"I knew he'd do it," was his only comment, when the game ended, and now he is waiting to greet his boy when he comes home. Col. George R. Wallace, who is chairman of the committee arranging for the home-coming reception, will call an early meeting to complete the details.

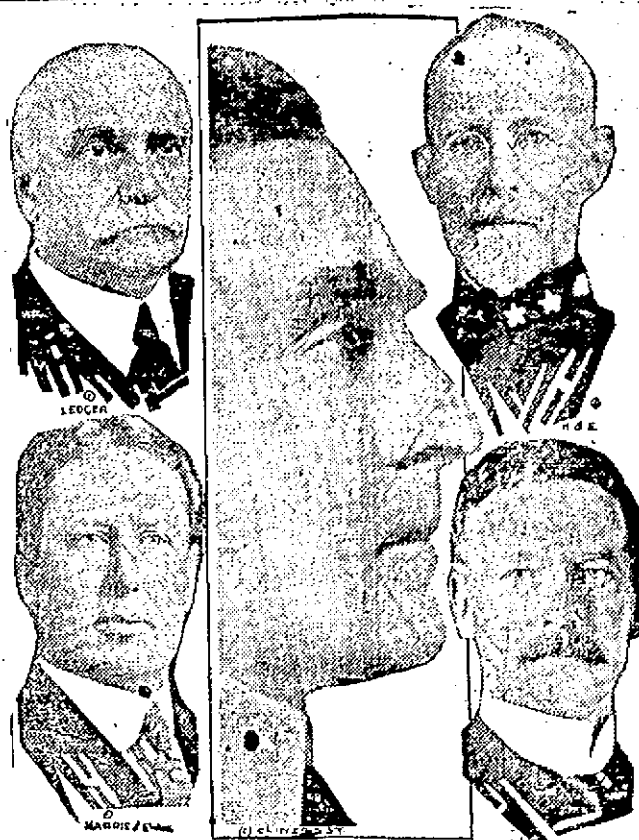

Moran will be met at the train and escorted to city hall where the fans will have a chance to greet him and later he will be a guest of honor at a banquet. A fund will be raised for a suitable gift from his home town folks.

Lower right, Dr. Geo. E. De Schweinitz of the University of Pennsylvania, a specialist in ophthalmology, who has been the president's oculist for many years.

### AMUSEMENT NOTES.

Below is what the press agents of the different theatres say of the current attractions and of others to come:

**H. P. KEITH'S THEATRE**  
"Shoes," headlined by Savoyne Whipple and Walter Huston, at the H. P. Keith theatre, this week, is proving one of the nearest comedy sketches of the entire season, thus far. It is original and specially well acted. Charles F. Semden, who is one of the standbys of vaudeville, is another performer who is giving a large measure of satisfaction, and Brennan and Rule, singers of their own songs, have turned out to be one of the surprises of the week. Then there are the Four Meyakos, who contort, sing and dance; Countess Verona, the cabaret play; Mr. Johnson, Baker & Johnson, hat throwers, and the Dunn Sisters, fun-makers.

### THE STRAND

We simply can't say too much in praise of the big triple bill at the Strand for the last three days of the week. Think of it, a "Rur Ruvus" the like of which has never been given in Lowell before. Then, Dara in her latest pleurization, and Tom Moore in one of his most delightful picture stories, and no advance in prices.

Next week—anniversary week—will have for its biggest feature Douglas Fairbank's latest million dollar picture success, "His Majesty, the American." There will be other big features, but this will be the biggest. The Strand is famous for introducing novelties. We have so many lined up that time nor space does not permit an enumeration of them at this time. Just keep a sharp lookout at the advertisements.

### THIRTY-ONE YEARS IN POLICE DEPARTMENT

Running out 31 years of continuous service in the Lowell police department, Capt. James Brosnan, Patrolman Horace W. Clement and Patrolman Lindsey E. Ingalls met at the home of Patrolman Ingalls, 109 Third street last evening to talk over their experiences and celebrate the event. All three were appointed by the late Mayor Charles D. Palmer and can point to unimpeachable records since becoming members of the city's "nest." Capt. Brosnan became a sergeant in 1895, and the following year was promoted to the rank of lieutenant. He became captain in 1914.

## Sen. Walsh Scores League

League merely for the purpose of humiliating or embarrassing England would be a grave injustice to the great rank and file of Americans of Celtic blood. It is, indeed, amazing to find intelligent men who, in discussing the Irish problem, allege that this element in America's population seeks to involve America in a war against Britain in order to bring about the freedom of Ireland. The man who makes such an accusation is grossly ignorant of the facts, or makes such contention in an effort on his part to justify opposition to their legitimate demands. It is adding insult to injury.

"Let us not deceive ourselves. Let no senator vote for this covenant and justify his vote upon the pretense that he is helping subject peoples by setting up a world tribunal where hearings can be had for the application of the principle of self-determination. No senator can point to any language that justifies the assertion that there can be a hearing given these people if the nation charged with oppression objects.

"I cannot subscribe to any provision in this covenant which will permit any government to have more votes or more influence in this league than the United States of America. The least that any American can accept is equal representation for our country with that of any other.

"I do not desire to deprive the self-governing dominions of Great Britain of representation in this assembly provided for in this covenant, but I do most strongly object to Great Britain, which includes England and its dominions, having six votes to our one vote.

"It has been claimed, the assembly is merely a 'debating society.' I would not, without a protest be willing to permit any government having six debaters to present its case to the one debater which the United States would have.

Throughout this whole covenant, like a weaver's thread, is the scarcely veiled purpose of Great Britain to dominate the world through this league. Notice even the clause providing that the British named secretary general shall recommend his successor, in perpetuity.

It has even been suggested that the British secretary general already named in the covenant may by will or codicil name his successor.

"I have the democratic party. I have served it for 25 years. It has honored me beyond my humble deserts. But I am an American first, and I am not unmindful of the fact that I have taken a solemn oath to preserve the constitution of my country. If choice must be made between a League of Nations and the constitution of the United States, I am first and last with the constitution.

"In so far as I believe the text of the treaty and covenant before us conflicts with these principles, I have raised and shall continue to raise, my voice of protest. I may be misjudged, my motives questioned, as has been the lot of many members of the senate who have taken sides on this question; but whatever may be the judgment of my fellow men, I at least shall have the satisfaction of knowing that by protesting against the injustice of the Shantung provision and the dangers lurking in article 10 for America and the world I have not consciously done anything to make it difficult for any American or any citizen of the world to say as Kossuth, when he turned to the American flag in Faneuil hall, 'A flag without a stain; a country without a crime'."

RICHARDS.

## Marshal Quells Applause

WASHINGTON, Oct. 10.—A quick, barking command from Vice President Marshall at the conclusion late yesterday of a dramatic appeal by Senator Walsh, democrat, of Massachusetts for a League of Nations that would do justice to oppressed nations of the world, and for reservations to the pending league covenant, broke up in its very beginning a demonstration that threatened for a moment to sweep through the senate galleries.

For more than an hour senators and visitors had listened intently to the address, and as Senator Walsh laid down the last page of his manuscript and with arms raised high pleaded against approval of the Shantung settlement and the dangers lurking in article 10 of the league covenant, a

faint ripple of applause was instantly followed by a more pronounced outburst.

But it was as quickly subdued. The strident voice of the vice president was heard above the rising din.

"Remove from the galleries those who have violated the rules of the senate," the vice president shouted, at which gallery guards, apparently bewildered, endeavored to suppress the growling desire of many persons to make known their approval of the

## Force Roll-call on Adjournment

In the confusion, which spread to the floor, the crowds began to move away and a few offenders whose conduct was noted by the guards were hustled out. The adjournment motion to adjourn was held up after Republican leader Lodge had made it, the vice president explaining that he wanted to find out first what the senate was going to do about the violation of its standing rule against applause.

Then quite unexpectedly when Senator Lodge a moment later renewed his motion, Senator Hitchcock of Nebraska, leading the democratic fight for treaty ratification, jumped to his feet with a demand for the ayes and nays.

There had been no intimation that the democrats were preparing to put the majority party on record in the matter of fixing a time for daily adjournment, and the demand added to the general excitement. The bells called senators to the chamber and on the count the motion prevailed 31 to 35. It followed party lines, except that Senator Reed, democrat, of Missouri, back from a speaking trip against the

treaty in the west, voted with the republicans.

## TO FIND JOBS FOR HUB POLICE STRIKERS

BOSTON, Oct. 10.—The directors of the Boston chamber of commerce last night announced the organization of a committee of members, with Bernard J. Rothwell, a former president of the chamber, as chairman, for the purpose of assisting former members of the Boston police department in securing positions in civil life.

The directors say that the chamber believes as strongly as ever that the policemen should not be taken back on the force, but they are of the opinion that many of the policemen were misled. Because of this and because they feel that the men possess qualities which can be of service to the community they will assist the men in securing such positions as they are qualified to fill.

### Statement By Directors

The statement of the directors follows:

"With the approval of the governor, the mayor and the police commissioner, the directors of the Boston chamber of commerce have appointed a special committee to assist the former members of the Boston police in obtaining positions in civil life.

"In order that the motives leading to the appointment of this committee may not be misunderstood, the directors of the chamber feel that they should make a definite statement in connection with this action. The directors stand squarely upon the principles enunciated by the different public authorities and believe that the policemen should not be reinstated. It is evident, however, that many of the police were misled and did not have a clear idea of their duty to the public, and that their action in leaving their posts came, at least in part, for these reasons. In other respects they are men whose qualities can be of service to the community.

The irony of the situation is being emphasized every day when police officials are being asked to furnish recommendations to former policemen who joined the union and went out with the strikers. They are seeking employment from corporations, individuals and firms.

Announcement was made by police headquarters officials yesterday that "reinstated" does not correctly describe the status of the 25 former members of the Boston Police union who have been reassigned to duty. It was also admitted that 12 additional former members of the union have been assigned to duty at various other stations and that five other former members of the union are still under suspension from duty pending the hearing of charges against them. As soon as the charges are heard these men also will likely be assigned to duty.

Not all of the 43 men have been under suspension. Some were absent on vacation or on sick leave and none of them went out on strike with the main body of patrolmen on the night of Sept. 3. It is maintained at police headquarters that the men who went out on strike and those who were legally discharged cannot be reinstated and that their cases have been finally disposed of.

It is claimed that the men who have been assigned to duty and those who will be within the next few days have all along been considered as members of the department by their superiors, although they were under a cloud, which resulted in charges being preferred against them. All these are admitting their guilt and are being punished by the infliction of punishment duty and put to work.

### Many New Men Sworn In

A large number of new men were sworn in yesterday by Capt. Thomas Ryan, chief clerk. These are in addition to 65 new men who went on the streets in civilian clothes with police badges Wednesday night. Officials at police headquarters are pleased at the showing now being made and declare they will be able to reorganize the force completely within a short time.

The subject of uniforms is not being discussed. It was believed that considerable difficulty would be experienced in having them made owing to the declaration of union tailors that they would have nothing to do with them. Officials claim they are being made, but will not say where.

The grand total of claims against the city for larcenies and damages to private property in the disorders of the first nights of the police strike is now \$92,000, the claims pouring in the last two days aggregating \$29,000.

John W. Connolly, a Boston lawyer, makes a claim for personal injury, but specifies no amount. He claims that he was wounded by a bullet fired by a guardsman's rifle while in Scollay square on the evening of Sept. 10.

Six hundred Boston students lost a chance to play "the fireman to the rescue" when Boston firemen failed to strike along with the police. The students had volunteered to fill their places and learned the operation of the fire apparatus.

### Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then to destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails—Adv.

## BATTERY F ASSOCIATES HOLD MEETING

An unusually interesting meeting of Battery F Associates was held last evening at the Community Service club. It was the first smoker and entertainment since the unit's return from France and present as guests were Mayor Perry D. Thompson, Otto Hockmeyer and Benj. S. Pouzner.

It was previously expected that Col. John F. Herbert of Worcester, under whom the battery fought with the 102d Field Artillery, would be present, but at the last moment he was unable to make the trip. Members of the battery were present from Lawrence and Andover.

The speakers introduced by Fred J. Gleason, president of the association, included Mayor Thompson, Mr. Hockmeyer, Mr. Pouzner and Capt. W. C. MacBrayne. Tommy Doyle and Young Taylor provided plenty of entertainment with a four-round boxing exhibition and there were songs by Warren Kane, Daniel Gray and Dick Hadley. Refreshments were served.

The committee in charge were Fred Gleason, chairman; Daniel Gray, Geo. Kaneuf, George Collins of Andover and Capt. MacBrayne.

## BABSON SAYS STRIKES ARE LIKE BOILS

BY ROGER W. BABSON,  
Famous Business Expert and Statistician.

Strikes are like boils on our necks. They may be necessary, but we should do everything possible to avoid them.

When I had boils my mother used to say it was the badness coming out of me. Modern surgery, however, says that it is due to a little germ fastening itself onto the back of our neck. This little germ digs a cellar in our skin, starts in housekeeping and raises a family of a million children.

Whatever the cause, we know that boils don't come when we are in good healthy condition. We get them only when the conditions are bad. Although our mother's idea of the badness coming out of us may not be correct, yet it is true that if there were no badness in us, the little germs could not fasten themselves onto our body and exist. Germs live only on the poisonous secretions of the body. They exist on dirt, disease and trouble. The healthy person—strong and vigorous, with good clean skin—has nothing to fear from germs or boils.

Strikes are both as necessary and as unnecessary as germs. When conditions are bad, strikes always have come and always will come. Strikes

## Features of The Sunday Supplement Tomorrow

### Why Do Men Quit?

Professor Ira Brown Cross, economist of the University of California and leader in the new labor-capital co-operative movement in Western America, writes a series of interesting articles for "The Sun." He discusses the question of men quitting their jobs and says the "quitting mania" is a United States social disease that must be cured and the way to cure it, he says, is to make jobs worth staying with.

### Jail Hotel for "Blondes"

Free meals and beds in San Francisco prison halls many criminals. Police Lieutenant Thomas Tobin, who originated the idea, says he is a human-nature specialist, not a "reformer." He doesn't believe in waiting for the lonesome, hungry man or woman to go "wrong." Instead, he offers them a sanctuary in the city prison and a helping hand toward an honest job.

### "Better Babies" Movement

Dr. Lenna L. Meanes, prominent in the activities of the international conference of women physicians now being held in New York, declares maternity clinics constitute the first step toward having hundred per cent American babies. But she does allow that before the "100 per cent babies" can be a national achievement, the "100 per cent mother" must be produced.

### "Common Honesty" Cure

Roger Babson, American economist who has devoted a lifetime to the study of business, labor and finance, says common honesty is what the United States needs to solve the nation's economic problems. The fact that the cost of living is much higher today than it was 10 years ago means that something is lacking today which we had ten years ago. That something must be revived and must again be demanded by all. That something is "common honesty."

### Had Enough For Kibler

Edward M. Thiercy, representative of the N.E.A. with the Smithsonian African expedition, says the town of St. Vincent, a fast-smelling, sun-baked, hot, dry, island, barren, rocky mountainous island, furnishes the answer for the international problem of punishing the offender. Thiercy says that where water is very scarce, and natives live on dried fish, could be converted into a prison that would make the idea of Americanization a paradise in comparison.

### Lady Lookout

In her letter this week, this writer describes the feeling of profound reverence inspired by the presence of Cardinal Merle and the signs of great spiritual power conveyed by his tall, thin, dark, and flashing blue eyes, and deals with the tyranny of style in men's wear and women's shoes and an unusual has-a-veer to say on the suffrage movement.

### Quarter Century Ago

Old Timer in his quarter century talk tells of Jim Corbett as an actor at the opera house, Lord Hawke, the famous cricketer at the Bryant oval, how the Matthews observed "Father Mathew" day by a temperance lecture the night before, and a side parade on October 12, the opening of the North Chelmsford Truist school, and the wedding of A. J. Cunnock, the famous Harvard football player.

### Washington Letter

Richards this week has a breezy letter dealing with the prohibition of action on the treaty and the firm stand of the "nest" voters on both sides. Also, a sketch of Senator Walsh's speech and his popularity as a speaker—the chapter for reconstruction precedes before the member and other matters of interest in Washington.

# Belt or no belt

You may not care for belt-style in your suit; you may want half belt type or the belt all-round; you may want to wear it with belt; or take off the belt some times; you may want a snug fitting waist, or one that drapes more. All these points are covered in the very smart new models that HART SCHAFFNER & MARX have made for us. There's nothing to equal these very stylish suits; single and double breasted, with lots of new features in lapels, pockets, sleeves and shoulder setting; and many new weaves and patterns.

can never be prevented by passing laws. Strikes can be prevented only by bringing about such good conditions as will afford no object in striking.

We must not fool ourselves by thinking that we have won anything from striking, any more than we improve our health by having boils. All strikes result in higher prices. Strikes may give us more in our pay envelopes at the end of the week, but when we come to spend this money in the stores we do not get any more food, clothing or shelter. Yes, strikes are like boils. They may be necessary, but they do no one any good, excepting the doctors and lawyers.

I believe it is up to the employer to do something to make the wage-worker more interested in his job. The present system of manufacturing, of distribution, and of dividing the profits is enough to kill the ambition of any man, but the fact nevertheless remains that in the end we get ahead only by producing more. Every strike increases the cost of living for everybody.

During the past few years while wages have been climbing for the average worker, the salaried man has not got ahead. The wages of the school teacher, clerk and office employee have not been increased so much as have the wages of common labor. These classes have not yet struck. Once in a while I hear them complain and say they ought to strike like the rest of the people. Just let me drive a nail here for you to hang your hat on: In the next business depression the

wages of these salaried people will not tumble down like the wages of the common laborer.

These salaried people who are now complaining will then be on easy street, while the smart Aleck who has forced his employer up to the last cent will be out of a job.

The mills of God grind slowly, but exceedingly fine. Two and two always did make four and always will.

The Red Cross was founded in Geneva, Switzerland, in 1864. Its emblem was devised by reversing the Swiss colors—a white cross on a red ground.

If Poslam holds any comfort, any satisfaction for you in leaving the money to relieve and eradicate eczema or any stubborn skin trouble, let it bring you these benefits at once. They will seem ever so welcome if you have suffered long. There is no risk. Poslam cannot harm. Its work is known to be highly successful. Soothes, stops itching, brings quick improvement. A little does much because it is highly concentrated. Clears red, inflamed, comely skin overnight. For free sample write to Emergency Laboratories, 243 West 47th St., New York City. Free your skin to become clearer, brighter, healthier by use of Poslam soap, medicated with Poslam.—Adv.

## THE HIGH COST OF MARRYING

BY RICHARD SPILLANE

America's Foremost Writer on Finance, Business and Economics, and Special Contributor to the Newspaper Enterprise Association.

Anyone contemplating matrimony had better get busy before the prices for knot-tying are advanced.

The clergymen of Delaware have been discussing informally the seriousness of the situation. The Rev. George White Dawson, pastor of Ashbury M. E. church of Wilmington, seems to be the spokesman. What he says is beyond contradiction. He points out that labor, skilled and unskilled, has received large increases in pay to meet the ascending costs of life.

Physicians have raised their rates. Everybody has been cared for, but the salaried persons and the preachers have not. Now there are three great events for man in life. One is getting married, another is becoming the first time the father of a boy and the third is the first trip in an airship. What of these is most important, depends on the viewpoint.

Most clergymen have pay little larger than that of messenger boys, yet they are expected to be the spiritual shepherd of flocks of people. They usually have to place a good deal of dependence on their fees received from funeral and marriage service. There never has been a union scale established. Possibly Mr. Gompers never thought of organizing the pulpsters.

Now, however, clergymen say they must have more income or they cannot make both ends meet. They show that they receive even less than teachers and it was supposed teachers were the lowest paid of the workers today.

It is wrong, the Delaware clergymen say, to leave the amount of the marriage fee to the disposition of the bridegroom. Not infrequently the newly married man gives only a "Thank-you" to the minister and sometimes not that. There should, it is urged, be a minimum rate and an effort will be made to establish it. At the same time it is confessed by the clergymen that their fees have been increased on an average in the last

## How to Remove Tobacco Stain from the Teeth

A stiff scrubbing brush and some gritty powder will scour anything—but also ruin the best hardwood floor. It is so with some tooth pastes. They will clean, but in the process will wear off the enamel of the teeth!

Mr. William Kuebler of 1309 Arch Street, Philadelphia, considers himself a heavy smoker. His dentist told him: "Albodon Dental Cream was the best preparation he knew of. Mr. Kuebler now says it is the only one that will keep his teeth free from tobacco stain and tartar, and do it without injury."

Let other heavy smokers try it! Many important dentists use Albodon exclusively at the chair to clean their patients' teeth. It is appropriate and safe for women and children. A tube of this fine cream lasting five weeks retails at 25c.—Adv.

## FOR SLEEPLESSNESS TRY THESE CURES

Just before retiring take a warm bath, follow with deep breathing exercises, and then drink, very slowly, cup of hot cocoa, eating a cracker with it.

Sometimes the above treatment aided by using a towel wrung out cold water and applied to the back of the neck, with a dry towel laid over it.

One sufferer from insomnia cures by lying in bed and fanning his face with a palm leaf fan. The regular motion, the movement of the air, and the nearness induced by the action quickly produces sleep.

A complete outfit costs but little and any reliable druggist and Hyomel is guaranteed to banish catarrh, coughs, colds, sore throat and bronchitis or money back. A Hyomel inhaler lasts a lifetime and extra bottles of Hyomel can be obtained from druggists for a few cents.—Adv.

## COMMUNITY SERVICE CLUB FOR GIRLS

An informal evening of dancing, games, corrective exercises and committee meetings was enjoyed last night at the Community Service Club for Girls. The earlier part of the evening was given to gymnastics under the direction of Miss Cronin and a meeting of those interested in dramatics under Miss Bailey.

The members are making preparations for a hare and hound race next Saturday and a party on Halloween eve. Miss Beattie, local organizer, has gone to Radcliffe for the week-end to witness the play "Peg o' My Heart" being given by the fiders club of the college, whose president is Miss Louise Johnson of Lowell and assistant recreational director at the club during the summer.

## ON THE ROAD TO RUIN

Another British Loan to  
Replace Nation's Floating  
Debt Forecast

LONDON, Oct. 10.—Forecasting another British loan to replace the nation's floating debt, the financial editor of the Mail declares it is the opinion of business men that Great Britain is "still travelling" the road to ruin and drifting on without evidence of real reform in the government's wasteful extravagance.

Notwithstanding warnings from Austen Chamberlain, chancellor of the exchequer, and others relative to the danger of the situation, national expenditures, the writer points out, during July, August and September actually exceeded those of the previous quarter, and the government was continually forced to borrow money. He cites an instance in which the government was obliged to raise 30,000,000 pounds by an overdraft on the Bank of England last week to meet interest on the war debt and pay off exchequer bonds.

The writer asks whether the government intends to follow the same method in repaying 200,000,000 pounds more of exchequer bonds falling due in the next eight months, and urges greater economy to enable the revenue to cover expenditures.

## BETTERS TO GET \$4300 SEIZED IN RAID

MALDEN, Oct. 10.—The \$4300 seized in the raid on an alleged betting pool by Watch and Ward society agents and the Medford police at the Harborside race meeting at Combination park, yesterday, will be turned back to the bettors, according to a plan arranged in the district court today. Counsel for the prosecution and for the six alleged bookmakers who were arrested conferred with the court after the prisoners had entered pleas of not guilty on the gambling charges and it was agreed that there should be no prosecution of the bettors although this would be possible under the law.

Chief of Police Walsh of Medford will receive all applications from bettors for the return of their wagers, and when these have been fully checked up, the bets will be paid, or if the total of bets exceeds the cash in hand, a pro rata division will be made.

The court announced after the conference that on Oct. 21, the day set for the proceedings, he would find the defendants guilty.

## PRES. WILSON CONTINUES TO IMPROVE

WASHINGTON, Oct. 10.—President Wilson had another restful night and his physicians are satisfied with the nourishment he is taking.

The following bulletin was issued today:

"White House, Oct. 10, 11.30 a. m.

"The president had another restful night. His appetite has continued to improve and he is now taking as much food and of great variety as we desire.

"GRAYSON,  
"HUFFIN,  
"STITT."

Despite the progress the president is making toward complete recovery the physicians will insist on a long period of absolute rest and quiet. Dr. Grayson said it would not be safe to do other than follow this course of treatment.

Dr. Francis X. Dercum, Philadelphia neurologist, is expected to see the president tomorrow and Dr. Grayson said he intended to have Dr. Dercum come from Philadelphia about once a week until the president had recovered entirely.

A talking machine has been placed in the president's room and he is entertained at intervals with music. Mrs. Wilson also continues to read light prose and poetry to him.

## LONG MURDER TRIAL

Witnesses Tell of the Finding of Body of Victim at Barre, Vt.

MONTPELIER, Vt., Oct. 10.—Witnesses told in Washington county court today of the finding of the body of Mrs. Lucinda C. Broadwell in the Wheelock garden in Barre on the morning of May 4, 1919, the evidence being the first presented in the case against George A. Long who is charged with murdering the woman by strangulation.

Harold Jackson, aged 14, was the first witness. He testified that he was

taking a Sunday morning stroll and

passed along a path bordering the garden when he discovered the nude body of the woman. He called Officer A. C. Curtis of the Barre police force,

who corroborated much of Jackson's testimony as to the position of the body face downward with the clothing nearby and the corsets under the body.

Cross-examination of these witnesses tended to indicate that the sharp divergence between the state and the defense will be as to the direction from which the body was brought to the garden. The undertaker, the photographer and the physicians who held an autopsy on the body are expected to be the next witnesses called by the state.

Long, the accused, sat apparently undisturbed throughout the introduction of the testimony, showing no more interest than did the spectators, the majority of whom were women.

## PATRICK J. McMANMON SEES EARLY SOLUTION OF FUME PROBLEM

Patrick J. McManmon, one of the oldest and most respected residents of Lowell, died this morning at his home, 57 Second avenue. His age was 73 years.

Mr. McManmon was born in County Mayo, Ireland, and came to America in 1852. Before coming to Lowell he had taken a leading part in the organizing of the Irish Land League under the leadership of Charles Stewart Parnell. One of the first meetings of Irish farmers that Parnell addressed in the west of Ireland took place on Mr. McManmon's farm. On that occasion he entertained Mr. Parnell, Mr. Dillon and Mr. Davitt at his home and it was because of his activity in behalf of the Land League movement and his efforts to improve the conditions of the poorer tenants of his neighborhood that he was compelled to give up his farm and come to America—one of the first victims of the Land League movement.

He came directly to this city, bringing with him his wife and ten children—seven sons and three daughters. Shortly after arriving in Lowell he purchased the present home in Pawtucketville, where he and his family have since resided.

Mr. McManmon was a real type of the old Irish gentleman, a man of high ideals and sterling principles and for many years a familiar figure at St. Patrick's church, where he was a faithful attendant. He was highly esteemed throughout the city by all who knew him, an interesting talker and well informed, especially on Irish affairs. Since the death of his wife more than 20 years ago, his daughter Catherine has kept house for him. The sons, all well known here, in the order of age are: James, the florist and for years town treasurer of Braintree; Patrick, electrical engineer and inspector of wires for the city of New York; John, ex-senator and member of the Lowell fire department; Rev. Thomas, assistant pastor of St. Margaret's parish, Dorchester; Frank, of New York; Peter, sergeant in the Lowell police department; Michael, also of New York. The daughters are Sister Cornelia Maria of Notre Dame, Peabody; Catherine, and Mrs. Joseph T. O'Donoghue of Boston.

Deceased had worked some years ago for the park department, but for the past few years had been rather feeble although his mental faculties were quite clear.

### CARD. MERCIER THANKS AMERICANS FOR MOVEMENT TO BUILD LIBRARY IN LOUVAIN

## AGREEMENT BETWEEN U. S. AND FRANCE

PARIS, Oct. 10.—The chamber of deputies today adopted the bill ratifying the agreement between the United States and France for the sale of France of American army supplies left in France.

The purchase price agreed upon for the railway equipment, telephone lines, automobiles and other supplies of the American Expeditionary Force was \$400,000,000.

### Shots Fired

Continued

Senators Phipps, McKellar and Sterling.

An automobile trip was made to points along the Monongahela river. The first stop was at the Homestead a subsidiary of the U. S. Steel Corporation. Just after Senators Kenyon and McKellar went in the Eighth avenue gate of the plant, two shots were fired by men said to be strikers, in the street. The senators, it was said, knew nothing of the incident.

It is the intention of the committee to visit city and borough authorities in the county, to go into plants and to examine any person on the spot where they feel they can get any worth while information. Two stenographers accompanied the party. The entire day was given over to the trip. Tomorrow the committee will sit in the federal building here and take testimony.

There was a fight today in a boarding house in the foreign section at Clairton in which an Italian was wounded by a bullet, several were cut and a number of others were bruised. State and local police quelled the trouble and arrested three men.

## RESTORES VITALITY

Gives Strength to the Nervously Weak and Run-Down.

Peptiron is both medicine and food for the blood and nerves. It is in full accord with advanced science as to the proper treatment of anemic and neurasthenic conditions, in which the need of more and better nourishment is so apparent. It combines iron and manganese with nux, celery, pepsin and other tonics and digestives. It supplies the deficiency of red blood corpuscles in anemia, repairs the waste of nerve tissue in nervousness, gives color and stamina, and restores vitality.

## TRY TO END STRIKE OF LONGSHOREMEN

NEW YORK, Oct. 10.—Again in control, at least partially, of the more than 30,000 men who struck without sanction of their national organization, officials of the International Longshoremen's union today tried to settle the strike which has virtually paralyzed New York harbor.

A meeting of strikers voted to place their case in the hands of the officials. The leaders, however, were unable to induce the strikers to return to work pending negotiations, and the inactivity at the piers which has resulted in a great congestion of transatlantic freight and the placing of an embargo on all such freight consigned to New York prevailed again today.

agreement. Other of the principles dealt with conditions and hours of work, wages and the right to associate and it was declared that every association, whether of employees or employers "must be equally subject to public authority and legally answerable for its own conduct or that of its agents."

Proposals of all three groups in the conference—capital, labor and the public—have now been presented and the committee of 15 to which all matters are first referred under the conference rules will now be able to begin work.

The 12 principles as enunciated by the capital group follow:

Production—there should be no intentional restriction of productive effort or output by either the employer or the employee to create an artificial scarcity of the product, or of labor in order to increase prices or wages.

The establishment as a productive unit—the establishment rather than the industry as a whole or any branch of it, should, as far as practicable, be considered as the unit of production and of mutual interest on the part of the employer and employee. Each establishment should develop contact and full opportunity for interchange of views between management and men, through individual or collective dealings or a combination of both.

Conditions of work—It is the duty of management to make certain that the conditions under which work is carried on are as safe and as satisfactory to the workers as the nature of the business reasonably permits. Every effort should be made to maintain steady employment of the workers both on their account and to increase efficiency.

Wages—The worker should receive a wage sufficient to maintain him and his family at a standard of living that should be satisfactory to a right-minded man in view of the prevailing cost of living. Women doing work equal with that of men under the same conditions should receive the same rates of pay and be accorded the same opportunities for training and advancement.

Hours of work—The standard of the work schedule should be the week varying as the peculiar requirements of individual industries may demand. Overtime should, as far as possible be avoided, and one day of rest in seven should be provided.

Settlement of disputes—Each establishment should provide adequate means for the discussion of all questions and the just and prompt settlement of all disputes, but there should be no improper limitation or impairment of the exercise by management of its essential function of judgment and direction.

Right to associate—The association of men, whether of employers, employees or others, for collective action or dealing confers no authority and involves no right of compulsion over those who do not desire to act or deal with them as an association. Arbitrary use of such collective power to coerce or control others without their consent is an infringement of personal liberty and a menace to the institutions of a free people.

Responsibility of associations—Every association, whether of employers or employees, must be equally subject to public authority and legally answerable for its own conduct or that of its agents.

Freedom of contract—With the right to associate recognized, the fundamental principle of individual freedom demands that every person must be free to engage in any lawful occupation or enter into any lawful contract as an employer or an employee, and be secure in the continuity and reward of his effort.

The open shop—The principles of individual liberty and freedom of contract upon which our institutions are fundamentally based require that there should be no interference with the open shop. While fair argument and persuasion are permissible coercive methods aimed at turning the open shop into a closed union shop or closed non-union shop should not be tolerated. No employer should be re-

quired to deal with men or groups of men who are not his employees or chosen by and from among them.

The right to strike or lockout—in the statement of the principle that should govern as to the right to strike or lockout, a sharp distinction should be drawn between the employment relations in the field (a) of the private industry (b) of the public utility service and (c) of government employment, federal, state or municipal. In private industry the strike or the lock-

out is to be deplored; but the right to strike or lockout should not be denied as an ultimate resort after all possible means of adjustment have been exhausted. Both employers and employees should recognize the seriousness of such action and should be held to a high responsibility for the same. The sympathetic strike is indefensible, anti-social and immoral. The same may be said of the blacklist, the boycott and also of the sympathetic lock-

out. In public utility service the public interest and welfare must be the paramount and controlling consideration. The state should, therefore, impose such regulations as will assure continuous operation, at the same time providing adequate means for the prompt hearing and adjustment of complaints and disputes. A strike of government employees is an attempt to prevent the operation of government until the demands of such employees are granted and cannot be tolerated. The right of government employees to

be heard and to secure just redress should be amply safeguarded. Training—Practical plans should be inaugurated in industry and outside it for the training and upgrading of industrial workers, their proper placement in industry, the adoption of adaptation of apprenticeship system, the extension of vocational education and such other adjustments of our educational system to the needs of industry as will prepare the worker to more effectively and profitably serve to society and to himself.

### South End Celebration

### Progress in Air Derby

and the celebration will get a splendid running start this evening. The program which commences at 5 o'clock follows:

Opening remarks, Charles Dillon; remarks, Mayor Perry D. Thompson; "Welcome Home," Col. J. A. Herbert of Worcester; Remarks, Hon. Richard H. Long; "One of the boys," John J. Gilbride; remarks, Charles H. Burns. Band concert and songs by the Honey Boy quartet.

Presiding officer, William H. Sullivan.

While the opening festivities promise to be one of the big features of the four-day celebration, nevertheless, this evening program will be only the start, and tomorrow, Sunday and Columbus day will find the event growing in magnitude and brilliancy until it culminates with the parade Monday morning. The committee which has worked faithfully for several weeks in preparation of the celebration had had a mass of detail to discuss and classify, but at the close of last night's meeting felt sure that nothing has been overlooked.

Tomorrow will be a day of sport and recreation, with games and running events for the children at the Chambers street playground in the morning, and more athletic contests for men on the South common in the afternoon. The Coast Artillery band and the Italian Roma band will play on the common in the afternoon. There will be general dancing in Hoser's square tomorrow evening to band music and a dance also will be held in Associate hall.

On Sunday members of the various clubs and organizations within the district will attend their respective churches and in the evening another band concert will be given in Davis square.

Of course, the parade far overshadows every other feature planned for Monday, Columbus day. Service men of all branches of the army and navy will be in line and civic and fraternal organizations will march in separate divisions. Mayor Perry D. Thompson and other members of the city government will participate as well as Congressman John Jacob Rogers, General Gardner W. Pearson, state representatives and the city clergy.

On Monday afternoon more sports will be on tap. A road race from Lawrence to Lowell run under the auspices of the Red Wing club will have its finish on the South common and there also will be other running races from a mile to five miles. All athletic events on Saturday will be run off under the direction of the sport committee, John H. Condon, chairman. Monday noon, or immediately after the end of the parade, all the clubs in the district will hold open house and serve luncheon to service men and invited guests.

### VOTE \$15,000,000 FOR ARMY AIRCRAFT

WASHINGTON, Oct. 10.—The senate military committee voted unanimously today to recommend an additional appropriation of \$15,000,000 for army aircraft construction in order that plans of the air service to establish routes to Panama, Alaska and even to Asia may be carried out.

### JACOB JONES

### Further Tests of New Torpedo Boat Destroyer

ROCKLAND, Me., Oct. 10.—With all other trials successfully ended and being as the fastest ship of her class the New York Shipbuilding corporation has produced, the torpedo boat destroyer Jacob Jones left today on a four hour run at 25 knot speed as a further test of fuel economy. After ending the members of the trial board in Boston, it was the intention to proceed to the builders' yard at Camden, N. J.

Mincola from the Pacific coast for the honor of winning the first half of the race.

Lieut. Maynard arrived at Cheyenne, Wyo., but broke the radiator of his plane in landing and was not able to leave for Wolcott, according to schedule. He expected to be ready to resume his dash westward this afternoon.

Captain Smith, leader of the group of aviators headed eastward, was making excellent progress according to the latest reports, and expected to reach Cleveland or Buffalo before dark.

"Flying Parson" Has Big Lead  
CHICAGO, Oct. 10.—Hundreds of miles ahead of other west bound flyers in the transcontinental race, Lieut. B. W. Maynard, the "flying parson" was ready today to resume his flight to the Pacific from Cheyenne, Wyo., his overnight stop.

Captain Lowell H. Smith, well ahead of the contingent that started from San Francisco, reached the Omaha, Neb., control station after a hard battle with three mountain snow storms and expected today to add many miles to his total of 1460 down in two days.

With the exception of two machines, all those in the race were accounted for early today at points widely separated behind Lieut. Maynard and Captain Smith. The machines driven by Second Lieuts. Hall and Queens, who started from the west, it was feared, were lost in mountain snow storms. While a few planes were put out of the race yesterday, there were no fatalities as on the first day when three flyers lost their lives through accident.

The prospects were for bad weather over much of the course today.

Lieut. Maynard's flight on the first day of the race was the first between New York and Chicago between dawn and sunset, and, at his average rate of speed he planned to be in San Francisco tonight. Captain Smith this morning apparently was about to complete the first San Francisco-Chicago air flight and a gold medal to be awarded by the Hamilton club awaited his performing that feat.

Of the 47 machines that started on the race from Mincola and the 15 that left San Francisco, six apparently were forced out of competition yesterday. In only one accident, however, was a pilot or passenger seriously hurt. Pilot Lieut. E. V. Wales, plane No. 63, from San Francisco, was badly hurt when his machine crashed on Elk mountain at Ober pass, Wyo.

were enthusiastically applauded.

Particularly well done was a scene from "A Tale of Two Cities," declaimed by Helen Quinn, Helen Harrison, Jessie Cohen and Margaret Doherty. A prologue, written by Raymond Crowley, was splendidly delivered by Alder Bourgeois. The four girls, each of whom assumed about one-fourth of the scene, had been carefully coached by Miss Mary C. Joyce and other teachers were crowned with complete success.

Frederick N. Woodward, acting headmaster, then introduced Mr. Walsh, who spoke at some length on the campaign of thrift being vigorously pushed by the government. He urged deep consideration before giving in to the desire to indulge in too many luxuries and treated the question from the standpoint of national necessity. Supt. Molloy, dressed in the uniform of the state guard, appeared as any well set-up soldier should. Since the late Cyrus W. Irish instituted an observance of Columbus day, Mr. Molloy has been the speaker on each subsequent occasion and he mentioned this fact in opening his brief address. He said as superintendent of schools he felt some embarrassment serving in khaki in the streets of Boston, but even more as he stood before the pupils of the high school as a private in the state guard. His remarks were cordially received.

The high school orchestra played snappy march music as the scholars entered and left the theatre. The exercises consumed slightly more than an hour.

### KING ALBERT IMPRESSED

Pays High Tribute to America's Educational System—  
U. S. Armies Wonderful

ON BOARD KING ALBERT'S TRAIN,

Oct. 10.—King Albert has been deeply impressed with America's educational system and attributes the ability of American soldiers to absorb military knowledge in a remarkably short time to the compulsory schooling they receive.

"Your armies were wonderful," he said. "Even your own people did not think, did they, that you could send over two million men in a year? And such fine soldiers they were! They seemed to be born fighting men. I do not know how to say it in English, but there seems to be something in your soil which grows such men. They went 3000 miles to fight for an ideal and wherever I saw one of them, he knew what he was fighting for. It was a tribute to your educational system that they were all so intelligent and that they could be trained in so short a time."

Pointing to a schoolhouse in a village his train was passing, he said: "See the schools are large buildings and it is so all over your country. Everyone here is educated. Not only have you lower schools and high schools and colleges, but institutions of research where young men can get splendid training. They are the peak of the summit."

Pointing to the broad fields over which the train was speeding, he went on: "Here are large farmers and small farmers. It is well that it is so, for the ownership of land makes for increased production. The United States is fortunate in that it has more than its needs of everything and out of its abundance it can supply sustenance for Europe. This year and the next will be the worst. After that we should be able to supply ourselves with food. It is well you use machinery to harvest your crops. In Belgium it is not so. Before the war all the work in our fields was done by hand."

There was a wistful note in his voice as though he were thinking of the men who would go to harvest no more.

"All your people are prosperous," he continued. "They have money. When I was in New York I was in the stock exchange. That is the center of the world's finances."

Turning briefly to American investments in Belgium, he said proudly: "Our people are thrifty and they will pay their debts."

He nodded approval at the suggestion that the purchase of Liberty bonds had taught lessons of thrift and commented on the fact that what he called "state bonds" were not widely held until patriotism opened an unexplored field.

"But everyone had money to buy them with," he added, with a smile.

### WILL RESUME SERIES TOMORROW

If fair weather reigns tomorrow afternoon the Knights of Columbus and Bellevue will renew their baseball struggle at Spaulding Park. It will be

the second game of this important series and a record crowd is expected to be on hand. Although the Knights won the first game in rather hollow fashion, due mainly to the fine pitching of Devlin, the Bellevues are confident of their ability to reverse the situation tomorrow and make a third game necessary to decide the city champion.

ship and the possession of the \$500 purse. The game will start at 3.15 o'clock, Bob Keeler, umpire.

## POLICE AND THE UNIONS

The eyes of the nation have been opened in reference to the value of police officers by the police strike in Boston.

Very few people could be made to believe that in the absence of police officers on the public streets, any large number of men would pour forth as the most dangerous highwaymen, ready to rob, shoot and even commit murder in cold blood. Yet that is what followed the police strike in Boston, not a day or two after, but from the very hour the strike was declared. Would similar lawlessness follow a police strike in Lowell or any other city of importance?

Most assuredly yes, if the strike is well advertised so that the crooks will have time to reach the scene as soon as the police leave their beats. We do not believe that in our own city, we have any great proportion of criminals, but if professional crooks came here from the big cities and led the mob, the men of mild criminal tendencies would follow and join the mob in plunder and rapine.

We mention this simply to show that our policemen are of far more importance to the community than most people suppose. They do not go about with rifles over their shoulders nor do they charge a menacing crowd with fixed bayonets. Oh! no, they go around quietly and prevent trouble, dispersing crowds and preserving the peace without the application of force. When they see a man violating the law, they bring him to the station, but he is alive when he gets there. They do not adopt the methods of the new "cops" in Boston, because a properly organized force finds such methods not only needless but unjust and likely to defeat their own purpose. The police officer thinks he has the right to join a labor union if he so desires. We believe he has no such right, for the reason that he is the servant of the city which is but a part of the state. If he belonged to a labor union as unions are now conducted, he might be ordered on strike at any time by his superior officers in the union and if he heeded such an order, he could not perform his duty to the city which he is sworn to serve. It is true that no man can serve two masters and police officers especially must give their entire allegiance to the city by which they are employed.

In serious labor conflicts all affiliated unions are called upon to contribute, and this regardless of whether the strikers show any respect for the law. Thus at present the police forces of 37 American cities that have joined the A. F. of L. are liable to be called upon to assist in supporting the steel workers on strike under the leadership of W. Z. Foster, a declared syndicalist.

In a great labor strike entailing riotous conduct by the strikers, the police officers belonging to the same labor union would find it very embarrassing to have to arrest their brother members. We know that officers do such things daily, but in case of their affiliation with labor organizations, it seems that even when they had discharged their duty with the utmost fidelity to the city, they would still be suspected if not openly charged with partiality to the union strikers.

To avoid that implication and to leave no question as to their absolute loyalty to the state, it is best that policemen shall not belong to any labor organization. It is now a settled policy that police departments in this state at least must not affiliate with outside labor organizations.

But if they are denied this privilege, they are entitled to fair treatment from their superior officers and the cities they faithfully serve. They are further entitled to fair compensation for the services in the light of the increased cost of living and also of the increased responsibility placed upon officers under the new conditions of our industrial and social life.

The local police officers have been complaining that they have been underpaid. They claim that the pay of policemen should be \$5 per day and we notice that many cities much smaller than Lowell have decided to pay their policemen this amount. This is a question which our municipal council will have to consider in the near future in order that the police may not find it necessary to call in the aid of

labor unions to assist them in securing fair treatment and the wages they deserve.

## REDUCING THE H. C. L.

Judging from the barren results of government efforts to reduce the high cost of living, it appears that there can be little hope from this source at least for the present. All the government can do is to stop profiteering, to prevent the hoarding of food for the purpose of creating an artificial famine that would drive up prices.

This, the government should do and doubtless will do, but still the high price level will remain with possibly a gradual downward tendency that will hardly be noticeable for the next year or two. Meantime, it is quite probable that wages in many industries will continue to advance, a claim being made that the increase during the past three or four years did not keep pace with the prices of commodities.

The statisticians tell us that the highest point has been reached and that henceforth the cost of living will undergo a gradual reduction due to economic laws, wholly apart from any action the government may take.

The actual cause, we might say the main cause, of the high prices is the inflation of the currency which is greater than ever before in the history of this republic because the financial transactions of the war were the greatest ever entered into by our government. The more gold in the country and the more business done on credit, the greater will be the increase in the price of commodities.

Somebody explaining the meaning of inflation of the currency drew an illustration from 2½ per cent beer, stating that you would have to drink three times as much of it to get under the influence as of the old time standard. So, he argued, you have to pay nearly three times as much money for what you buy at the present time as you did ten or twelve years ago. This illustration may not be entirely scientific but it conveys the idea of inflation of the brew which bears a close analogy to inflation of the currency.

The rise of prices in this country has been due mainly to the increase in the supply of gold brought here by purchase of munitions and foodstuffs by foreign nations. That is one cause, but another, perhaps even a greater, has been the vast scale upon which not only the business people but the government itself did business on credit through the banks and other credit agencies.

The effort to drive production beyond normal capacity pushed up wages to an extent which added to the effect of inflation in raising the cost of living. When will the prices get back to normal? That is a difficult question to answer.

One thing, however, is plain, namely, that prices cannot undergo any great reduction until production satisfies the demand for manufactured goods and until much of the debts contracted during the war shall have been paid up. Therefore, the greater the production in all the necessities of life the better will it be for all as likely in the long run to increase the purchasing power of the dollar and thus get back to something like normal conditions.

Those who have been preaching thrift during the past week have told how the people may reduce the cost of living by the practice of economy, by avoiding luxuries and purchasing only what is absolutely necessary. It is undoubtedly true that as a result of the high wages earned during the past few years, a great many people have acquired habits of extravagant living, which, in times like these, must be simply ruinous so far as expense is concerned.

There are many ways in which people of all ages can economize not only in food but in clothes and shoes. Young men who formerly were satisfied with shoes at \$2.50 or \$3 at the most, would not consider a pair of shoes now at less than \$5 or \$9. If they wished to practice economy, many of them could get along with one pair of shoes where they use two, simply by having their slightly worn shoes repaired instead of throwing them aside as useless. These are but a few of many ways in which thrift can be practiced by everybody and the high cost of living thus greatly

reduced, despite the fact that prices have not come down and are not likely to be materially reduced perhaps for several years.

## GREATEST SEARCHLIGHT

The most powerful artificial light in the history of man is said to have been constructed by Elmer Sperry of Brooklyn, N. Y. It is a searchlight with the brilliance of 1,000,000,000 lighted candles. Sperry stands out above all the billions of men as a destroyer of mankind's greatest enemy—darkness. Trace the development of artificial illumination and you have the history of the human race. The cave man's greatest discovery, his greatest legacy to the future, was the introduction of fire as the dispeller of dark night.

It was a momentous date in human annals when Alfred the Great put a horn shield around a candle, thereby creating the lantern (lanthorn.) Alfred's simple innovation meant more for genuine progress than a dozen wars. Inventing a process by which a light could be made to glow in a vacuum required a thousand more years. Moses Farmer of Newport was the first man to have an electric lighting system in his house in this country. That was in 1850. He had 42 incandescent lamps. Folks traveled miles to see it. Today it wouldn't make even a good tobacco advertising sign.

Manufacturing plants equipped with scientific systems of illumination have 10 per cent greater production, 25 per cent better workmanship, 25 per cent less spoilage and 25 per cent fewer accidents. The American public yearly purchases 165,000,000 large-size incandescent electric light bulbs and their efficiency is such that three times as much light is given, per dollar, as 10 years ago. It is a far cry from the old days in France when there was a tax on windows.

Scientists say that eventually we will have canned sunlight. Imagine opening a one-pound can of sunlight and placing it on the table to evaporate and dispel darkness. A pound of light is possible, for light has weight. The light waves from the sun constantly exert on the earth a pressure of 70,000 tons. Sperry's billion-candle-power searchlight, whether of canned sunlight or something else, appeals to the imagination because man's greatest enemy is darkness. Nor is darkness limited to sensations conveyed to the brain through the optical nerves. All ignorance, all injustice, is a form of darkness. In that sense the printing press is the greatest light in history. It shines forth on the roads of eternity as the people march forward through the ages out of the darkness into the light.—N. E. A.

## SENATOR WALSH'S SPEECH

Much interest has been felt in what position Senator Walsh would take in reference to the peace treaty and the League of Nations. Yesterday he made a speech of very considerable length and importance, dealing with the League covenant from the strictly American standpoint and showing why he cannot vote for that instrument in its present form, principally on account of Article 10 which he claims would maintain the territorial integrity of all the nations associated with the league and thereby tend to hold in subjection peoples now and hereafter struggling for freedom.

He denies that self-determination has been granted to any subject nationalities except to those of the powers against which we fought during the war. He believes that self-determination should be extended to the nations held in subjection by the great powers now making a leading part as members and advocates of the League of Nations.

With much eloquence he argued that by adopting the covenant in its present form and joining the League of Nations with the other powers, the United States would compromise her honor and her unbending devotion to the cause of world freedom. The Massachusetts senator strongly protests against any assumption that he could be influenced by any interest other than those purely American. It is thus, he asserts, that he cannot vote for the treaty because it would condone the crime of Shantung and thus place a stain upon our flag and brand our country with perpetration of a crime. It does not appear from the speech that Senator Walsh appeals for anything beyond reservations on our entering into any alliance in which our interests of this republic and prevent our entering into any alliance in which our interests of this republic and prevent

## THE CELEBRATION

All up for the South End celebration, make it a rouser. The South End is awake to the significance of the occasion. It has given a great many boys to the service, many of whom made the supreme sacrifice. For the survivors there will be the most enthusiastic greeting with all due honors and they deserve all the honors that can be bestowed upon them. They proved their valor and their patriotism in the great struggle to make the world safe for democracy.

Fast driving of automobiles in the thickly settled portions of the city is a common practice that must be curbed in the interest of public safety. Even when passing intersecting streets the rate of speed in a majority of cases is more than twice what the law allows.

## SEEN AND HEARD

Not a fly has escaped us this summer, but despite our best efforts we have not been able to kill 'em all off.

Too bad all these welcome home affairs couldn't have been all bunched into one grand, never-to-be-forgotten celebration.

Funny how some girls can board an electric car without making much of a hasty display while others—well, never mind, it's none of our business anyway.

It was Samuel Butler who said: "How loosely our thoughts must hang together when a face seen in the fire, or in the stem of a gnarled tree will lead them into such vagaries at a moment's notice."

If you have occasion to use Dutton street between Merrimack and Fletcher streets you should keep sharp watch for automobiles, for the average automobilist seems to consider that stretch of street a speeding ground.

## Why They Scrambled

A traveler in the dining car of a Georgia railroad had ordered fried eggs for breakfast. "Can't give you fried eggs, boss," the negro waiter informed him, "tess-n you wait till we stop."

"Why, how is that?"

"Well, de cook he says de road's so rough dat every time he tries to fry aigs dey scrambles."—The Housekeeper.

## Good Old Fashion

Modern parents who have departed from the advice of Solomon should note the wisdom of the Stamford, Conn. judge who sentenced eight boys, guilty of trespass, to be spanked in court by their fathers. It was good exercise for the fathers and a valuable experience for the boys. Usually the old-fashioned parent, skilful in the use of the rod, had control over his household. The attitude of the children toward such a parent was one of wholesome fear and respect. Too often the modern parent enjoys neither. Parents have an authority over children which may not be abdicated.—Leslie's.

## Sailors' Superstitions

Time was when sailors would not think of sailing without a charm or pocket piece of some kind to ward off bad luck. Wind beats were a favorite and in nearly every port were maidens to sell them. Tattoos were considered essential for bon voyage especially the butterfly on the shoulder predominated for good luck. A pig tattooed on the foot was assurance the man never would drown, and sailors say not a man is known to have

## Golden Autumn

The bright, fair scenes of summer are fading from our view. And the golden leaves of autumn bespeak a season new. The flowers that painted all the fields And beautified the lawn. Have faded death before the breath Of autumn's early dawn.

But dear old autumn hath her charms. Though flowers on lawn and field Give up the ghost at her command. And to her fanes yield. She nips the bloom of fragrant flowers. Alas! we say, too soon. But there's grandeur in her golden leaves. —By John Carney.

## Comedy of Errors

The fire marshal of the state of Wisconsin has issued a bulletin which he terms a "Comedy of Errors." It says: He looked for a gas leak with a match, and found it. He lighted a match to see if his gas-oil tank was empty. It was not. He smoked while filling his automobile tank, but will do so no more. He smoked in bed; so did the bed clothes. He threw the matches into the waste paper basket. He is wiser now. He threw a cigaret stub into some rubbish. He saved his oily waste and oily rags and they burned the shop. He washed his hands in gasoline near

the stove. The doctor washes them now.—Tobacco Worker.

## MAN ABOUT TOWN

Candy makers, who hitherto have not seemed to feel the exigencies of the sugar shortage now are beginning to feel a tightening up on their supply and as a consequence less candy is for sale today than formerly. You will not notice it in the amounts being displayed in show cases and trays, but it would be noticeable if those on the outside might see the amount in reserve. It is a fact that confectionery dealers are not able to get anywhere near as much boxed candy as was possible a few weeks ago simply because the manufacturers cannot get sugar in such generous amounts. There are most disquieting rumors afloat as to the probability of a real sugar famine the first of the new year, much more serious than the present day shortage. Persons look upon the retirement of the government food control board with apprehension and fears are expressed that refiners will hoard their products, push the retail price of sugar to 13 cents or more and keep up the purchase price by withholding deliveries. A situation may develop which will demand a re-creation of a food control board for the necessities of life.

Landlords of tenement property and

owners of flats and apartment houses have generally instituted a new method of rental payments in the city which bring them much additional revenue. This scheme is to let by the week rather than the month and when one stops to consider this method the reason is easily seen. Apparently figuring that they lost at least a month's rental by the monthly-payment plan, the landlords by the weekly plan get paid for every single day. Consider, for instance, renting a flat for \$40 a month. That means \$480 a year. The landlord says, "I have decided to change your system of rental. Mr. R. and from now on instead of paying \$40 a month, the charge will be \$10 a week." For the moment the tenant gets no difference, but when he multiplies 52 weeks by \$10 he gets \$520. This is a radical change from policies of long standing.

## ATTACK BY GERMANS

Lettish Forces Protest "Violation of Peace Treaty"—  
World Threatened

PARIS, Oct. 10.—(Havas)—German troops attacked Lettish forces on October 8, according to a protest received by the peace conference from the Lettish government. The allies are asked to take decisive action against this "violation of the peace treaty" and to compel Germany to comply with the terms of the Versailles pact. It is claimed German troops in Latvia are "threatening the world and uniting with pro-German Russians."

## BAY STATE LEGION LEADS COUNTRY

BOSTON, Oct. 10.—State Sec. Leo A. Spillane of the American Legion yesterday received word from National Chairman Henry D. Lindsay that reports to Sept. 30 show that the legion has 5901 posts throughout the United States, and a membership of approximately 150,000. These figures, the report states, do not include complete returns from the nation-wide membership drive for 1,000,000. It is expected that there will be 6000 posts by Armistice day, Nov. 11, when the first national convention will open at Minneapolis and the permanent organization effected.

The report states that New York leads in the number of posts, with Massachusetts second in posts and first in paid-up membership.

SALEM, Oct. 10.—At the meeting of the city council yesterday afternoon, a petition signed by all members of the police department, except the executive officers, was submitted, asking for an increase in salary to \$1325 each per annum.

The police also requested one day off in every eight, with pay. The petition was referred to the mayor.

WHERE MRS. WILLIAMS COOKS HOME FOOD.  
SOME OLD FASHIONED HOME RECIPES AS SERVED IN NEW YORK'S LARGEST HOTEL.

(N.E.A. Special to The Sun)  
NEW YORK, Oct.—Home cooking in the largest hotel in the world: Goodby "Terrapin la Maitre d'Hotel!" Farewell "Fillet a la Chateaubriand" and "Leche Crema," and all your little sister "Mousses" and "souffles" and "a la modes!"

"I'll have some beef stew with vegetables, corn pone, a celery salad with cheese dressing, and—let-me-see—yes, here it is! Washington cream pie with jam! And coffee with my dinner! And, waiter! This is to come from the 'home kitchen!'"

The tired man stretches his legs under the table and waits contentedly for a dinner such as mother used to serve at home. He knows just what is coming. No strange French names disguise the dishes on the menu. He runs no chance of indigestion resulting from over rich sauces or seasoning.

The new "home cooking kitchen" in the great Hotel Pennsylvania in New York was a success from the first day it began operating. A woman, Mrs. C. H. Williams, is in charge. She is a most motherly looking person; just the sort to stand in a kitchen door with a gingham apron tied round her waist and call:

"O-o-o-o boys! Dinner's ready!"

The recipes she uses in the world's biggest hotel today are the same her mother and her grandmother used years ago in their country homes.

Here are some of her special favorites:

## WASHINGTON CREAM PIE

1 cup sugar.  
1/2 cup butter.  
1/2 cup milk.  
2 cups flour.  
2 eggs.  
2 teaspoonfuls baking powder.

2 1/2 cups milk.  
1/2 cup sugar.  
2 tablespoonfuls flour.  
1 egg.  
1 teaspoonful vanilla.

Bake in a shallow pan, split and spread with cream when cool. Can be served with whipped cream or jam. This recipe belonged to Mrs. Williams' grandmother.

CORN PONE  
1 large cup of Graham flour.  
1 large cup of wheat flour.  
1 1/2 tablespoonfuls sugar.  
1/2 teaspoonful salt.  
3 teaspoonfuls baking powder.

Sift altogether and add 1 1/2 cups of sweet milk and one well-beaten egg and two tablespoonfuls of shortening. Bake 20 minutes.

DEVILED MUTTON  
Cut even slices of cold mutton.

## These four Ladies have regained their health and strength by taking RED PILLS for Pale and Weak Women

## Saying a good word for RED PILLS

It is now six years since I took RED PILLS for Pale and Weak Women, and I consider it my duty to praise them highly, for they have helped me so much that I am now strong and well. I eat well, sleep well and in fact cannot complain of anything. Two boxes of RED PILLS relieved me, and fifteen boxes put me in fine health. I now take pleasure in recommending RED PILLS for Pale and Weak Women to my numerous friends.—Mrs. PHILIAS GAMACHE,  
2 Coolidge, Lowell, Mass.

## Left suffering by "La Grippe"

After recovering from a severe attack of "grippe" last fall, my constitution was run-down and in a weakened condition. I was constantly troubled with headaches, backaches, poor digestion, and was getting so weak that I had lost all interest in life. I started to take RED PILLS for Pale and Weak Women, and it was not long before I started to feel stronger and better in many ways. In about four or five months my health was completely changed and I was feeling fine.—Mrs. MARY DALY,  
363 Pond Street, Woonsocket, R.I.

## Good for the nerves

RED PILLS for Pale and Weak Women have strengthened me, they have calmed my nerves and helped my stomach. I took twenty-four boxes and was made well. I am now able to digest my food easily, I am strong and courageous and life seems brighter to me than ever before. I therefore do not hesitate one minute in recommending RED PILLS for Pale and Weak Women, so that others may have a chance of being benefited by their use, just as I have been.—

Mrs. PIERRE CARDIN,  
145 Buttle Street, Woonsocket, R.I.

## Benefited fifteen years ago; still well

Fifteen years ago I took RED PILLS for Pale and Weak Women. I was so worn-out through overwork that I was completely exhausted and unable to do anything right. Some of my lady-friends who came to see me, were always speaking of RED PILLS and I grew to believe in them so much that I tried them. Only six boxes were necessary to help me, and I will take them again whenever I feel that I need a good tonic to build up my strength.—Mrs. O. FORGET,  
138 Aiken Street, Lowell, Mass.

## RED PILLS are for Women only

not too fat. Stir together and melt in a clean frying pan two tablespoonfuls of butter and one of currant or grape jelly. When it hisses lay in the mutton and heat slowly—turning several times—for five minutes, or until the slices are soft and very hot, but not until they begin to crisp. Take out the meat, lay on a warmed dish, cover and set over boiling water. To the butter and jelly left in the pan add three tablespoonfuls of vinegar. A small teaspoonful of made mustard. A quarter teaspoonful of salt. Half as much pepper as you have salt. Stir together over the fire until they boil, and pour on the meat. Cover three minutes over boiling water and serve. This recipe was originated by Mrs. Williams' mother.

WHITE CUP CAKE  
1 cup of butter.

2 cups of powdered sugar.  
3 cups prepared flour.  
1 cup of sweet milk.  
Whites of 5 eggs.  
1 teaspoonful of essence of bitter almond.  
Cream, butter and sugar; add milk and beat hard before putting in the whites of the eggs. Stir in flavoring and, lightly and quickly, the prepared flour. Bake in small tins.

#### DAD IS A FUNNY MAN IN THE FALL

What's the reason for the worried look on mother's usually happy face? Why does she sit around aimlessly with a dust cloth in her hand, a bunch of wrinkles on her brow and eyes full of ready-to-er tears? Why, too, does the maid look like a spring thunder cloud ready to strike on a moment's notice? What in tarnation is the matter with the family anyhow? It's Dad!!!! Dad? Yep. Father is off again on his annual fall rampage. He's cleaning out the furnace preparatory for firing it up during the chilly season and round about him and hither and yon and everywhere hangs a mantle of dust induced by his operations. There's dust on the American beauties sent to sister by her best particular beau and, in consequence, sister, too, is ready to turn on the weeps at a moment's notice. There's dust, likewise, on the family cat though the poor critter has licked her tongue callous trying to keep herself clean. There's dust on Rover, too, which makes him feel as though the good old summer time is back again with autos delightfully spraying grime upon him as he yelps excitedly in the dust of the street. There's dust here, there and then some, particularly on Dad. But never a worry or care gives Dad to this fact. He's having the time of his life "cleaning" and thereby deranging the internal workings of the furnace, as per his usual good-intentioned custom, as a result of which some pleased steam-fitter will keep himself and three assistants busy for two weeks repairing the damage. It's enough to make women weep. Isn't it, to think of all the expense Dad is running up by his "cleaning" activities? But it isn't this aspect of the thing which is proving so perturbing to mother and sister and the maid. It's the thought that now they'll have to do so much hard work over again. You see, as usual, Dad is cleaning the furnace after the women have finished the fall housecleaning!!!!

## DENIAL MADE BY JAPANESE

Declares Japanese Did Not  
Threaten to Join in Attack  
on Americans

Also Says No Apology Was  
Demanded by Americans  
in Siberia

TOKIO, Friday, Oct. 3. (By the Associated Press.)—Reports that an apology was demanded by American authorities in Siberia from Japanese officials or that the Japanese threatened to support Cossacks in the recent encounter at Iman, north of Vladivostok are denied in a statement issued by the general staff here today. The statement says:

"According to facts which have been ascertained by the Japanese army, two Americans were arrested by Cossacks on the charge of having prevented by force, the discharge of his duty by a Cossack officer at Iman, Siberia, on Sept. 4. The Americans were transferred to Khabarovsk on Sept. 6. On the same day three companies of American troops with machine guns arrived at Iman. One company deployed against Cossacks in the neighborhood and the Japanese garrison. The two others were deployed in the town itself.

"The Cossacks, military policemen, were arrested by the Americans who subsequently left. The headquarters of the Japanese garrison volunteered its good offices and through its intermediation the Cossacks willingly returned the arrested Americans to the headquarters of the 14th Japanese division. Simultaneously the Americans returned the Cossacks they had arrested. It is absolutely untrue that any apology was demanded or that the Japanese threatened to 'back the Cossacks' if the Americans did not return the captured military policemen.

Original reports stated that Captain L. P. Johns of the 27th regiment and Corporal Benjamin Sperling of the 31st, were arrested at Iman by Cossacks on charges of not having on their persons identification papers and that Sperling was flogged. It was said that Captain Johns escaped and

Made Well and Strong by  
Lydia E. Pinkham's Veg-  
etable Compound.

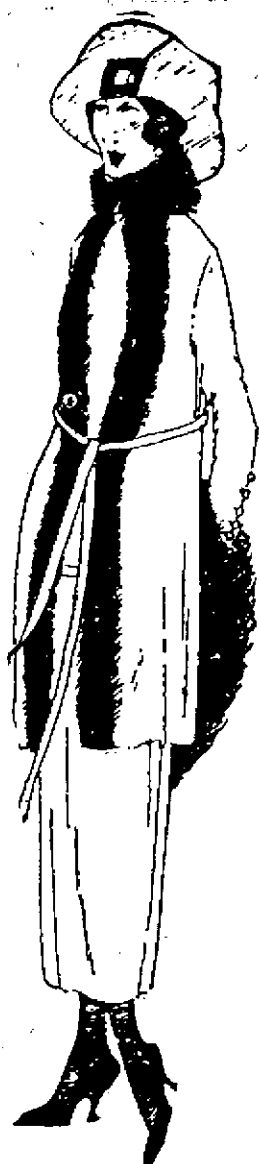

Columbia, Pa.—"I was very weak and run down and had dragging-down pains and pains in my back. I could not get around to do my work and had to sit down and rest oftentimes. I saw Lydia E. Pinkham's Vegetable Compound advertised in the papers and read the testimonials, so I thought I would try it. Now I am healthier than I ever was in my life, and can recommend it to any woman who suffers as I did."

—Mrs. ELIZABETH MAY, R.F.D. No. 1, Columbia, Pa.

The reason Lydia E. Pinkham's Vegetable Compound is so successful in overcoming women's ills is because it contains the tonic, strengthening properties of good old fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence, and the letters which we are constantly publishing from women in every section of this country prove beyond question the merit of this famous root and herb medicine.

went to Spassko, where he reported the incident to his commanding officer. Later an American detachment was said to have gone to Iman, where the release of Sperling was demanded. It was stated that a Japanese major interceded for the Cossacks, stating that if hostilities developed between the Americans and Cossacks the Japanese would side with the latter. It was subsequently learned that Sperling had been taken to Khabarovsk, General Kalmikoff's headquarters to which a telegraphic demand for his release was sent. He was immediately turned over by the Cossack authorities. It was said and later an apology was made by General Rozanoff, commander of the Cossacks involved, to General Graves, the American commander.

COAT SUIT TRIMMED IN SKUNK

(By BETTY BROWN)

NEW YORK, Oct. —In spite of the fact that evening and afternoon dresses are being built with fuller lines as to skirts, creations for street wear are still showing the slender silhouette.

The coat suit sketched today is made of luscious brown "peach bloom," perhaps the loveliest of all the new fabrics. It has a vest of self material. The opening of the coat is edged with skunk. The collar is also of the fur.

The sleeves are light-fitting with cloth covered buttons running to the elbow. The coat is boxed, dropping in a straight line under the arms, and is caught loosely at the waist line with a narrow string tie of the goods.

The hat worn with this costume is a big soft am-like affair made of the same material as the suit. Its

## Shots Fired at Soldiers at Gary

CHICAGO, Oct. 10.—With the best day's output since the strike was called behind them, steel operators in the Chicago district today reported they expected a continuation of the gradual improvement in the labor situation. Half a dozen shots have been fired from ambush at federal soldiers at Gary. State militiamen continued their drive against illicit saloons at Indiana Harbor. Forty women pickets at Indiana Harbor were dispersed last night by the state troops.

### FORMER MEMBER OF ROMANTIC NORTHWEST MOUNTED POLICE SPEAKS AT GRACE CHURCH

Straight-shooting, clean living, and counting no risk too great in the performance of their duty—that is how Daniel A. MacKay, a former member of the Canadian Northwest Mounted

Police, who was the principal speaker at a coffee party at the Grace church last evening, described this fearless body of men, famous the world over for their exploits and ability in running to earth the lawless element of the great northwest.

Mr. MacKay devoted considerable of his talk to the long period of training which applicants for the force must undergo before they can become active members of the organization. He also told of many interesting experiences while trailing the "bad men" of the wilds. He didn't say so in so many words, but one listening to his narrative couldn't help but get the impression that in his opinion there was no body of men on earth who could quite compare to this great organization, who have carved their names deep in the annals of Canadian traditions.

## HOLIDAY IN CINCINNATI

## Acting Mayor Issues Proclamation—City Honors New World Champions

CINCINNATI, Oct. 10.—Hilarious Cincinnati rose this morning to celebrate as a public holiday the triumphal return of the Reds from Chicago, where they won the baseball championship of the world yesterday from the White Sox.

A proclamation calling on all citizens to observe the day as a public holiday from 8 o'clock until noon, was issued by Acting Mayor Carl Jacobs and was widely observed, many business houses remaining closed. The proclamation urged all Cincinnatians to be present at Fountain square at 10 o'clock to pay homage to the world champions.

Joy ran at flood tide last night. Impromptu processions formed and marched through all sections of the city, representative men of affairs met at the Business Men's club and appointed committees for the celebration today. Word was sent to all fire stations to ring the bells today when the conquering heroes arrived.

Members of the business men's reception committee escorted the Reds to

waiting automobiles and the entire party, including the wives of the players, went to the Business Men's club for breakfast.

## HOW SERIES MONEY WILL BE DIVIDED

CHICAGO, Oct. 10.—The players on Cincinnati team will receive \$117,157.68, which, divided into 22 half shares, will net each share \$5327.01.

The White Sox will get \$18,104.70 and each of the 24 players will receive \$3254.36.

The national commission obtained \$72,241.40 or one-tenth of the total receipts of \$722,414 taken in, exclusive of war tax on all eight games.

The totals for eight games follows: Attendance, 286,925; receipts, exclusive of war tax, \$722,414.

Players' share, \$286,240.70. Club's share, \$389,522.00.

Total for Cincinnati Nationals, \$117,157.68.

Each player, 22 half shares, \$5327.01. Total for Chicago Americans, \$78,104.70.

Each player, 21 shares, \$3254.36.

Second teams of leagues: New York Nationals and Cleveland Americans, each \$19,526.21.

Third teams of leagues: Chicago Na-

tionals and New York Americans, each \$12,017.45.

While there are 24 players on the Red's team, three were allotted only a half share by a vote of the entire team, thereby cutting the total shares to 22½.

## TEXTILE WINS

## Local Eleven Downs Dean By Score of 12-6

The Lowell Textile school football team won a hard fought contest from Dean academy yesterday afternoon at Franklin by the score of 12-6. The battle engendered a little too much rivalry in spots and a difference of opinion between the umpire and referee late in the game caused some of the more exaltable players to stage a Willard-Hempsey. It was all over in a few seconds.

Textile played the better brand of ball and deserved to win. Dean was not fussy how plays were stopped as long as the object was accomplished and therefore pulled a lot of rough stuff the local boys resented. Dean scored in the first period when a long forward pass was completed and Shaffer, right end, flopped over the line for a touchdown. The try at goal failed.

Textile scored in the second period and again just before the game ended. A discussion arose as to the second touchdown, but finally it was allowed.

## HIGH SCHOOL TEAM TO MEET WOBURN

The Lowell high school football team goes to Woburn on Columbus day to play the high school eleven of that town. An automobile trip will leave the school annex at 8:30 o'clock in order to allow for plenty of time. The game is scheduled for 10:30. Not only will the first team and substitutes be taken on the trip but also every man who has not missed a practice session this season to date. The team has been working out daily at Spaulding park and it will be a far smoother eleven on Monday than the one which lost to Nashua high a week ago today.

The new school ruling whereby a student who engages in athletics may be exempt from military drill is meeting with general favor by the boys. It will show its effect upon the athletic teams and may have a tendency to unearth good material which otherwise would never be sought out.

Official estimates put the number of British, French and German-born wives brought home by soldiers of the A.E.F. at 18,000.

## WENT THROUGH ROPES

## Dixon Fell in First Round and Bout With Reed Declared "No Contest"

Pal Reed and Paul Dixon, principals in the main bout of the initial show under the new management at the Crescent club last night, had a very brief session, with activities terminating in the first round when Dixon fell through the ropes, striking his head on the boards extending outside the ring and dropping to the floor. The club physician examined Dixon and declared that while he was not knocked out by a blow, he was incapacitated, and hence referee Matty Carney declared it "no contest."

The accident marred an otherwise classy program. All the other bouts were full of action and had the members in a very enthusiastic mood throughout.

Reed, in the brief time he was in the ring, showed wonderful form and had a pronounced lead over his opponent when the end came. Reed who when here before showed much class as a hitter and aggressive worker, displayed remarkable cleverness last night. He stepped around like lightning and worked a left jab and right cross to advantage. Dixon did not appear to be able to get going, for Reed put forth a boxing attack.

Reed, a southpaw and a difficult man to solve. He was traveling at a fast clip when Dixon went against the ropes. Reed maintained that Dixon went out as a result of a left to the chin, but the referee's contention, which was upheld by two physicians, must be accepted.

The semi-final justified all the favorable advance notices, for it proved to be a hummer from bell to bell. Kid Pionas of Lawrence and Young Leonard of Chelsea, the performers and a better matched pair would be hard to find. Leonard got the jump, but toward the final stages Thomas came to the front and in the third round, the eighth, he uncorked a great burst of speed that brought him the award.

Young Demas and Young Dimond, two local rivals, met in the second preliminary, which was marked by abundant action while it lasted. It went two rounds. The fight was fairly even, but in the second Dimond had the advantage, and one of Demas' seconds threw in the towel, in token of defeat. Demas protested but it was of no avail.

In the first prelin a new "champ" made his debut. He is Young Panceo and he displayed much class. He met Dinky Welsh and after four whirlwind rounds Panceo slipped over a sleep producer in the fifth and the curtain came down.

There was a good attendance and the announcement that checks would be good for the next Thursday, when Barney Adair and Jimmy Duffy will meet, met with applause.

Young Norton desires a return match with Kid Murphy. He is training hard for a series of matches and says that he will be ready at any time to step into the ring. He declares that he would like nothing better than to meet Murphy on a winner-take-all basis.

Young Demas who lost to Young Dimond last night, when one of his "seconds" threw a towel into the ring called up The Sun this morning and announced that he had "fired" his manager and was looking for a new handler.

Word comes from Lawrence that a record crowd is expected at the Kloby-Dunne bout at the new Cuddy arena on Monday afternoon. Both boys are reported to be in great condition and ready for a fast mill. A strong preliminary card will precede the main event.

Pure glycerin will help to dissolve fruit stains from linen.

## ANOTHER LABOR CRISIS

Agitation for Nationalization  
of Mines Now Confronts  
British Cabinet

LONDON, Oct. 10.—The agitation for nationalization of mines, which now confronts the cabinet is admitted in labor circles to be a step toward nationalization of all industry.

"The nationalization of mines," says the Herald, the labor organ, "is the question immediately at issue, but is of course, a precursor to a complete policy of nationalization of industry. Here is the battle joined."

On neither side is there any doubt that the fight will be stern. The Herald recognizing this, says:

"The possessing class, the class which lives on labor of others, has everything at stake and will shrink from nothing in an attempt to frustrate the movement."

Representing the anti-nationalization view, the Telegraph does not expect the miners to be converted from their present opinion, although it sees some little hope in the appeal to other trade unionists. It adds:

"The prospect is the reverse of attractive. It means renewed trouble and unrest, and that at a time when the nation can least afford it." The Special Trades union congress which will consider Premier Lloyd George's reply to the deputation yesterday will convene on Oct. 22.

The premier informed a deputation yesterday that the government was unable to adopt the proposals made by the coal commission headed by Sir John Sankey and the miners are greatly dissatisfied. Frank Hodges, secretary of the miners' federation, said after the conference.

"The government's attitude has created a very grave situation."

The addresses made by members of the deputation to Lloyd George are not marked by bluster or violent lan-

guage. Their statements were intended to show by reasoned arguments that nationalization of the mines was entirely in the interests of the community and also that the miners were supported in their demand by trade unionists throughout the country. From quoted statements of prominent labor leaders, it is apparent they not only believe nationalization desirable, but are convinced there will be a constant unrest in the labor world until it is granted. It appears to be their impression that if extreme action is necessary to enforce the demand, it will not only be the miners who will strike, it trade unionists generally.

It is becoming increasingly evident that, apart from arguments claiming that nationalization would be a benefit to the community, there is a strong feeling among workers that the present system of private ownership carries with it indefensible injustice to the miners.

Premier Lloyd George in the course of his speech yesterday to the delegation of miners, says the Central News, left the inference that if a large and powerful section of the community continued to press for the policy of nationalization which would have far-reaching effects upon industry it would be necessary that the entire nation be given the opportunity of declaring its attitude.

Here's the story of the origin of "gringos." American soldiers of the Mexican war sang in camp "Green Grow the Rushes, O." From this the Mexicans called them "Gringos."

HELD HUSKIN' BEE  
AT WILLOW DALE

A real old fashioned huskin' bee—with "Red Ears" and all the time-honored "dixie"—was held at the 11 and G camp at Willowdale last evening, and 30 young local couples who attended the event found plenty of enjoyment in the varied entertainment program arranged by the committee in charge.

Following the "husking," a musical program was given by some of the young folks, which included piano selections by Miss Kitty McAuliffe; songs by Miss "Mickey" Flinnerty; original dancing exhibition by Miss Helen Corkery and John Joyce; and novelty songs by John Roane, Jr. A buffet luncheon was served by Caterer Harvey.

The first prizes in the husking bee went to Miss May Plannery and Dick Mann, and the "Red Ear" prizes were won by Miss Agnes Burroughs and Thomas Horgan.

The committee in charge of the event were, Mr. and Mrs. John Gleason, John Roane, Jr. and Louis Awilly.

## NAVAL RECRUITING

Only one naval recruiting mission now remains in the city, the party from the armored cruiser U.S.S. Huntington. It is probable that after this month no further parties from Uncle Sam's big ships will visit the city, as after the latter part of the month individual enlistments—that is, signing up for any particular ship—will be discontinued.

# STOCK MARKET

NEW YORK, Oct. 10.—Shares of the electrical equipment companies were active in the early dealings on the stock exchange today. Westinghouse and General Electric leading at gains of two and six points, respectively. Steel equipments were also favored. Harvester featuring. Oils and motor subsidiaries, particularly Stromberg, continued to extend yesterday's material advances and shipping moved forward on buying of marine preferred and American International. United States Steel repeated yesterday's highest quotation and rubber specialties were substantially better. Investment rails strengthened on active buying of Southern Pacific.

The market passed briefly after the opening profit taking, being induced by the many gains in specialties. Prices soon moved forward again, however, on the greater activity of steel. United States Steel rose 1 1/2 to 11 1/2. Its best quotation since the beginning of the strike. Associated Realties, notably Bethlehem, Lackawanna, Republic and Pressed Steel car, were one to four points higher. Equipments, motors and oils increased the early gains and the demand for Southern Pacific extended to other rails. Coppers responded to moderate buying, Utah and Inspiration leading. Call money opened at 8 per cent.

United States Steel made only the slightest additional gains on publication of the September tonnage figures, but other stocks and equipments continued to advance and shipping shipplings, oils and motors also extended their gains, new high records being registered by Mexican Petroleum and Stromberg.

Profit-taking under cover of another advance in rails, equipments, motors and oils marked the final hours, but reactions from highest quotations were nominal. The closing was strong.

## INCREASE IN UNFILLED ORDERS OF STEEL

NEW YORK, Oct. 10.—Unfilled orders of the United States Steel corporation on September 30 were 6,254,633 tons, according to the corporation's monthly statement issued today. This is an increase of 175,335 tons compared with the orders on August 30.

This is the fourth consecutive month to show an increase since the low level of 4,252,310 tons was reported for May. The upward trend began in June and has been steadily progressive.

**COTTAGE NO. 155 WEST SIXTH STREET, CORNER WEST**  
This house has seven splendid rooms, four on the first floor, and three chambers on the second; also pantry, toilet, gas, city water, and sewer connections. The house is supplied with two side entrances, has cemented cellar and is in perfect repair; only recently being entirely gone over. The lot is of good size and dimensions, having a splendid frontage on the two streets, is fenced on all sides. This cottage, with its corner location and being of full size makes it a most attractive home.

Terms: \$200 must be paid to the auctioneer as soon as struck off, other terms at sale.  
**COTTAGE NO. 151 WEST SIXTH STREET**  
Has six good rooms, besides large pantry, gas, city water, toilet and sewer connections; the house has three rooms on the first floor and three chambers on the floor above, has side entrance and is in A-1 condition, the building only recently being thoroughly renovated inside and out. The lot is of good area, with a corresponding frontage on West Sixth street, and is fenced on all sides. The premises have been occupied by the one tenant for the 15 years past, which fact in itself speaks of the premises as most attractive. Terms: \$200 must be paid to the auctioneer just as soon as struck off, other terms at sale.

In the offering of the above described cottages at public sale, the opportunity to secure a home in this, an essentially home locality, within easy and comfortable walking distance to downtown square, to the various mills and factories, and have a home all by yourself is here given. With the great scarcity of tenements, and with the large number of people of moderate means looking to buy a home, and with the very few parcels suitable for sale, this chance to obtain a home in this splendid location should be acted upon by the many, many numbers of home-seekers.

In all probability a most liberal mortgage can remain at 6 per cent. Make all inquiries at the office of the auctioneer.

Per Order of JOHN C. LEGGAS, Attorney.

## Introducing the Two Leading Clerks of Our New Furniture Department

MR. SPIRIDION LIPPE, Manager.

MR. WILLIAM H. WILLIAMS.

We take great pleasure in announcing that our New Furniture Department is under the able management of Mr. Spiridon Lippe, whose picture is above reproduced. Mr. Lippe, who is the buyer of this important department, has been connected with the furniture business in Lowell, for more than 50 years. His connection with the Bellefontaine furniture store, on Middlesex St., for the past 15 years has been more than successful. Under his careful management, we have every reason to believe that the trade will receive the most courteous treatment and satisfaction in every detail. Mr. Lippe extends to all his most heartfelt welcome.

Another important feature that we are proud to announce, is the fact that Mr. William H. Williams, formerly proprietor of the Williams Furniture Co., at 110 Middlesex St., has assumed the assistant management of our New Furniture Department. Mr. Williams has been in the furniture business in Lowell, for the past 30 years and as vice-president of the Home Furniture Association of Massachusetts, his dealings have brought him in connection with the leading furniture manufacturers and dealers of this country. With the elaborate stock of up-to-date merchandise, as can always be found in our store, Mr. Williams is assured of giving satisfaction to all and specially to his former customers, to whom a continuance of patronage is earnestly requested.

**SERVED TERM OF ONE DAY**  
BOSTON, Oct. 10.—After spending six and one-half hours in jail yesterday, William J. O'Brien, president of the Boston Fish Market corporation, was released at midnight, his term ex-

piring at that time. O'Brien who was a witness several months ago in a federal proceeding against an alleged combination of wholesale fish concerns, voluntarily changed his testimony regarding his disposition of stock in one of the companies, admitting that his

first statement was at variance with the facts. Later he pleaded guilty to the charge of perjury and yesterday was ordered to jail for one day and to pay a fine of \$500.
